2.6 Material Variances to the SDBIP

The following section analyses material variances between the actual targets as at 30 September 2018 and the budget for the same period. This report analyses each major component under following headings;

- ✓ Revenue by Source
- ✓ Operational Expenditure by Type, and
- ✓ Capital Expenditure
- ✓ Financial Position
- ✓ Cash Flows

REVENUE

The chart displays a comparison between the 2018/19 financial year revenue budget and the performance against this budget as depicted in the form of Year to date (YTD) Actual figures. It should be emphasised that the information presented relates to "performance" rather than "cash movements" in terms of the revenue items listed below. This accounting principle relating to municipal performance is best illustrated in the analysis that follows.

Chart 3: Revenue Analysis

Water & Sanitation Charges

The year to date **actual** water & sanitation charges (**billing**) as at 30 September 2018 was R18, 3million against a year to date **budget** of R14, 7million.

Interest Earned on External Investments

The year to date actual interest earned on external investments for the period ended September 2018 is R2, 7m or 160% actual against year to date budget of R1, 7million.

Transfers Recognised - Operational

The operational grants revenue of R132, 5million against a year to date budget of R82, 2million is largely attributable to the YTD equitable share received.

Transfers Recognised – Capital

The low expenditure trends on grant funded expenditure had resulted in a rather lower than expected recognition of Income against the set targets. The actual R32, 1million (against a YTD budget of R87, 4million) represent the conditions met in capital expenditures against the conditional grant allocation received. This amount represents 37% performance in Conditional Capital grant funding expenditures

Other Revenue

The YTD performance of other revenue is R49 617 against YTD budget of R1, 2million representing over performance of 4 per cent.

OPERATIONAL EXPENDITURE

The chart below presents the YTD operational expenditure movements against the YTD budgets. An analysis of each expenditure line item category is discussed below.

Chart 4: 2018/19 Financial year Opex

Performance assessment

The Performance Assessment Report will be available on the fourth quarter in terms of Sec 52 (d) of the Municipal Finance Management Act.
