APPENDICES

- VOLUME 1: ANNUAL PERFORMANCE REPORT
- VOLUME II: ANNUAL FINANCIAL STATEMENTS
- GLOSSARY OF TERMS AND ABBREVIATIONS

Accessibility indicators	Explore whether the intended beneficiaries are able to access services or outputs.
Accountability documents	Documents used by executive authorities to give “full and regular” reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe "what we do".
Adequacy indicators	The quantity of input or output relative to the need or demand.
Annual Report	A report to be prepared and submitted annually based on the regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include annual financial statements as submitted to and approved by the Auditor-General.
Approved Budget	The annual financial statements of a municipality as audited by the Auditor General and approved by council or a provincial or national executive.
AR	Annual Report
Baseline	Current level of performance that a municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period.
Basic municipal service	A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment.
BDS	Blue Drop Status
Budget year	The financial year for which an annual budget is to be approved – means a year ending on 30 June.
Cost indicators	The overall cost or expenditure of producing a specified quantity of outputs.
Distribution indicators	The distribution of capacity to deliver services.
DMA	District Management Area

DoT	Department of Transport
DWA	Department of Water Affairs
EXCO	Executive Committee
F/Y	Financial Year
Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.
GAMAP	Generally Accepted Municipal Accounting Practice
GDS	Green Dr.op Status
General Key performance indicators	After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally
GRAP	Generally Recognized Accounting Practice
HR	Human Resources
I GR	Inter-Governmental Relations
LED	Local Economic Development
LGSETA	Local Government Sector Education and Training Authority
MDG	Millennium Development Goals
MFMA	Municipal Finance Management Act
MSA	Municipal Systems Act, 32 of 2000
MTAS	Municipal Turn Around Strategy

PMS	Performance Management System
RPMS	Regulatory Performance Management Systems
SDL	Skills Development Levy
HGDM	Harry Gwala District Municipality
VAT	Value Added Tax
WSDP	Water Services Development Plan

WSMP	Water Services Master Plan
WSP	Workplace Skills Plan

The purpose of this Annual Report

- To provide a record of the activities of the municipality or entity during the financial year to which the report relates;
- To provide a report on performance in service delivery and budget implementation for the financial year;
- To promote accountability to the local community for the decisions made throughout the year by the municipality or municipal entity; and
- To reduce the additional reporting requirements that will otherwise arise from Government department, monitoring agencies and financial institutions.

## 1.1 CHAPTER 1– Mayor’s Foreword and Executive Summary

The Harry Gwala District Municipality’s vision is “to be a leading Water Services Provider in the KZN Province with its communities benefitting from a vibrant agriculture and tourism sector by 2030”. The mission of the district is to work together with communities and all stakeholders to ensure the provision of clean, drinkable uninterrupted water services and proper sanitation facilities as well as to improve its agriculture and tourism sectors to enhance human dignity. The 2022/2023 financial year Harry Gwala District has achieved unqualified audit opinion.

Looking back on the period under review, we can proudly proclaim that, through a range of targeted intervention and strategic policy directives, we have again succeeded to put our people first. Not only have we taken a great care to identify and respond to the needs of our community as captured in our Integrated Development Plan (IDP), but the quality of services delivered during 2022/2023 financial year have also strongly put us on a path to achieve our vision to be the leading water service provider in the province, in so far as providing strong leadership, good governance and sound financial management as we moved from unfunded budget to the funded budget.

Our IDP highlights the identified needs of our residents for health and dignified living, safe communities, accessible economic opportunities and effective service delivery. The IDP informs our budget and creates opportunities throughout the District, as far as limited resources can reach.

To improve good governance and accountability, our policies and strategies are regularly reviewed annually to ensure that it remains relevant and that the Municipality’s Management System stay effective, efficient and transparent. The Municipality ensured the alignment of its core Service Delivery Strategy with the National Development Plan (NDP-2023 Vision) and the Provincial Strategy.

Illegal water connections in some of the areas continue to cause a serious challenge to service delivery and unless we take drastic measures, our efforts to ensure uninterrupted water supply to communities will remain compromised. In a number of occasions, the abnormal demand for water, as a result of unauthorised connections, result of some of our water systems being overworked. This, amongst other things, cost the municipality financially and tend to also cause social unrest. As we work around the clock to try and address water and

sanitation issues, we request all stakeholders to become active partners and reflect on our shared responsibility to use water more sparingly and also report any suspicious and illegal water connections.

The people of Harry Gwala District Municipality expect the municipality to provide an uninterrupted water and sanitation services which requires full cooperation of our residence towards the payment of municipal services. We are making all strides towards mitigating risks, improvement of our billing system, improvement of our water infrastructure and bettered municipal financial management.

I wish to extend a word of appreciation to the Political Leadership, Stakeholders and Staff led by the Municipal Manager for ensuring stability in political and administrative day-to-day work within our District Municipality.

The Municipality will continue to make improvements where and when necessary so as to improve on service delivery and in changing the lives of the people for the better.

Conclusion: The adopted IDP set out Council's development path, goals and actions for Harry Gwala District Municipal Areas for the next reporting year. Even though we have a huge challenge in stimulating the economy as a country, however, job creation, sanitation and providing clean water to our community will remain pressing priorities for this District.

Yours in development,

Councillor Z.D. Nxumalo

THE MAYOR

HARRY GWALA DISTRICT MUNICIPALITY

## **1.2 MUNICIPAL MANAGER'S FOREWORD**

The Municipal Manager as the head of administration is accountable for the proper functioning of the administration as contemplated in the Local Government Municipal Systems Act No. 32 of 2000 and in accordance to legislative prescripts such as the structures act and the municipal finance management act, subject to the policy directives of Council. These responsibilities require accountability for all income and expenditure, all assets and the dis-charge of liabilities including compliance with legislation pertaining to municipal finance. Section 51 of the Municipal systems act provides for the general responsibilities of an administration with the onus of the municipal manager who has to see to the implementation of these values and principles. Section 51(d) stipulates that all staff and councilors must align their roles and responsibilities with the priorities and objectives of the IDP, by ensuring that everyone contributes towards its implementation as it is the most important strategic document in a municipality.

As the administrative head, there can be no escape from roles such as transforming the municipality and regulating internal affairs, working together with Management, the Executive Committee, the District Mayor and Council. This financial year, communication between Council and the administration has been effective and a leading factor to the achievements of the District. Information sharing by departmental heads and officials has been relatively accomplished as a result of procedures that have been put into place. The smooth running of a municipal administration is dependent on concentration to detail to legislative prescripts. Our municipal administration has ensured responsiveness to the needs of our communities by exercising transparency in facilitating inputs through public participation such as in the form of IDP road shows, the publication of various notices and our quarterly newsletter, so that information is easily made available to the communities that are provided with services.

The annual report provides a comprehensive record of activities that have been undertaken during the 2022/2023 financial year and a report on performance against the approved budget, service delivery and budget implementation plan as well as the Integrated development plan. It fairly presents the state of affairs of the entire administration regarding its business initiatives, its financial results and the performance against predetermined objectives that include prescribed financial management performance indicators and the financial position at the end of the financial year. Key successes are an indication of achievement and lack of success are an encouragement of the need to improve and do more. Future goals and objectives have been stipulated which provide light to the prospects for the future year. This Annual report gives a clear perspective on the performance of the municipality and the implementation of plans that seek to address service delivery within the

District. Good working relationships between the institution and Council in pursuit of strategic and operational best practices has been paramount when dealing with communities. During the 2022/2023 financial year, Council oversight played a pivot role in realizing the strategic programs and projects that require implementation on an annual basis.

#### STATUS QUO OF THE CURRENT STATE OF AFFAIRS

The financial year 2022/2023 was a year of transition in the administration and was encapsulated by many different service delivery challenges that

have been managed and addressed so as to continue to deliver on the District's constitutional mandate, which is primarily to supply water and sanitation to the local communities. Our Integrated development Plan is revised annually and involves the re-evaluation of highlighted priorities that entail current plans, that are in line with the Budget, utilizing the available human resources and infrastructure. Strategic objectives were set and the necessary effort was made to provide a realistic approach in attending to service delivery deliverables.

A service delivery and Budget Implementation Plan (SDBIP) which is aligned to the Budget and IDP reflecting each directorate, was prepared and adopted by Council. As a District municipality, we have been working hand and glove with our Entity, the Harry Gwala Development Agency, to provide support and guidance where it is needed. The audit opinion that was receive from the Auditor General for this financial year was a qualified audit opinion, which has provided eagerness within the administration to aspire for a better outcome for the next financial year. Working together with management, our goal is to communicate effectively with our stakeholders in order to build trust and credibility. Components of our annual report include a profile of our municipal business that include mapping and graphics, narratives, an entire analysis of our management strategies and the financial statements for the current financial year.

This annual report is a true reflection of the District's municipal performance and a means of communicating it to all our communities and relevant stakeholders.

I Thank you.

---

MUNICIPAL MANAGER

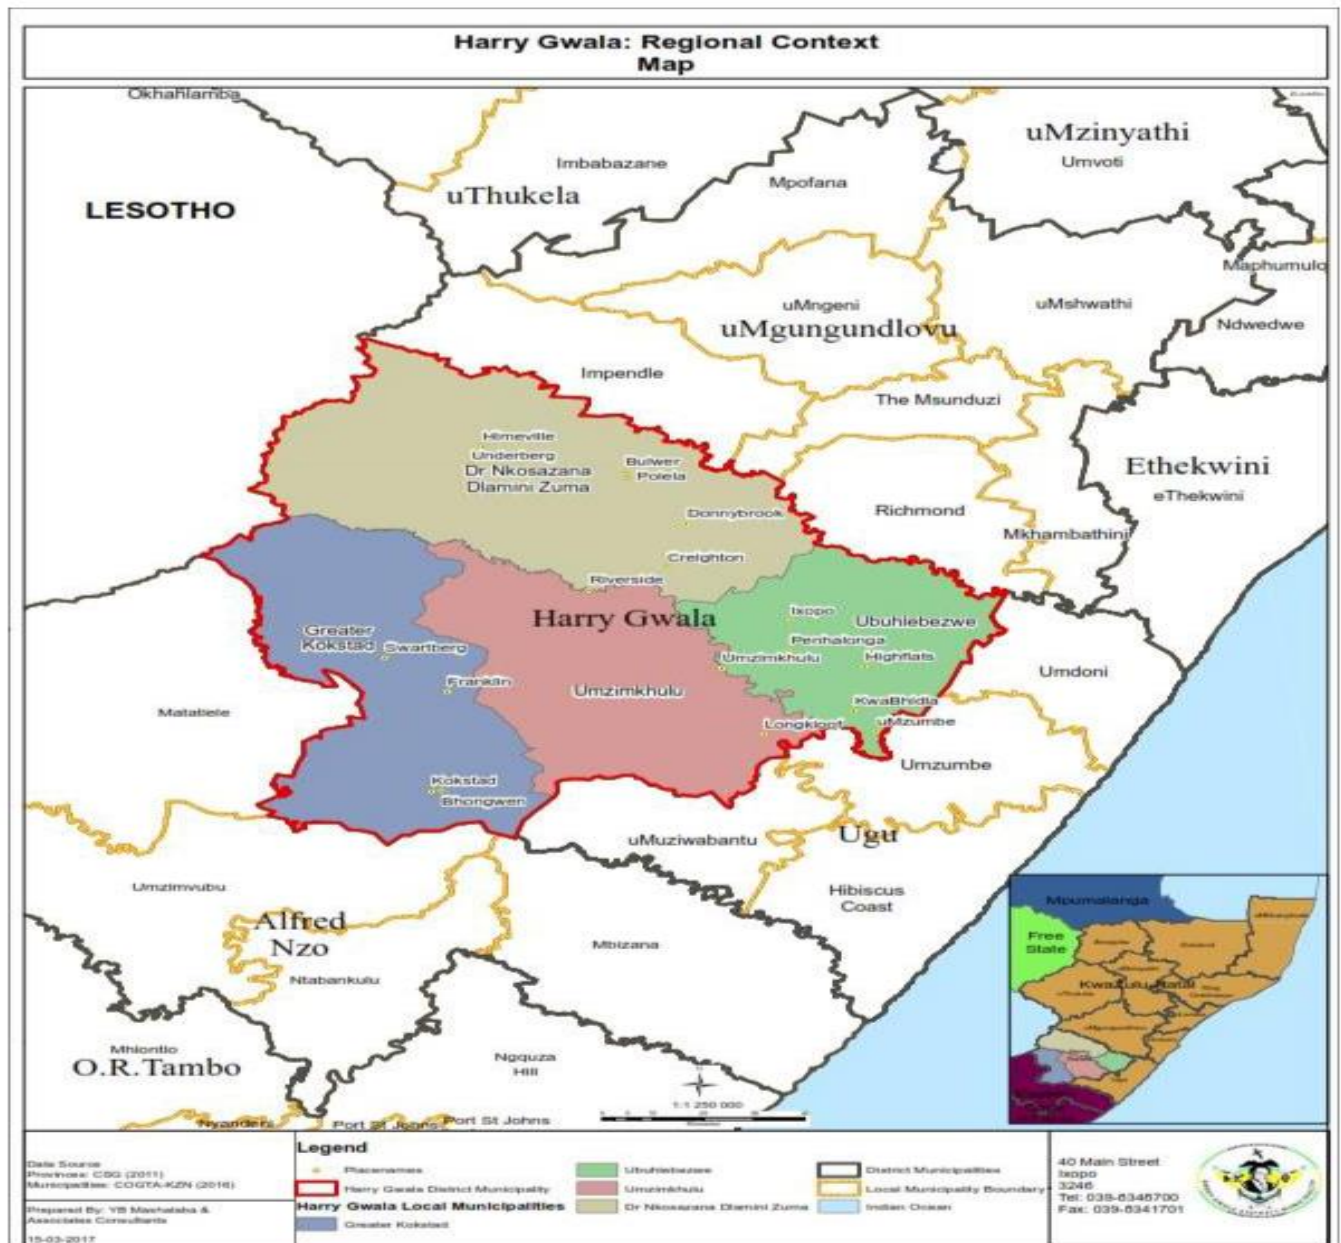

MR. G. M. SINEKE

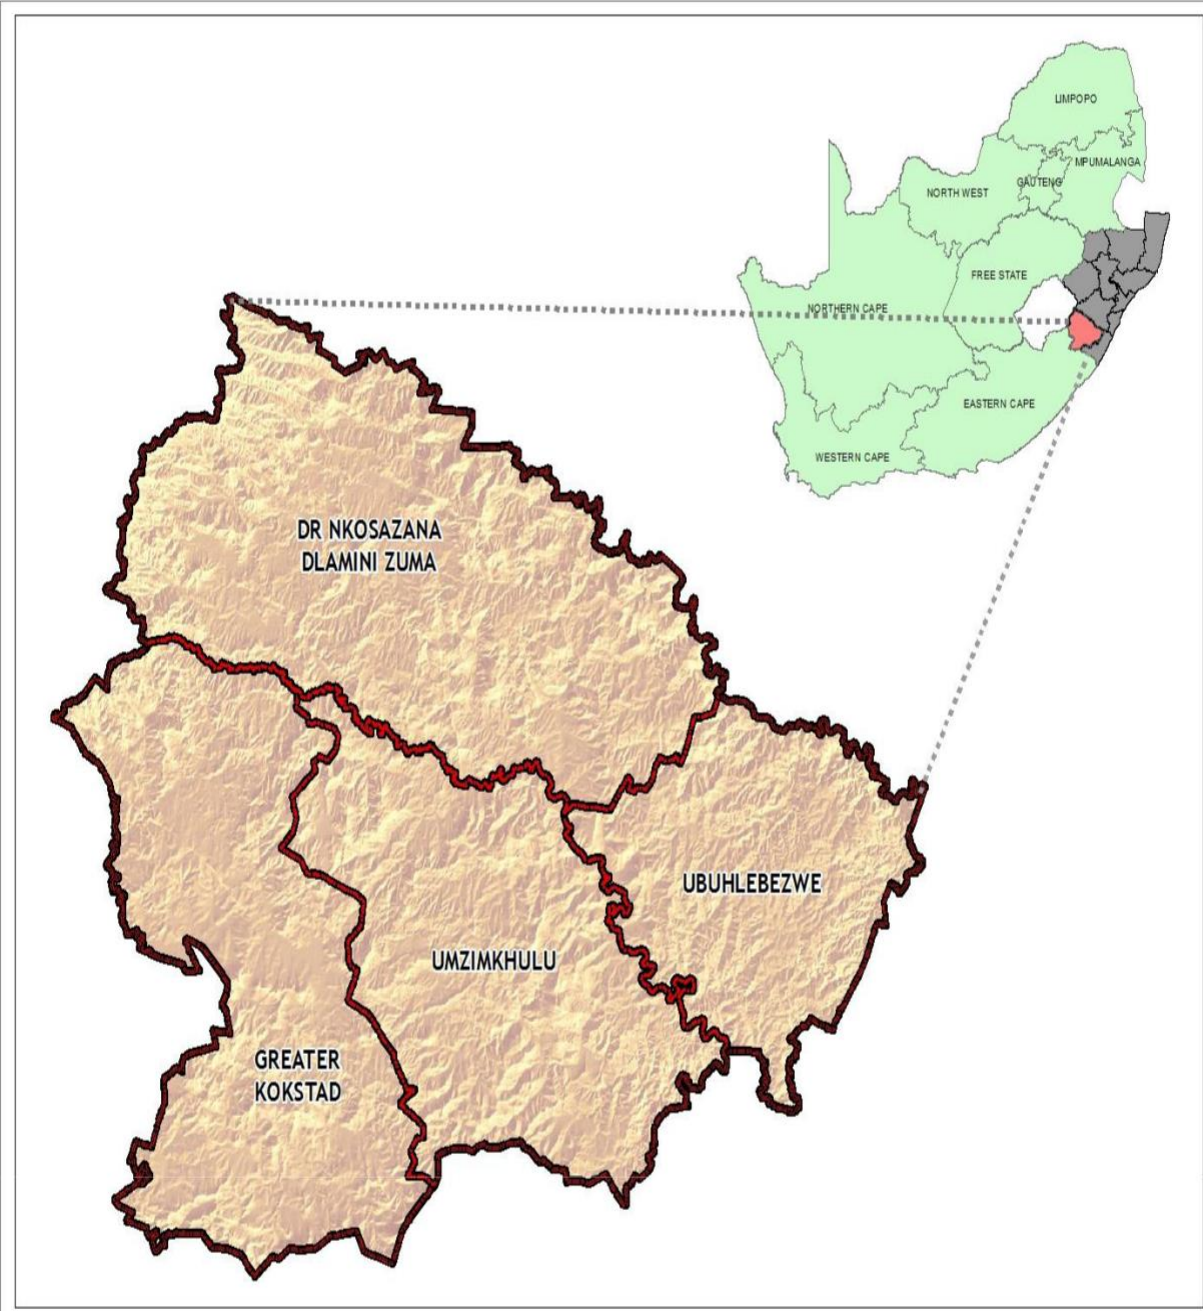

### **1.3 MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW**

The Harry Gwala District Municipality is located to the South West of the KwaZulu-Natal province. Its population is sparsely spread throughout an area of 11 127. 89997 square kilometers. The Harry Gwala District Municipality forms part of the border between KwaZulu-Natal and Eastern Cape Province. The Harry Gwala District Municipality (DC43) is composed of the following four local municipalities: UBuhlebezwe; Dr. Nkosazane Dlamini Zuma; Greater Kokstad and UMzimkhulu.

#### Provincial Location Context

The Harry Gwala District Municipality is one of the ten District Municipalities that forms part of the KwaZulu-Natal Province. It is located at the extreme south of the Province. The Harry Gwala District Municipality is bordered by the following District Municipalities: UThukela to the North; UMgungundlovu to the North East; Alfred Nzo and Ugu to the South East. The location of the District in relation to the aforesaid District municipalities means that, any planning and development-taking place in each District will have an impact on the neighboring Districts. It is therefore imperative to align planning and development activities between the Harry Gwala District Municipality and the respective District Municipalities.

## UMZIMKHULU LOCAL MUNICIPALITY

This local municipality is located in the southern part of the district. The area covers 2 435km<sup>2</sup> with 22 wards. The majority of the households are headed by women and youth. Youth programmes are essential in this area as well as programmes that will target women.

## DR. NKOSAZANA DLAMINI ZUMA LOCAL MUNICIPALITY

This municipality came into being in 2016 as a result of amalgamation between Ingwe and KwaSani local municipalities. It is located in the northern to northeast part of the district and consist of 15 wards, with the main towns being Underberg; Bulwer; Donnybrook and Creighton.

## UBUHLEBEZWE LOCAL MUNICIPALITY

This is the home town of the District municipality. It is located in the eastern parts of the district. Ixopo is the main town within the municipality. It consist of 14 wards that span across approximately 1 604 km<sup>2</sup>.

## GREATER KOKSTAD LOCAL MUNICIPALITY

This local municipality is located in the western part of the district and is approximately 2 679km<sup>2</sup>, making it the largest municipality in the district. It consist of 10 wards and the main towns are Franklin and Kokstad.

## DEMOGRAPHIC PROFILE

The Harry Gwala District Municipality (DC43) is one of the ten District Municipalities in KwaZulu-Natal Province and is located South-West of the province. The District Municipality forms part of the border between KwaZulu-Natal and Eastern Cape Province. The municipality area size is 10 618.0 km<sup>2</sup> and the population spread is 48.1 people per square kilometer. Key rivers in the district are the UMzimkhulu and Umkomaas rivers.

Population gender number of wards per local municipality

Municipality	Male	Female	Total	Number of wards	No. of Households
Harry Gwala District Municipality	239582	271284	510 871	61	122 973

Greater Kokstad Local Municipality	36878	39875	76753	10	17 842
UBuhlebezwe Local Municipality	55513	62834	118347	14	26 801
UMzimkhulu Local Municipality	90459	106827	197286	22	49 616
Dr Nkosazana Dlamini Zuma Local Municipality	56732	61748	118480	15	28 714

### Harry Gwala: Population Distribution Map

Source: Stats SA Survey 2016

#### Official unemployment rate in KZN and Harry Gwala

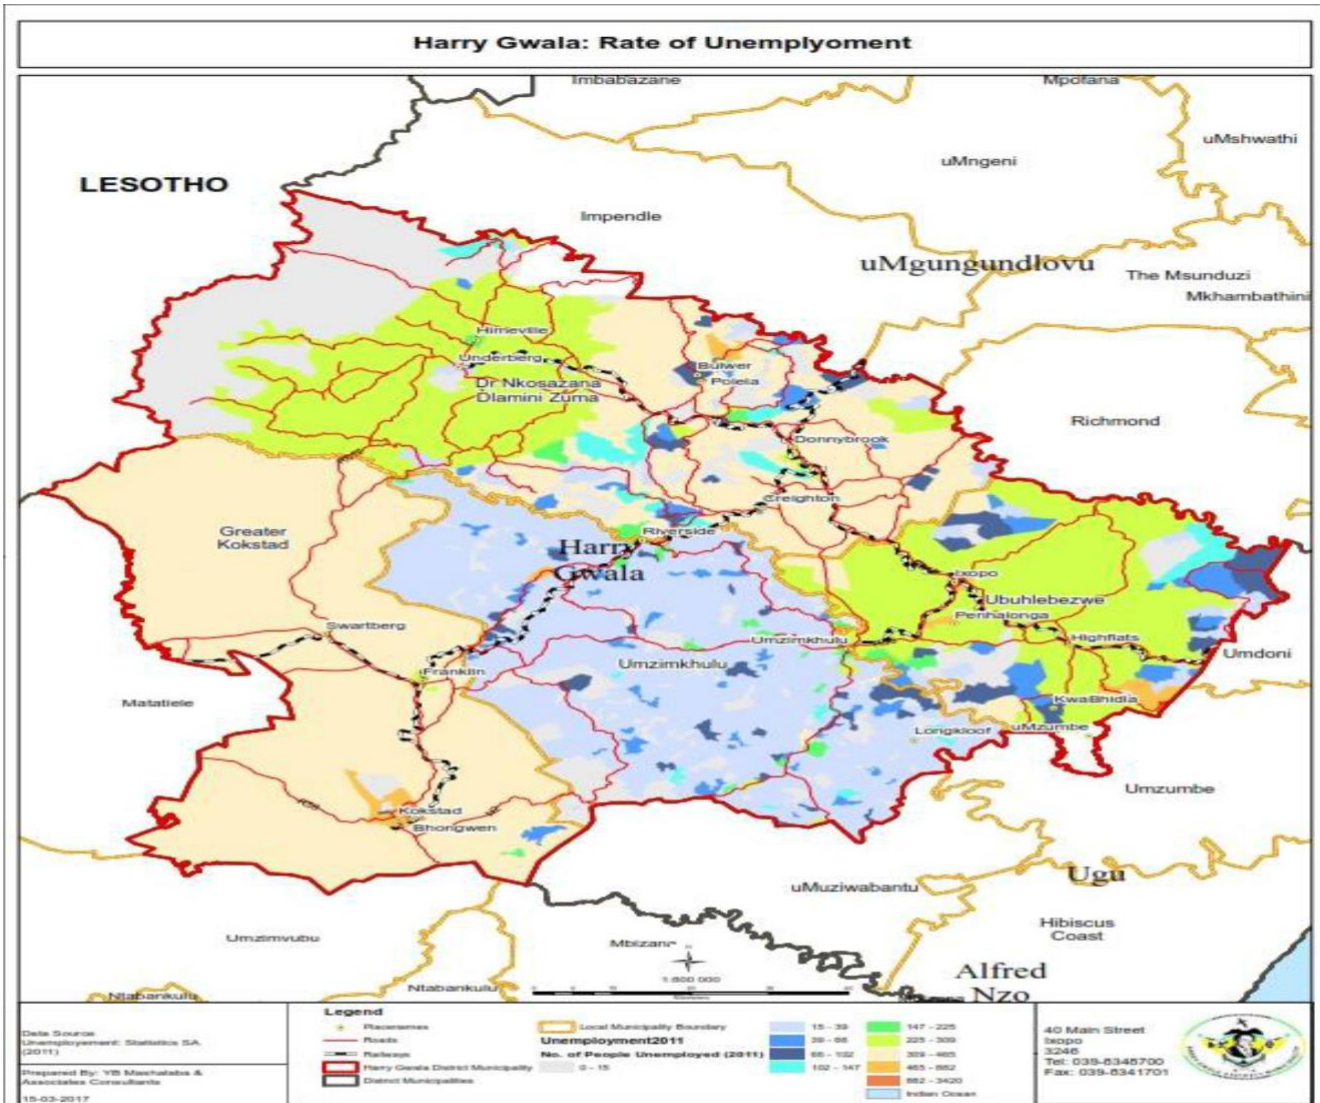

AREA	PERCENTAGE
KwaZulu-Natal	26.1%
Harry Gwala District municipality	27.4%
Greater Kokstad local municipality	18.7%
UBuhlebezwe local municipality	25.2%
UMzimkhulu local municipality	34.9%
Nkosazana Dlamini-Zuma local municipality	22.6%

Source: Stats SA Survey 2016

The labour force table above reveals that out of over 500 000 population that resides in Harry Gwala approximately 81 381 is employed by either formally or informally. And the majority of those that are unemployed is the youth between the ages of 14 and 34. This indeed is a worrying factor for the District, but as mentioned in the paragraphs above the District has embarked on a number of programs to assist in this situation, from offering bursaries to needy students to go study at various institutions and has encouraged learners to pay more attention on rare skills like engineering and recently in 2013 a significant number of medical students have been sent to Cuba to study medicine and are expected to

complete their degrees in the 2019-2020 financial year.. Most of the youth programs are further narrated in chapter 3 of this document.

Unemployment in Harry Gwala is higher by 1% from that of the Province. KwaZulu Natal is at 26.1% and Harry Gwala DM is at 25.4%. This is an indication that more work still needs to be done in terms of working together with private businesses to create employment, but of critical importance is to create a conducive environment where business can flourish. More money over the next five years will be invested in infrastructure development as one critical factor that will boost economic development in the district.

## Provincial GDP contributions by districts, 2015

Source: Global insight, 2016

KZN is the second largest contributor to the South African economy in terms of regional gross domestic product (GDP-R). The estimated real GDP-R generated by the province amounted to approximately R488.1 billion in 2015, making KZN the second largest contributor to the national output (16 percent), after Gauteng with 36.1 percent and slightly above Western Cape at 13.8 percent. Given the economic activities that take place within eThekweni Metro, it is therefore not surprising that the total provincial output is predominantly concentrated in the metro at 57.7 percent. This is followed by uMgungundlovu District at 10.5 percent and uThungulu at 7.8 percent. The least contributing districts are UMzinyathi, Harry Gwala and UMkhanyakude Districts at the estimated rates of 1.7 percent, 1.9 percent and 2.4 percent respectively.

### 1.4 SERVICE DELIVERY OVERVIEW

The municipality is proud to indicate the achievements in chapter 3 of this Annual Report in relation to the implementation of all the planned bulk infrastructure projects, particularly those that are funded by grants.

Water Services Development Plan (WSDP) is the umbrella framework for the provision of water and sanitation services plans. It addresses the full spectrum of water supply and sanitation services. Over and above that, HGDM ensures the alignment of policies, legislation and strategies. Some of the strategies outlined in a WSDP are free basic services strategy, water resources strategy and national water strategy.

Municipality	Number of Households	Water Served Households (2020/2021)	Water Backlogs Households (2020/2021)	Percentage of Water Backlogs (2020/2021)
uBuhlebezwe Local Municipality	26 231	15 561	10 670	41 %
UMzimkhulu Local Municipality	48 641	32 473	16 168	33 %
Greater Kokstad Local Municipality	15 214	11 398	3 816	25 %
Dr. Nkosazana Dlamini Zuma Local Municipality	29 983	14 886	15 097	50 %

1.5

**FINANCIAL OVERVIEW**

LIQUIDITY ANALYSIS: The liquidity analysis of the municipality shows great improvement from the past 5 years which is 2018/19 financial year to 2022/2023, the positive improvement in the ratio is due to a higher positive balance of cash and cash equivalents as well as VAT receivable at year end. Although this ratio was still below the norm of R2 of current assets for every R1 of current liabilities, the 100% improvement in this ratio is concrete evidence on improving financial health of the municipality.

COLLECTION: Collection amount has decreased from R44, 5m in 2018/2019 to R40m in 2019/2020 and in 2020/2021 increase to R 60m. In 2022/2023 collection decreased from R60m to R54, 6m. There is regression in revenue collection in the year 2019/2020 and shows the improvement in 2020/2021 and a slightly decrease in 2022/2023 financial year. There is a revenue strategy that the municipality is implementing as well as cleansed consumer data. The dilapidated infrastructure has negative impact on our billing and collection.

### Financial Overview 2022-2023

## 1.6 ORGANISATIONAL DEVELOPMENT OVERVIEW

As the Harry Gwala District Municipality aims to consolidate the solid gains of the last five years and offer better quality services and performance such as exemplary political and administrative

governance, it is crucial to build human resource capital to support the needs of the five-year Integrated Development Plan.

DEPARTMENT	FUNCTIONS
Office of the Municipal Manager	The functional areas of this department are, namely: Internal Audit; Risk Management; and Legal Services.
Budget and Treasury Office	The functional areas of this department are, namely: Income; Expenditure; Budget & Information Systems; and Supply Chain Management.
Corporate Services Department	The functional areas of this department are, namely: Administration; Council Support; Human Resource; Information Communication & Technology; and Strategic Support.
Social Services and Development Planning Department	The functional areas of this department are, namely: Sport and Recreation; Special Programs; Planning and Development; Social Service; Disaster Management; and Integrated Planning & Performance Management.
Infrastructure Services Department	The functional areas of this department are, namely: Municipal Works; Project Management; and Technical Services.
Water Services Department	The functional areas of this department are, namely: Operations & Maintenance; Water Governance; and Customer Care.

In the 2022/2023 financial year, the municipality has witnessed the following successes:

- Filling of all Senior Management.
- Filling of most budgeted vacant positions.
- Full staff complement of the Information and Communication Technology Unit.
- Information and Communication Technology policies were approved and implemented.
- Functional Audit Committee.
- Functional Local Labour Forum.

While witnessing the fore stated successes, the encountered challenges outweigh them. The challenges that have been noted are as follows:

- Insufficient funding for filling the vacant positions.
- Huge amounts of overtime paid especially to Water Services employees due to insufficient funding for vacant positions.
- Insufficient funding for capacity building (training and bursaries).
- Poor capacity of the Municipal Public Account Committee.
- Longer period taken to fill in budgeted vacant positions especially during the period of COVID-19.
- Inadequate office accommodation and parking for Councillors and Employees.
- Lack of funding for employee compounds for Water Services employees.
- Inability to meet certain performance targets due to insufficient funding.

The Delegations of Authority were reviewed and are awaiting adoption. The Council, Office of the Mayor, Office of the Deputy Mayor and the Office of the Speaker have been delegated powers. Each Committee of Council has also been delegated powers within which it will perform its functions and all Senior Managers including the Municipal Manager have also been delegated powers by Council.

## **1.7 AUDITOR GENERAL REPORT**

According to the Auditor General, the consolidated and separate financial statements present fairly, in all material respects, the financial opinion of the group as at 30 June 2023 and their financial performance and cash flows for the year then ended in accordance with the South African Standards of General Recognised Accounting Practices and the requirements of the Municipal Finance Management Act of South Africa 2003 (Act No. 56 of 2003) and the Division of Revenue Act of South Africa, 2022 (Act No. 5 of 2022).

## Emphasis of Matters

Material impairment – consumer debtors  
Restatement of corresponding figures  
Material losses- water

### 1.8 STATUTORY ANNUAL REPORT PROCESS

Section 127 of the Municipal Finance Management Act, sets out that:

“... the mayor of a municipality must, within seven months after the end of financial year, table in the municipal council the annual report of the municipality and of any municipal entity under the municipality’s sole or shared control.” [Section 127(2)]

“... the accounting officer of the municipality must submit the annual report to the Auditor-General, the relevant provincial treasury and the provincial department responsible for local government in the province.” [Section 127 (5) (b)]

“... the council of a municipality must consider the annual report of the municipality and of any municipal entity under the municipality’s sole or shared control, and by no later than two months from the date on which the annual report was tabled in the council in terms of section 127, adopt an oversight report containing the council’s comments on the annual report...” [Section 129(1)]

“... the accounting officer must submit copies of the minutes of the meetings to the Auditor-General, the relevant provincial treasury and the provincial department responsible for local government in the province.” [Section 129(2)(b)]

#### STATUTORY ANNUAL REPORT PROCESS TABLE

No.	Activity	Timeframe
	Consideration of next financial year’s process plan. Except for the legislative content, the process plan will confirm in year reporting formats to ensure that reporting and monitoring feeds seamlessly into the Annual Report process at the end of the IDP/Budget implementation period	
	Implementation and monitoring of approved budget and IDP comments (In-year financial Reporting)

16	Oversight report is made public	
	Oversight report is submitted to relevant provincial council	
	Commencements of Draft Budget/ IDP finalization for next financial year. Annual Report and oversight report to be used as inputs.	January

## **CHAPTER 2 – GOVERNANCE**

To ensure accountability and governance arrangements are in place, Section 121 (2)(c) of the MFMA supports the requirements of this Section 18 (1) (d) of the MSA. Information on matters of governance should be communicated to communities. This should, according to Section 65 (1) (a) of the MFMA and of the MSA be undertaken through the compilation and publication of the Annual Report. The purpose of such Annual Report is to promote accountability to communities for decisions taken by Council and matters relating to administrative structures, throughout a financial year. Nine major characteristics should be applied within the political and administrative structures of a municipality/ municipal entity to ensure good governance.

### **Participation:**

Participation could either be direct or legitimate intermediate institution or representatives.

### **Rule of law:**

Good governance requires legal frameworks that are enforced impartially.

### **Transparency:**

Transparency means that stakeholders are provided with information on why decisions were made that directly affects them.

### **Responsiveness:**

Good governance requires that institutions and processes try serve all stakeholders with a responsible time frame.

### **Consensus oriented:**

Governance requires mediation of the different interests in society to reach consensus in society on what is in the interest of the whole community and how this can be achieved.

### **Equity and inclusiveness:**

Society's well-being depends on ensuring that all its members feel that they have a take in and do not feel excluded from the mainstream of society. This requires all groups to have opportunities to improve or maintain their well-being.

### **Effectiveness and efficiency:**

Good governance means that processes and institutions produce results that meet the needs of a society while making the best use of resources at their disposal.

### **Accountability:**

Accountability is a key requirement of good governance. Accountability cannot be enforced without transparency and the rule of law.

**Sustainability:**

It is a capacity to endure, how systems remain diverse and productive over time. It is the potential for long term improvements, which in turn also depends on the responsible use of natural resources.

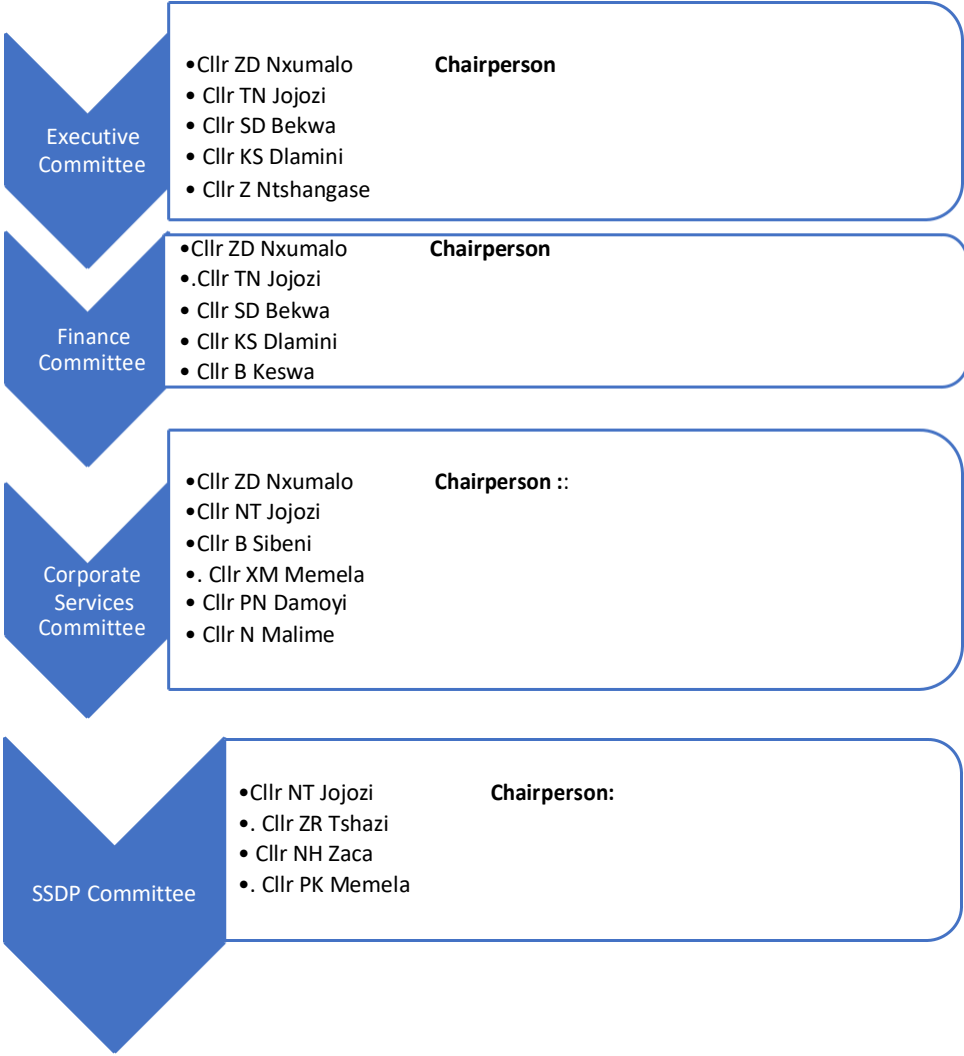

**COMPONENT A: POLITICAL GOVERNANCE STRUCUTRE AND  
ADMINISTRATIVE GOVERNANCE STRUCTURE**

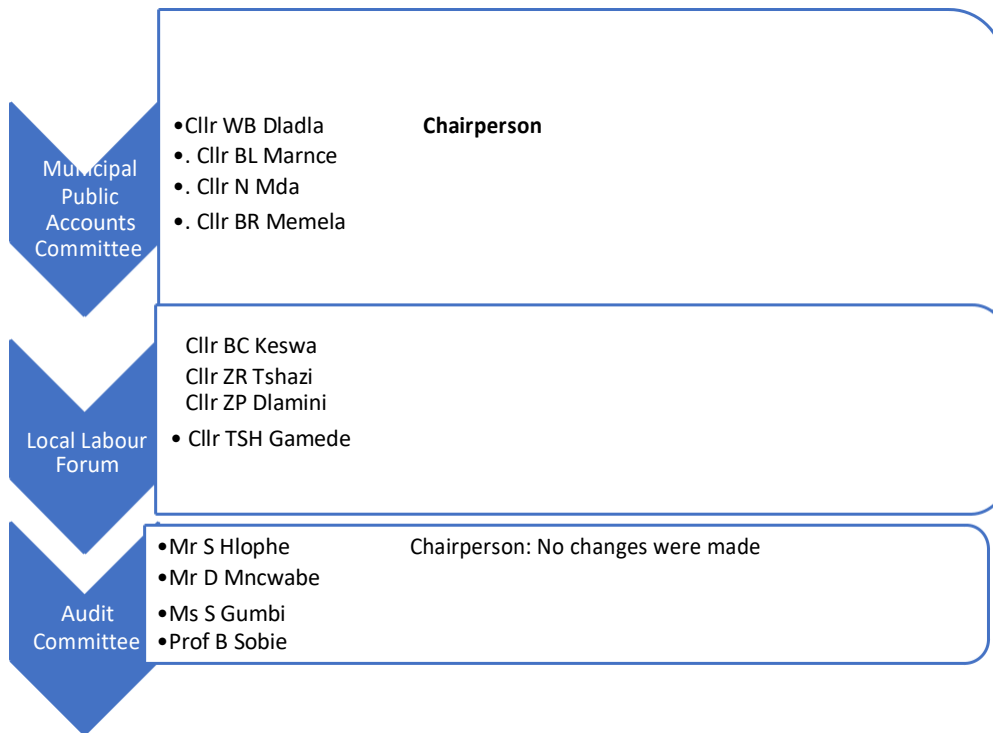

**POLITICAL GOVERNANCE STRUCTURE**

HGDM established and appointed Committees in terms of Section 79 and 80 of the Local Government Municipal Structures Act, No. 117 of 1998. These Committees have been established for the effective and efficient performance of the municipality. The municipality has established the following Committees:

- Executive Committee;
- Finance and Corporate Services Committee;
- Water Services Committee;
- Infrastructure Services Committee;
- Social Services and Development Planning Committee;
- Municipal Public Accounts Committee; and
- Women’s Caucus.

The structure below depicts how the Committees have been established with their Chairpersons and members.

## **COMPONENT B: PUBLIC ACCOUNTABILITY AND PARTICIPATION**

### **IDP ROADSHOW 2022-2023 FINANCIAL YEAR.**

In terms of Chapter 4 of the Local Government Municipal Systems Act 32 of 2000, s(16)1 “A municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance and must for this purpose- (a) Encourage, and create conditions for, the local community to participate in the affairs of the municipality in- (i) The preparation, implementation and review of its integrated development plan in terms of chapter 5. (b) Contribute to building capacity of – (i) the local community to enable it to participate in the affairs of the municipality; and (ii) councilors and staff to foster community participation.

Harry Gwala District Municipality, together with its four local municipalities had its 2022-2023 IDP Road Sows during the month of October and November 2022 through the district, During the month of April 2023 a report back in relation to the needs that were raised as well as the draft budget was tabled to all the communities surrounding Harry Gwala, and subsequently the final IDP and Budget was adopted by council in May 2023.

## **COMPONENT C: CORPORATE GOVERNANCE**

### **2.6 RISK MANAGEMENT**

In the 2022/2023 financial year, the Municipal Council reviewed and approved its Risk Management Framework. The enterprise-wide risk management framework gives an overall picture of the risk management atmosphere desired for Harry Gwala District Municipality when the municipality reaches full maturity in implementing risk management within the planning and day-to-day processes. The implementation of the risk management framework is guided by the risk management policy, strategy, and implementation plan. The combined use of these documents gives guide in the implementation of risk management activities in ensuring that management mitigates risks that are a threat in the implementation of its programs to an acceptable level. The municipality’s detailed risk management methodology and risk appetite levels are embedded in the enterprise risk management framework.

Amongst the most important objectives of the Council’s approved risk management infrastructure are the following: -

- Support Harry Gwala District Municipality’s governance responsibilities.

- Ensure compliance.

- Instilling the culture of risk management at all levels. i.e.: at decision making and on the day-to-day running of the municipality.

Contribute in building a risk-smart workforce and environment that allows for innovation and responsible risk-taking.

Management as guided by the approved risk management strategy has further established a Risk Management Committee; and developed human capacity and tools to ensure effective implementation of the Council's policies and strategies.

The following structures have been put in place to ensure effective implementation of risk management activities within the municipality: -

The Audit/Performance Committee, which is an independent advisory committee of the Council.

The Risk Management Committee, which is the committee of the accounting officer Harry Gwala District Municipality has appointed an independent chairperson of the Risk Committee. The committee constitutes of Independent Chairperson and Senior Management.

**The Risk Management Committee is structured as follows:**

- (1). Mr. X Dike: Independent Chairperson
  - (2). Municipal Manager- Member
-

- (3). Chief Financial Officer: Member
- (4). Executive Director Infrastructure Services: Member
- (5). Executive Director Water Services: Member
- (6). Executive Director Social Services and Development Planning: Member
- (7). Executive Director Corporate Services: Member
- (8). Chief Operations Officer: Member

The risk champions were appointed at the beginning of the financial year. They aid the department in enabling the embedding of risk management within the departments. They also assist management in executing their responsibility of managing risks by coordinating risk management activities within the respective departments.

The Risk Champions work closely with the Risk Management Unit in identifying new and emerging risks, monitoring the implementation of the agreed risk treatment action plans and reporting to the Risk Management Committee.

In terms of the risk management strategy, the municipality reviews its risk register on an annual basis by performing risk assessments to ensure that Council better focuses and allocates its resources and take informed decisions and better prepared for adverse circumstances.

The annually reviewed risk register is monitored on an ongoing basis by the risk management unit to ensure implementation of mitigation plans as determined at risk assessment stage.

The following table summarizes the results of the overall implementation of risk management action plans for the 2022-2023 financial year.

#### **Statistical Summary on the implementation of risk mitigation plans for the last four (4) financial years**

---

The results indicate a huge increase in the implementation of the mitigating measures this shows a commitment in the municipality in improving the risk culture. The overall municipality’s 2022/2023 implementation of mitigation plans is 97.9%. The municipality has grown in levels of understanding and embedded risk culture throughout the organization. This also indicates management’s commitment towards achieving good governance in the running of the municipality.

**STRATEGIC RISKS FOR 2022/2023:**

RISK NAME	RISK DESCRIPTION	INHERENT RISK EXPOSURE	RESIDUAL RISK EXPOSURE	RISK ACCEPTABILITY
Human Resources	Inadequate Skills	High	Medium	Cautionary Medium
Water Services	Inability to provide sufficient potable water	High	Medium	Cautionary Medium
Water Services	Vulnerability to Drought	Medium	Acceptable Low	Acceptable Low
Local Economic Development	Fragmentation on the implementation of spatial Planning and Linking it to Infrastructure planning	High	High	Unacceptable High

	and development of Harry Gwala town			
Good Governance	Failure to manage an efficient and effective co-ordination of data recovery and continuity in the event of a disruption	High	Medium	Cautionary Medium
Good Governance	Inability to achieve clean audit	Medium	Medium	Cautionary Medium
Municipal buildings maintenance	Inadequate municipal office space	High	High	Unacceptable High
Operations and Maintenance	Inability to control sewerage spillages	High	High	Unacceptable High
Infrastructure Services	Failure to deliver Infrastructure within reasonable periods	High	High	Unacceptable High

Good Governance	Vulnerability to fraud and corruption	High	Medium	Cautionary Medium
Municipal Financial Viability	Financial Unsustainability	High	Medium	Cautionary Medium
Information Communication and Technology	Cyber Crime: Escalation in large scale cyber attacks	High	Medium	Cautionary Medium

## **ANTI- FRAUD, CORRUPTION AND ETHICS**

Harry Gwala District Municipality has an approved anti-corruption and fraud prevention Policy, strategy and plan the following initiatives have been initiated in alignment to the strategy for the 2022/2023 financial year :-

The Office of the Municipal Manager conducted a fraud awareness campaign which was held in uMzimkhulu, Kokstad and uBuhlebezwe satellite offices. Furthermore, International Anti-Corruption Day was commemorated through a march that was held in uMzimkhulu, where pamphlets were handed out to community members.

The initiative was part of the International Fraud Awareness week. In attendance, was the Municipal Manager and the Head of Departments. This awareness campaign was publicized on all Municipality social media platforms.

The municipality received fraud awareness posters from the Department of National Cooperative Governance and Traditional Affairs (COGTA). These posters are posted on the main office and will be posted on all our satellite offices.

## **LOSS CONTROL**

The policy was approved by the council for the 2021-2022 financial year. A loss control committee has been established. Below are the members of the Loss control committee:

**The Loss Control Committee is made up of 12 members representing different departments.**

Chairperson	: Chief Operations Officer
Deputy Chairperson	: Senior Manager- Risk Management
Secretary	: Loss Control Manager
Members	: Senior Manager- Legal Services
	Manager- Asset Management
	Senior Manager- Operations and Maintenance
	Manager- Municipal Works
	Senior Manager- Human Resources
	Manager- Labour Relations
	Manager- Disaster Management
	Manager- ICT

---

## Manager- Fleet Management

### COMPLIANCE

The Harry Gwala District Municipality has developed the Municipal compliance register for all the Departments. The compliance register reports were presented in the Risk Management Committee, Audit Committee, Executive Committee and Council.

### BUSINESS CONTINUITY

The municipality has established the function of business continuity management. To mitigate the risk of failure to continue with the operations in the event of disruption, the municipality has developed the business continuity plan, strategy, and crisis management plan. The purpose of the plan to set out the mitigation, preparation, warning, response, and business continuity arrangements for the municipality in the event of a disaster.

A disaster is an event that significantly reduces HGDM's ability to provide its official duties. Typically, an outage to HGDM's core processes and systems exceeding 24 hours is deemed to be a disaster. The reports were presented in the Risk Management Committee, Audit Committee, Executive Committee and Council.

### SUPPLY CHAIN MANAGEMENT

#### Procedural issues

- The Supply Chain Management Policy was adopted and is currently being implemented.  
The procedure manual is in place and currently implemented.  
A compliance checklist has been developed and is currently being implemented.  
The fixed assets policy was adopted and is currently being implemented.  
Bid Committees are fully functional.  
Components within Supply Chain Management  
Supply Chain Management has six components namely:  
Demand Management  
Acquisition Management  
Logistics Management  
Disposal Management  
Risk Management  
Performance Management

#### Demand Management

---

Include timely planning and management processes to ensure that all goods and services required by the municipality are quantified, budgeted for, timely and effectively delivered at the right locations and at the critical delivery dates, and are of the appropriate quality and quantity at a fair cost;

Take into account any benefits of economies of scale that may be derived in the case of acquisitions of a repetitive nature;

Provide for the compilation of the required specifications to ensure that its needs are met; and

Undertake appropriate industry analysis and research to ensure that innovations and technological benefits are maximized.

### **Acquisition Management**

That goods and services are procured by the municipality in accordance with authorized processes only;

That expenditure on goods and services is incurred in terms of an approved budget in terms of section 15 of the Municipal Finance Management Act, No. 5 of 2000.

That the threshold values for the different procurement processes are complied with; and

That bid documentation, evaluation and adjudication criteria, and general conditions of a contract are in accordance with any applicable legislation.

### **Logistics Management**

The monitoring of spending patterns on types or classes of goods and services incorporating, where practical, the coding of items to ensure that each item has a unique number.

The setting of inventory levels that includes minimum and maximum levels and lead times wherever goods are placed in stock;

The placing of manual or electronic orders for all acquisitions other than those from petty cash.

Before payment is approved, certification by the responsible officer that the goods and services are received or rendered on time and in accordance with the order, the general conditions of contract and specifications where applicable and that the price charged is as quoted in terms of a contract.

Regular checking to ensure that all assets including official vehicles are properly managed, appropriately maintained and only used for official purposes; and

Monitoring and review of the supply vendor performance to ensure compliance with specifications and contract conditions for particular goods or services.

### **Disposal Management**

---

The criteria for the disposal or letting of assets, including unserviceable, redundant or obsolete assets, subject to sections 14 and 90 of the Act

Disposal can be done in the following method:

Transferring the asset to another organ of state in terms of a provision of the Act enabling the transfer of assets;

Transferring the asset to another organ of state at market related value or, when appropriate, free of charge;

Selling the asset; or

Destroying the asset.

Risk Management

### Risk management includes:

The identification of risks on a case-by-case basis;

The allocation of risks to the party best suited to manage such risks;

Acceptance of the cost of the risk where the cost of transferring the risk is greater than that of retaining it;

The management of risks in a pro-active manner and the provision of adequate cover for residual risks; and

The assignment of relative risks to the contracting parties through clear and unambiguous contract documentation.

### Performance Management

The performance Management system involves the entire supply chain's ability to meet end-customer needs through product availability and responsive on-time delivery.

Supply chain performance crosses both functional lines.

### BY-LAWS

Revised	Public Participation conducted prior to adoption of by-laws (Y/N)	Dates of Public Participation	By-Laws Gazetted (Y/N)	Date of Publication
Water and Sanitation by-laws	Y	Done on monthly basis.	N	Not Yet

Municipal Health By-Laws	Y		Y	
--------------------------	---	--	---	--

#### **COMMENTS ON BY-LAWS**

The water services by-laws were developed and they were gazzeted in 2007. The Water Services Act 1998 provides that By-laws should be reviewed annually. The department conducted the review of the by-laws in this financial year and some workshops for public participation were conducted.

#### **PUBLIC SATISFACTION ON MUNICIPAL SERVICES'**

The municipality did not conduct the Customer Satisfaction Survey in the 2022-2023 financial year to ascertain the levels of satisfaction in relation to service delivery. This was in the main due to financial limitations in the municipality.

### CHAPTER 3: SERVICE DELIVERY PERFORMANCE (HIGH LEVEL PERFORMANCE REPORT)

Chapter 3 focuses on service delivery on a service-by-service basis. It considers municipal performance derived from IDP objectives, translated into the SDBIP and presents data on Community needs and resource deployment. The service delivery issues are structured, captured and reflected under the priorities contained in the IDP in order to allow easy comparisons on achievements against budget and SDBIP.

#### 3.1 COMPONENT A: FINANCIAL SERVICES

##### FINANCIAL HEALTH OVERVIEW

LIQUIDITY ANALYSIS: The liquidity analysis of the municipality shows great improvement from the past 5 years which is 2018/19 financial year to 2022/2023, the positive improvement in the ratio is due to a higher positive balance of cash and cash equivalents as well as VAT receivable at year end. Although this ratio was still below the norm of R2 of current assets for every R1 of current liabilities, the 100% improvement in this ratio is concrete evidence on improving financial health of the municipality.

Financial Overview 2022-2023			
Details	Original Budget	Adjustment Budget	Actual
Service charges	R 64 989 705	R 76 586 360	77 673 823
Interest	R 16 037 619	R 21 278 781	24 975 028
Other Income	R 582 342	R 933 884	R 1 178 353

**COMMENTS ON THE HIGH-LEVEL PERFORMANCE OF BUDGET AND TREASURY**

**BUDGET AND REPORTING UNIT**

The municipality's activities are as per MFMA Section 21 (1)(b)(i), which states that the Mayor of a municipality must approve the Budget Process Plan at least 10 months prior the start of the budget year and table in the municipal council a time schedule outlining key deadlines for the preparation, tabling and approval of the annual budget.

Section 71 The MFMA Act no.56 of 2003 requires the Municipality to submit budget monitoring report within 10 working days of each month:

The Municipality must submit two sets of reports namely; Data Strings, new electronic submissions called Go Muni and Manual submission which are submitted to the Provincial Treasury and COGTA respectively.

On a monthly basis, these Financial Reports are submitted to the Executive Committee for Reporting purposes.

The Municipality prepares the budget using MSCOA. The Implementation phase was successfully completed. The Municipality is transacting using version 6.5 of MSCOA and prepared 2022/23 Budget on the new MSCOA 6.5 version.

The Municipality also participates in the internship program that allows graduates in the commercial field to be exposed to financial management for a maximum of three years. This program has five interns who are subjected to rotational plan where they are deployed to different sections with the department for relevant training purposes and this is in line with the conditions of the Financial Management Grant (FMG). In the past decade this program has been a success as evidenced by the absorption of 16 interns by the municipality into permanent roles.

The municipality prepares Annual Financial Statements internally and received a qualified audit opinion with matters of emphasis. An audit action plan to address 2021/2022 audit findings has been prepared. The plan was audited by the Internal Audit to ensure that it adequately addresses the Auditor General findings. Reconciliations are prepared on a monthly basis.

## **ASSET MANAGEMENT**

### **ASSET MANAGEMENT**

#### **Capital Expenditure**

In the 2022/2023 financial year, the Harry Gwala District Municipality managed an asset base of over R2,9 billion 98% of which relates to water and sanitation infrastructure assets. The municipality incurred R250 million on construction of infrastructure projects in the 2022/2023 financial year. The municipality further completed infrastructure projects worth R 341, million during the 2022/2023 financial year. The district municipality is still grappling with the high replacement cost of aged infrastructure whilst it faces new demand from communities who have yet to access sustainable water and sanitation supply. The district municipality has invested heavily in the replacement of aged infrastructure and equally on new infrastructure networks however, it still faces challenges to adequately address water and sanitation backlogs due the scarcity of resources. Despite these challenges, the municipality is committed to improving service delivery in the water & sanitation and this is evidenced by the continued shift towards higher spending on capital assets.

#### **Immovable of assets**

During the 2022/2023 financial year, Harry Gwala District Municipality received a donation of Boreholes from COGTA to the value of R3, 8 million.

#### **Movable of assets**

During the 2022/2023 financial year, Harry Gwala District Municipality purchase a fleet of vehicles to the value of R 6, 3 Million.

### **Intangible Assets**

During the 2022/2023 financial year, Harry Gwala District Municipality purchase intangible assets(Disaster management system and other software) to the value of R 541 100.00.

### **Disposal of assets and Transfer of Assets to other Organs of the State**

During the 2022/2023 financial year, Harry Gwala District Municipality did not disposed assets and also did not transfer assets to other Organs of the State

### **REVENUE MANAGEMENT UNIT**

Revenue section is responsible for the meter management, billing, collection, indigent management and debt management in an effort to strengthen the healthy cash flow and long-term financial sustainability of the municipality thus ensuring uninterrupted provision of sustainable service delivery to its community.

### **SOCIAL AND ECONOMIC REDRESS VIA INDIGENT MANAGEMENT**

The Council adopted the indigent management policy. The municipality developed the desktop indigent register in 2015/2016 financial year. The indigent register was developed only for the urban communities or water users to the exclusion of the rural community. Though the rural communities are not included in the indigent register they do get free water services at an RDP level of service, they therefore are accounted for as indigents. The communities were made aware of the procedures to follow in applying for the indigence support application. The indigent register is reviewed and updated on a yearly basis. During the 2017/2018 financial year, all domestic consumers were receiving the first 6 kl of water free. The revenue foregone because of 6kl of free water to all domestic consumers was R6 091 364.16. As from July 2018 only the qualifying domestic consumers benefited from the indigent support programme. The municipality does not budget for the indigent support because indigents receive free 6kl of water that reported as revenue foregone not as expenditure in the budget. The number of qualifying indigent applicants reflecting on the indigent register in 2018/2019, 2019/2020 2020/2021 respectively were 1 575; 1307 and 1163. The number of indigent consumers is decreasing every year due to consumer data verification and deaths of indigent consumers. In 2018/2019 financial year, the revenue foregone because of 6kl of free water to qualifying indigent households was R919 674.00; for 2019/2020 is R808 353.36 and R902 674.08 for 2020/2021. The number of indigent consumers on 2021/2022 indigent register has increased to 3 894 and the revenue foregone is R3 113 683.20. In 2022/2023 consumers on the indigent register has decrease to 3304 and the revenue

foregone is R2 790 426.24 because of removal of deceased, applicants above the municipality threshold and applicants' spouses in the employment of state.

### **REVENUE RAISING STRATEGIES**

Revenue enhancement strategy was adopted by Council in 2015/2016 financial year, is reviewed on annual basis, and is fully implemented.

### **BILLING**

The Harry Gwala District Municipality is vastly rural with 121 973 households. As a water services provider the municipality provides water services by way of 150 water schemes that are running throughout the district. The rural schemes provide a basic level of service at RDP standard rendering those water schemes incapable of being billed.

The Harry Gwala District Municipality billing covers about 11 899 urban households the majority of whom are indigent, the total number of consumers has decreased from 12 347 resulting from data cleansing and an update of municipal database.

The Harry Gwala District Municipality bills 6 561 water consumers on a flat rate basis, 911 households are billed according to consumption that is determined by meter readings and 4 490 of consumers who were previously billed on consumption base the meters are converted to prepaid. There are cases where estimation/interims and flat rate base billing is applied though it is not acceptable. In areas where there are no meter or where meters are faulty or covered, the municipality divert from consumption base method to interims or flat rate.

There is a growing need to improve the integrity of the data base of water consumers. The municipality debtor's data cleansing is performed as a continuous exercise.

It is verified that 90% of the urban household excluding areas with RDP housing are connected to water meters. The municipality conducted a meter audit exercise in a bid to have a reliable and credible inventory of water meters with relevant current condition. This exercise revealed huge challenges with the condition of the water meters a considerable number of which was not functioning.

The municipality embarked on a process of repairing the faulty meters and replacing the credit meters with smart meters. The water meters are old and are to be repaired more frequently. The municipality has embarked on meter management programme by replace the credit meters with smart meters to improve collection. The smart meters provide a range of functionalities. They are capable of being used as credit meters for government institutions like hospitals prisons etc. are also capable of being set to restrict the flow or terminate the service as well as used as prepaid in the case of households thereby ensuring that households; as they constitute the largest percentage of the total outstanding; pay before

they use water. The municipality allocated R2, 5 m in 2017/18 budget year. The budget for 2022/2023 financial year allocated for the purchase of smart meters has increased to R10 million, with the aim of replacing faulty meters to prepaid as well as installing smart meters in areas where there are no meters.

As from June 2019 when the municipality started the activation of smart meters to prepaid the total collection amounted to R33 722 872.99 with an average collection of R688 221.89 a month.

#### **MUNICIPALITY DEBT POSITION**

The Municipality bills for the water, sanitation, environmental health services and other miscellaneous services. Major services are provided to domestic consumers. The consumer debt has been in a constant increase since as reflected in table below. Debt management is closely linked with revenue management and thus has been addressed as part of the revenue enhancement strategy. Debt reduction strategies such as appointment of a debt collector to assist the municipality on collection of debt, which is 90 days and older, amnesty programme as well as activation of smart meters to pre-paid, are implemented and covers extensively credit control and debt management issues.

## OUTSTANDING DEBT 2017/2018 to 2022/2023 FINANCIAL YEAR

Description	2018/2019	2019/2020	2020/2021	2021/2022	2022/2023

**EXPENDITURE MANAGEMENT UNIT**

**Improvement on payment made within 30 days**

In an effort to ensure compliance with section 65 (2)(e) of the Municipal Finance Management Act 56 of 2003 (MFMA) and to strengthen internal control processes in relation to payments to creditors made by the municipality. The municipality adopted two payment runs, being the 15th and the 30th of every month. This has improved the municipality's expenditure management and helped to reduce/ eliminate fruitless and wasteful expenditure in the form of interest due to delayed payments.

### Year-end accruals

The municipality closed the year 2022-2023 with accruals amounting to R 34 627 869. There was a significant increase in accruals compared to the prior financial year, 2021- 2022 accruals amounting to R24 658 782. This is largely due to an amount of R12 million owed to SIU. The municipality managed to pay third parties before year-end including SARS, PAYE, UIF except pension and medical aid amounting R5, 1million.

### VAT refunds

For the 2022-23 financial year the municipality received SARS refunds amounting to R60, 1million and June return was outstanding at year-end totalling to R7, 7million. These refunds are assisting the municipality to bridge the shortfalls and minimize cash flow problems.

### Fruitless and wasteful expenditure

During the 2021-22 financial year the municipality incur R8 217 726 fruitless and wasteful expenditure and in 2022 -2023 financial year there is a slight decrease to R8 164 198 of fruitless and wasteful expenditure. This is ascribed to the fact that the municipality makes payments within 30 days resulting in the avoidance if interest and penalties.

## 3.2 COMPONENT B: WATER SERVICES AND SANITATION INFRASTRUCTURE

Operation and Maintenance of water and Sanitation infrastructure is an on-going day-to-day activity and comprises of different components and functions to ensure the constant operating of infrastructure.

Mechanical and Electrical components/Equipment of water and sanitation services.

Fuel supply

Material Supply

Sewage Services

Chemical supply

Plant hire and plant procurement

The total number of water schemes, which are operated by the Water Services Department within the four local municipalities, are one hundred and forty scheme (140).

These schemes vary from large scale bulk water supply schemes to, full scale purification systems, standalone schemes such as productive boreholes, and protected springs. Further to the above, there are twelve (12) sewerage purifications systems and twenty (20) water treatment works.

There is an improvement in water quality results from the treatment works as

#### **Water meter management.**

Number of water meters were purchased and installed in different areas of the district, this assist in increasing revenue collection as well as decreasing water loss. The smart meters are installed activated and converted to prepaid to ensure that the customers buy water before utilizing. This is an ongoing programme as there is a high number of households not paying for water, smart meters assist in ensuring that water used is paid for. The faulty meters are replaced as and when the report is received.

The areas where the installations were done are uMzimkhulu ext. 6 and ext. 8, Kokstad - Franklin; most of the households in these areas are metered.

---

## Schemes Functionality

The schemes functionality improved through the installation and replacement of dilapidated valves and meters. The standby generators installed in different treatment plants for the continuous operation and reduce interruptions during load shedding.

Nokweja WTW

Centocow two Generators

Franklin WTW – Constriction of office building and replacement of storage tanks and chemical storage tanks.

Water storage tanks installed.

uMzimkhulu Nazareth water scheme resuscitated through the borehole drilling and equipping, pump house installation, refurbishment of reticulation system and connection to the existing storage tanks.

uMzimkhulu - Makhaleni and Deepdale Refurbishment of reticulation system to improve the water supply scheme functionality, solar panels installed in different schemes to ensure scheme functionality.

The bulk meters were installed in the water supply areas from UGU district municipality. Five bulk water meters were installed from Vulamehlo Water Treatment works (UGU) that supplies areas of Ubuhlebezwe area.

Three Handpumps were converted into solar panel boreholes with storage tanks and tap stands; this increased the water supply to the affected areas of Ubuhlebezwe.

The backlog of spilling sewer in Kokstad was attended through emptying of Sceptic tanks and VIP toilets completed in Kokstad area (Horseshoe – Ward 9).

Generally, the challenges which are encountered in operating water schemes are amongst others unreliable yields at sources (especially in winter, boreholes and springs dry out), ageing infrastructure such as corroded cast iron pipes, old asbestos pipes, clay pipes etc. (this also applies to the sanitation infrastructure), vandalism, illegal connections, demand vs supply imbalances in fast growing communities etc.

Our plumbing teams and plant process controllers are striving in achieving best and prompt service delivery in repairing broken infrastructure as well as in purifying water to the set standards.

## Operations and Maintenance Plan

The Maintenance Plan (O&M) is reviewed and updated annually, 2023/2024 has been reviewed and endorsed by council as a legal municipal document. The maintenance schedules are signed off and records kept for updating the infrastructure asset register of the Municipality. The maintenance plans commonly used are Preventative and Reactive maintenance to ensure that assets used in O&M are kept as close to its original state as possible.

### **Preventative Maintenance**

Maintenance that occurs before a problem happens, which increases the longevity of equipment.

The municipality operates with a high number of standalone schemes that are diesel driven; there is an existing Preventative maintenance plan, and it guides the municipality on frequency of maintenance to the existing infrastructure.

Even though the pumps, engines and equipment are overused due to high water demand as per the increasing community of HGDM. Preventative maintenance is being undertaken on some of the equipment.

With the current projects being implemented, the water supply will increase, and preventative maintenance will proceed effectively.

### **Reactive Maintenance**

Due to the stretchy use of the equipment, reactive maintenance is popular within the district municipality. The pumps and engines are used continuously, and preventative maintenance are rarely undertaken, this costs the municipality high amount of funds to ensure the effective and sustainable operation of water service equipment.

The Review of the Water Services Development Plan which was targeted for the financial year 2022/2023 was done successfully. The Harry Gwala DM has a credible WSDP, which conforms to the Department of Water and Sanitation standard prescribed format, and it is rated **75.56%** in terms of score ratings by the Department of Water and Sanitation. The document is accessible from the DWS website and Harry Gwala District Municipality.

The municipality had targeted three projects under Water Services Infrastructure Grant (WSIG) to develop Business Plans for soliciting funding from the Department of Water and Sanitation (DWS). These projects were:

- Corinth-Nyanisweni Water Supply
- Machunwini Water Supply
- Emazizini Water Supply

All three business plans were prepared and submitted to the Department of Water and Sanitation. The municipality is waiting for the DWS to finalize the appraisal of the business plans.

Due to the water supply demand within the communities some additional projects business plans were developed and submitted to DWS. The following were presented to DWS and received approvals and they are currently under implementation:

- Nokweja-Mashumi Water Supply Scheme
  - Bovini-Mncweba Water Supply Scheme
  - Mazizini Water Supply Scheme
-

Over and above these projects, the municipality has procured contractors to implement the more WSIG projects:

Gudlucingo Water Supply Scheme  
Hostela-Mncweba/Malenge Water Supply Scheme

These are short term intervention projects which supplies water from production boreholes and are meant augment supply on existing schemes which are not fully functioning.

On the other side the municipality utilizes COGTA MIG funding to develop water and wastewater systems which provide more reliable bulk supply and reticulation. This financial year, the municipality has managed to register the following projects for funding and managed to procure contracts which are currently under construction:

Khukhulela Water Supply Scheme Phase 2  
Mbizweni Main Sewer Collector Upgrade in uMzimkhulu Town Phase 2  
Mnqumeni Water Supply Scheme Phase 5  
Rectification of Fairview and Ixopo Town Sewer System Phase 2  
Ibisi Sanitation Phase 2

The other projects which were registered with COGTA were:

Creighton Water Supply Scheme Phase 2  
Greater Summerfield Water Supply Scheme Phase 2

The implementation of these projects will overlap to the new financial year 2023/24.

### **Bylaws and Water Services Policies**

Section 156(2) of the Constitution (Act 108 of 1996) allows municipalities to exercise their legislative authority by developing their own by-laws covering the area within their jurisdiction, however in terms of Section 21(1) of the Water Services Act (Act 108 of 1997) and Section 75 and Section 98 of the Local Government: Municipal Systems Act (Act 32 of 2000) municipalities are obliged to develop and promulgate bylaws. These by-laws hold the same power and force as other national and provincial legislation. Bylaws are meant to bring order and improved service delivery within municipal jurisdiction. Purpose of Water Services Bylaws is to regulate the affairs and the services rendered by HGDM. Bylaws also play a huge role in raising awareness to communities about their role as consumers/customers.

HGDM Water Services Bylaws outlines the following but not limited to:

---

Registration of indigent consumers  
 Application process for water services  
 Payment for water services  
 Recovery of water services debts and clearance certificates  
 Complaints management by HGDM  
 Declaration of emergency situations  
 Service levels  
 Water restrictions  
 Water Audits- n.o. of people residing in one stand/ water use versus the bill issued monthly.  
 Conditions for sanitation services  
 Conditions for water services  
 Sewer blockages  
 Approval and withdrawal of industrial waste discharge  
 Emptying of Septic tanks  
 Un-authorized water services connections and penalties/consequences  
 Vandalism of water services infrastructure  
 Enforcement of Bylaws/Offences  
 Powers to serve non-compliance notices.  
 How to deal with appeals

These Bylaws were gazetted in 2019/20 and adopted by Council. Since 2020/21 financial year to date, the municipality has been setting aside a budget for interpretation of these bylaws into isiZulu, IsiXhosa and Afrikaans and this task has been completed. The interpretation of bylaws goes hand-in-hand with the summary which makes it easy for HGDM to educate its communities about water services bylaws. This project of interpreting bylaws is believed to be important in ensuring that water services bylaws are implementable across the district. The council has adopted the Water Services bylaws for 2022/23 financial year.

Water Services has developed a number of policies to assist with Water Services operations. These policies include the following but not limited to:

- Maintenance Management Policy
- Water Services Intermediaries
- Service Level Standards
- Infrastructure Investment and Capital Projects Policy
- Customer Care Policy
- Customer Care Strategy
- Customer Care Service Charter
- Bathopele Policy

---

For the year 2022/23, Water Services policies were reviewed and inputs based on Auditor General's recommendations were effected in these policies to ensure that HGDM policies are credible and also to ensure that HGDM implements AG outcomes. The reviewed Water Services Policies were subjected to council scrutiny and adoption.

### **Awareness Programs and Stakeholder engagements.**

Customer Care strives to create a society that is aware of water as a limited and essential resource, as such it has embarked on an ongoing programme aiming to create awareness on Water conservation, Health hygiene, Water Infrastructure Theft and Vandalism. As a WSA, one of the key functions is to educate communities about the importance of health and hygiene, water conservation, and taking care of water services infrastructure.

Customer Care educates communities of Harry Gwala to take responsibility and own their water services infrastructure to ensure that they always have water at all times and the vandalism of the water services schemes is curbed. Awareness also includes the processes and procedures that customers and communities should take in reporting burst pipes, damaged taps, and sewer spillages. With the complaints registered with the Customer Care Unit, it became easier to plan awareness campaigns for the areas that have got the most complaints in terms of vandalism and leaks related issues. The complaints register therefore forms a baseline for planning of awareness campaigns.

For 2022/23 financial year, Water Services department engaged on a number of awareness raising programs ranging from water conservation, health and hygiene, vandalism of water services infrastructure, revenue enhancement and prepaid meter awareness. Water Services awareness campaigns were time-bound and aimed entirely at increasing public awareness on water services.

The aim of these awareness raising campaigns for Water Services Department differs between contexts but generally includes increased concern, informing the targeted communities about the problem/concern and attempting to change the said community behaviour towards Water Services. These awareness campaigns deliver messages to communities motivating them to take action in addressing the concern/problem. Water Services uses a range of different techniques and approaches to raise awareness and these include but not limited to: newsletters, social media and events, meetings with stakeholders and representatives of the target group to create a general awareness on the topic.

These awareness programs serves as a powerful campaigning mechanism of re-iterating the value of water and the need for sustainable management of this scarce resource. These campaigns seek to continue building the ongoing awareness within the broader Harry Gwala Community coupled with the responsibility that every citizen must take in ensuring the integrity of our water resources and its efficient use. These awareness's enhanced the manner in which district interacts with its communities, reduction in illegal connections and subsequently curb water losses.

---

For 2022/23 financial, Water Services had planned 16 awareness program and 16 war room initiatives. However more than 20 awareness's and war rooms materialised, and this is an overachievement for the department. Reports from these warrooms and awareness's were escalated to the relevant water services personnel for actioning.

In addition to the above, Customer Care Unit also conducted two roadshows where Revenue Section joined to assist customers with their billing queries and prepaid meter related concerns. It is through these roadshows that customers managed to enquire about their water services accounts, register for free basic services (water and sanitation), apply for amnesty etc. This has enhanced the customer confidence on HDGM function (Water Services Authority). The initiative is also aimed at educating consumers about their right to pay for utility services to enable the municipality to provide sustainable basic services to communities.

### **Customer Care Services**

It helps to understand the move from single channel to multichannel customer service as a key aspect of a successful Water Services Authority municipality. Customer care service refers to the assistance an organization offers to its customers before or after they buy or use services. Customer care includes actions such responding to general questions. Customer care, plays an important role in the overall customer experience hence the customer interaction is important in building loyalty and HGDM water services recognition.

The benefits of positive customer care service in HGDM was recognised through increasing revenue collection last financial year. This was an indication that better customer service can lead customers paying for their water services.

In 2022/23 financial year, the Customer Care Call Centre received complaints from communities and channelled such complaints to relevant departments to resolve/attend. The call center operated 24 hours a day, 7 days a week and 365 days in a year. Complaints were logged on an automated system that generated reference numbers for customers and these reference numbers were automatically sent to the complainant through an SMS notifications. The reference numbers were important in that they enabled customers/complainants to track progress on their complaints.

Call Center Unit's functioning was improving every year until September 2022, whereby the complaints management system license expired. The procurement of a new system has had an enormously negative impact on call center functioning. Since September 2022, the customer complaints are recorded manually with no yardstick to measure whether the complaints are being attended and resolved within the stipulated 48 hours.

Customer Care Unit continues to update its Water Services Customer Care Satisfaction Surveys. These surveys were conducted across the district with the intention to improve and strive for service excellence. A total of 400 customer satisfaction surveys were conducted on water and sanitation

---

services provided by HGDM to communities. A detailed report on the outcomes of these satisfaction surveys is done in-house.

The Water Services Department endeavoured to give communities uninterrupted services, however there were factors that required the department to arrange planned interruptions on water supply and sanitation services to allow regular maintenance of water, and sewer system or an upgrade of deteriorating infrastructure. For both planned and unplanned interruptions, HGDM team of plumbers made the reinstatement of the services a priority to restore the services as quickly as possible.

### VIP Sanitation

Water Governance and Customer Care Section implemented the VIP sanitation program in 2022/2023 financial year. The section had targeted to implement 217 VIP structures and managed to implement all of them and the target was met. In addition to the targeted number of VIP toilet structures for 2022/2023, there were additional funds available and additional 183 structures were implemented. Ubuhlebezwe LM was the beneficiary for all these structures and the wards that were served are as follows:

Local Municipality	Ward Number	Villages	Number of VIP Toilets Constructed
Ubuhlebezwe	12	Skeyi Mazabekweni Bovini Ntambama	200 Units
	13	KwaMashumi	200 Units

### Massification Projects

Harry Gwala District Municipality received R30 000 000.00 Massification Grant through Accelerated Water Intervention Program (AWIP). Research, Planning and Design Section of Water Services prepared business plan for approval by DWS to drill 28 boreholes and to protect and rehabilitate 21 springs. Boreholes were drilled in the following areas:

Dr Nkosana Dlamini Zuma Local Municipality: 8 boreholes.

Ubuhlebezwe Local Municipality: 8 boreholes.

Umzimkhulu Local Municipality: 11 boreholes.

Greater Kokstad Local Municipality: 1 borehole.

All boreholes are fully functional and water supply has been improved.

Spring protection and rehabilitation was implemented in the following municipalities.

Dr Nkosana Dlamini Zuma Local Municipality: 6 springs.

Ubuhlebezwe Local Municipality: 8 springs.

Umzimkhulu Local Municipality: 7 boreholes.

All springs are fully functional.

Through this water services intervention program Harry Gwala DM has improved its water provisioning to communities that did not have access to potable water.

### **Water Quality Monitoring**

Constitution of the Republic of South Africa Act No. 108 of 1996 gives a mandate to Harry Gwala District Municipality to provide access to water and sanitation services to all communities residing within its jurisdiction. Section 12 of the Local Government: Municipal Structures Act No. 117 of 1998, emphasizes on the establishment of municipalities in accordance with the requirements relating to category and type i.e. Water Services Authority Municipality. And the National Water Act, 36 of 1997 sets out the principles to be adhered to concerning the environmental impacts of wastewater and pollution.

Harry Gwala District Municipality (HGDM) as a Water Services Authority (WSA) has a constitutional mandate of providing access to water and sanitation services to all communities residing within its jurisdiction in terms of the Municipal Structures Act (Act No. 117 of 1998). This constitutional responsibility is carried out by the district taking into cognisance the rights of everyone to sufficient food and water as well as the rights to an environment that is not harmful to their health and well-being as enshrined in the Bill of Rights of the Constitution of Republic of South Africa (Act No. 108 of 1996). The legislation enforces the district to provide good quality of water that will not threaten the constitutional rights of individuals within its jurisdiction.

Harry Gwala District Municipality as a Water Services Authority (WSA) is responsible for monitoring of water and wastewater quality. Both water and wastewater quality supplied to communities and customers of HGDM must be reported to DWS on a monthly basis. Umgeni Water is an accredited water testing laboratory contracted by the HGDM to assist with monitoring water and wastewater quality by analysis water samples against SANS241 Standards.

---

HGDM has got 32 treatment works: 21 Water Treatment Works (WTW) and 11 Wastewater Treatment Works (WWTW). These 32-treatment works are operated and maintained by HGDM. And only Ixopo WTW and WWTW are operated by a Water Services Provider (Umgeni Water)

HGDM has a Sampler (service provider) contracted for a period of three years. The sampler collects water and wastewater samples as per the HGDM Monitoring Program which is risk based and registered with DWS through IRIS. The number of sampling points which the municipality monitors as per the sampling program is 107 site every month. These sample sites are registered and reported on IRIS (previously known as BDS/GDS).

For 2022/23 financial year the following water and wastewater sites were monitored and reported on IRIS.

**For Water Quality,** A total of 72 sites were sampled every month. The collected potable water samples were analysed for key water quality indicators and assessed against SANS 241-1:2015 drinking water standards.

**For waste water quality,** A total of 35 sites were sampled and analysed every month. The collected wastewater effluent discharges were assessed against relevant effluent standards as prescribed by Department of Water and Sanitation. i.e. General Effluent Standards for plants >2 ML/d and General Authorization for plants <2ML/d.

### **Process Audits**

Water Governance and Customer Care section under Water Services department in Harry Gwala District Municipality facilitated the process of auditing twenty Water Treatment Works. The project resulted from the mandate that the Harry Gwala District Municipality has in terms of ensuring safe environmental management practices that will enable sustainable service delivery that is not harmful to people. Constitution of RSA, S2(24) of 1996 also states that everyone has a right to a healthy environment. HGDM will ensure healthy environment by disposing a compliant effluent into the natural environment.

Both water and wastewater treatment works of HGDM needs to be subjected to a Process Audit, however for the water treatment works were prioritized due to the Blue Drop assessment that were carried out in January 2023. These process audits have assisted the municipality in ensuring the

---

reduction of incident or prevalence of communicable diseases, spread through spillages and non-complying effluent disposed to the environment but also assisted in scoring higher on the assessments.

The audits main focus is on the functionality of each unit process of the treatment works, administration and effluent quality and disposal methods. Description covers the whole system from the head of works to the point of disposal (covering design type, treatment processes and disposal). The process audits assist the municipality in ensuring that the treatment works is functioning to its maximum capacity and the final effluent being disposed off to the natural environment is compliant to the set wastewater and effluent standards. The Process Audit outcomes and recommended action plans should be incorporated into the IDP in a form of O&M projects.

### **Municipal Strategic Self-Assessment (MUSSA)**

The MuSSA is a self-assessment tool used by DWS to assess municipalities. Municipalities are given an opportunity to assess themselves and submit the assessment to DWS for processing and verification. MuSSA consists of 18 “business” attributes or legs of which each attribute is made up of five key questions with specified responses. MUSSA requires inputs from the technical, financial, HR, corporate services, and IT staff of the municipality. Reporting produced is publicised Nationally.

HGDM was subjected to Municipal Strategic Self Assessment (MuSSA) in 2022/23 financial year. HGDM has improved from a vulnerability index of 0.67 to 0.55. below are the to areas of concern which are still impacting negatively on the HGDM vulnerability index.

- Operation & Maintenance of Assets (55.0%)
  - Financial Asset Management (45.0%)
  - Technical Staff Capacity (Numbers) (45.0%)
  - Water Resource Management (WRM) (48.0%)
-

Municipal Strategic Self-Assessment of Water Services (MuSSA)

▲ 75 - 100% (Low Vulnerability)    ▲ 60 - 75% (Moderate Vulnerability)    ▲ 50 - 60% (High Vulnerability)    ▲ 0 - 50% (Extreme Vulnerability)

**COMPONENT B: WATER SERVICES AND SANITATION INFRASTRUCTURE**

**Capital Expenditure Year 2022/2023: Water and Sanitation Services**

This report aims at summarizing the utilization of the 2022/23 Municipal Infrastructure Grant (MIG) funding to the Harry Gwala District Municipality. The objective of the MIG funding is to expedite service delivery to Municipalities that have backlogs in order to reach the stated Millennium Development Goals. The 2022/23 MIG allocation was **R231 011 000**. This report sets out to show the level of usage and implementation of the MIG funds in the year 2021/22 and also to show the impact of the funding on the community as the beneficiaries.

**Expenditure Details:**

The Table below shows the monthly expenditure from **July 2022 to June 2023**. Expenditure on PMU salaries was also taken from the MIG allocation.

## Monthly MIG Expenditure

### Background:

Since the establishment of the PMU section in mid-2008, the MIG expenditure showed marked and tremendous improvement in Harry Gwala District Municipality. The table below shows the MIG expenditure performance in the last 4 years.

GRANT USAGE (grant name)	2018-2019	2019-2020	2020/2021	2021/22
Municipal Infrastructure Grant (MIG)	R160 040 749, 20 <b>(77, 54 %)</b>	R200 860 000,00 <b>(100 %)</b>	R209 000 000, 00 <b>(100 %)</b>	R220 880 000,00 <b>(100 %)</b>

### 2022-2023

MONTH	TOTAL MONTHLY PAYMENTS
July – 2022	R6 835 102,22
August – 2022	R4 030 886,78
September- 2022	R10 076 526,30
October – 2022	R20 770 979,09
November – 2022	R9 955 139,47
December – 2022	R39 359 117,66
January – 2023	R8 157 495,84
February -2023	R6 983 825,37
March - 2023	R0,00

April –2023	R44 478 712,10
May - 2023	R12 898 320,45
June – 2023	R45 859 102,59
<b>PMU Operational costs 2,5 %) included in the monthly expenditure</b>	<b>R 5 775 255,00</b>
<b>TOTAL</b>	<b>R209 405 207,87</b>

**NB:** The 90, 65% expenditure of the MIG allocation was reached by end of June 2023.

The following schedule shows the extracts from the 2022/23 PMU Business Plan and the actual expenditure and status of projects executed in the 2022/23 financial year. **The expenditure shown and the physical progress is the actual current progress as end 30<sup>th</sup> June 2023.**

Universal Sanitation Coverage in Ubuhlebezwe Municipality	Rural	R 5 349 177 ,62	MIG	All wards	The project has been completed.

### EXPANDED PUBLIC WORKS PROGRAMME (EPWP) INCENTIVE GRANT: 2022-20-23 FINANCIAL YEAR

The Expanded Public Works Programme (EPWP) is one of government arrays of programme aimed at providing poverty and income relief through temporary work for the unemployed to carry out socially useful activities.

Harry Gwala District Municipality received an allocation of R 5 221 000.00 as an Incentive Grant for the implementation of EPWP during 2022/23 financial year. The 100% expenditure of the EPWP allocation was reached by the end of March 2023, the Municipality had to go an extra mile and top up till the end of June 2023 in order to pay salaries for EPWP participants.

Through implementation of EPWP ,398 of 1099 work opportunities created by the Municipality were paid with Incentive grant. Most importantly was the Municipality’s creation of Full Time Equivalent (FTEs). FTE refers to employment that is equivalent to employing one person for one year of 230 effective working days, making sure that participants are employed for longer duration. The Municipality had a target of 365 FTEs and achieved 484(132%) of the target. Harry Gwala District Municipality had a target of 1099 work opportunities and managed to achieve 1108 (101%) vs the target.

The table below shows Harry Gwala District Municipality’s performance on the EPWP Incentive Grant in the last for 4 financial years.

YEAR	WORK OPPORTUNITIES (WO) TARGET	ACHIEVED (WO)	WO %	BUDGET ALLOCATION(R)	EXP.(R)	EXP. %
2019/20	240	240	100%	5 316 000.00	5 316 000.00	100%
2020/21	200	200	100%	5 195 000.00	5 195 000.00	100%
2021/22	350	361	103%	4 596 000.00	4 596 000.00	100%

2022/23	350	398	111%	5 221 000.00	5 221 000.00	100%
---------	-----	-----	------	--------------	--------------	------

#### FURTHER ACHIEVEMENTS BY HARRY GWALA DISTRICT MUNICIPALITY ON EPWP IMPLEMENTATION

Harry Gwala District Municipality was awarded the 1<sup>st</sup> position or the best performing District in the Infrastructure sector in KwaZulu-Natal, also achieved 3<sup>rd</sup> position in the Social Sector Best District category during KAMOSO awards competition held in November 2022

#### RURAL ROADS ASSETS MANAGEMENT SYSTEMS (RRAMS): 2022 2023 FINANCIAL YEAR

The programme is aimed at collecting road data to successfully create an asset register that will provide information required to plan for the management of roads and roads inventory within Harry Gwala District Municipality jurisdiction.

The strategic goal of the RRAM grant is to ensure effective and efficient investment in the rural roads through the development of Roads Asset Management System (RAMS) and the collection of associated roads and bridge inventory data condition assessment and traffic information. The improved data on rural roads will guide infrastructure investment for Local Municipalities improve accessibility and mobility of the rural communities.

Harry Gwala District Municipality received an allocation of R 2 391 000 for RRAMS implementation and achieving the strategic goal. The 100% expenditure was reached by the end of June 2023.

**During the 22/23 financial year, the Municipality conducted the following activities with success**

ACTIVITY	PROGRESS
System upgrade and renewal	Completed
Employment of 4 graduates	Completed
Graduates Trainings	Conducted
Traffic Count	UBuhlebezwe and Kokstad Local Municipalities, also Completed

Harry Gwala District Municipality had **NO** allocation for 2022/23 financial year for the implementation of Regional Bulk Infrastructure Grant (RBIG) and Energy Efficiency Demand Management System (EEDMS).

Description			Budget Year 2022/23			
R (000)	Major Conditions	Adjusted Budget	Year Actual	Year Budget	YTD Variance	TYD Variance %

**COMMENTS ON THE INFORMATION AND COMMUNICATION TECHNOLOGY (ICT)**

The Harry Gwala District Municipality continues to upgrade its ICT equipment and infrastructure in order to provide quality services to its customers, the general public and the residents within and around the District. By licensing the municipal software and upgrading outdated ICT equipment, the users of technology are able to efficiently communicate by means of emails, telephones, social media and the website. This also enables the users to meet the demands of the Municipality. The website ([www.harrygwalam.gov.za](http://www.harrygwalam.gov.za)) has proven to be a useful communication tool due to the results, which appear on the statistics of the website. Members of the community, government departments, the

private sector, etc. interact with the website by browsing, downloading content, publishing feedback and interacting with the social network quick-links found on the website. In addition, individuals are also able to access documentation, which have been uploaded as prescribed by legislation.

The Harry Gwala District Municipality Council approved and adopted a number of revised ICT policies, procedures and plans. These included the Information Systems and Security Policy, the Backup Plan, the Master Systems Plan, the Logical Access Management Policy, the Firewall Policy, the Disaster Recovery Plan, The Business Continuity Plan, the Change Management Procedure, the ICT Governance Framework and the Cyber Security Policy.

The Municipality will continue to keep abreast with current and new technologies and adhere to leading practices in order to host and protect all municipal information and data. Currently, the Municipality consistently upgrades its internet to enhance connectivity and employee productivity.

### **ICT Policies**

- Information Systems and Security (ISS) Policy
- Backup Plan
- Master Systems Plan
- User Access Management / Logical Access Management Policy
- Firewall Policy
- Disaster Recovery Plan
- ICT Business Continuity Plan
- Change Management Policy and Procedure
- ICT Governance Framework
- Server Room Maintenance Plan
- Cyber Security Policy

### **Comments on the Performance of Human Resource**

#### **Recruitment, Selection and Conditions of Service**

##### **Organogram**

The full organizational structure has 828 positions

The key positions (Senior Management positions) are filled as follows:-

Municipal Manager	Filled
Chief Financial Officer	Filled

---

Executive Director: Social Services and Development Planning	Filled
Executive Director: Corporate Services	Filled
Executive Director: Infrastructure Services	Filled
Executive Director: Water Services	Vacant

The total vacancy rate in the municipality is 11% (based on the total funded positions)

- Total number of staff 441
- Vacant posts (funded) 48
- Frozen posts (unfunded) 346
- Total in structure 828

**Staff Retention Rate**

Currently at Harry Gwala District Municipality there are 441 positions filled as follows:-

Permanently employed (393), Contract Appointments which include short and long term contracts (43) and Senior Managers also called Section 56 and 54A (5) employees employed. In the past year, 2022/2023 there were 24 people that left the institution due to resignation, death, retirement and contract expiry.

**Retention Rate calculation**

Number of stayers	<i>Divided by</i>	Number of personnel at beginning of period	<i>Times 100</i>	<i>Equals</i>	Your retention rate
(439)	÷	(404)	X 100	=	108%

**Staff Turnover rate**

Currently at Harry Gwala District Municipality we have 441 employees. There were 24 people that left the institution due to resignation, death, retirement and contract expiry.

### Turnover Rate calculation

Number of leavers	Divided by	Number of people employed	Times 100	Equals	Your turnover rate
(24)	÷	(441)	X 100	=	5,4%

### Job Evaluation and Job Grading

Harry Gwala District Municipality is currently utilising Patterson Salary Grading Scheme regardless of SALGA NEC having adopted TASK Job Evaluation System as the applicable system in the Local Government sector. TASK was introduced in order to ensure uniformity as well as to eliminate salary disparities. In KwaZulu Natal, SALGA agreed to establish 5 Job Evaluation Regions with 5 Job Evaluation Units (UThungulu, UMsunduzi, Ugu, Ethekwini & EMnambithi) and a Provincial Audit Committee for the province which seats at KZN SALGA offices. Harry Gwala District Municipality is under UMsunduzi Region which is region 2. Job descriptions were evaluated and sent to the Provincial Audit Committee for auditing, the final outcome results were sent to the Municipal Manager and they were officially published in August 2021. The organisational structure was amended accordingly to reflect new titles as per Final Outcome Report.

Region	Municipal Code	Status	No. of Positions	No. of Posts	No of Evaluated posts
2	D43	Preliminary results submitted to the Job Evaluation Unit	831	449	449

### Human Resource Management & Development Strategy and Implementation Plan

The purpose of the Human Resource Management & Development Strategy and Implementation Plan is to outline key interventions to be undertaken by the municipality in ensuring that it has the right number of people, with the right composition and with the right competencies, in the right places to enable it to deliver on the mandates and achieve its strategic goals and objectives. HR strategic planning is about determining the demand and supply of employees that are critical to achieving strategic objectives, analyzing the gap between the demand and supply and developing a plan that seeks to close the gap.

As the Harry Gwala District Municipality aims to consolidate the solid gains of the last five years and offer better quality services and performance such as exemplary political and administrative governance, it is crucial to build human resource capital to support the needs of the five-year IDP. In order to ensure that the municipality makes the best possible use of its resources to attain its commitments and programme objectives set out in the IDP and SDBIPs, a well-structured HRM & HRD Strategy and an Implementation Plan must be in place. The strategy informs the decision-makers on the three critical issues:

current *supply* of human resources;  
 human resources *demand*; as well as  
 Prioritised and *strategic HR actions* to be taken.

The Human Resource Management and Development Strategy represents the first step in transforming Human Resource Management and Development within the Municipality and is an attempt at defining the future status.

### Skills Development

The Harry Gwala District Municipality has developed a Workplace Skills Plan to address the skills and competency needs of its Employees, Councillors and Traditional Leaders. The Workplace Skills Plan and the Annual Training Report were submitted to the Local Government Sector Education and Training Authority (LGSETA) on 26 April 2023.

In the 2022/2023 financial year, Harry Gwala District Municipality planned and implemented the following training and development interventions:

### Training and Development Interventions

The Employment Equity Plan for the period starting 1 October 2022 - 30 September 2027 was adopted by Council on the 30 May 2023..

The Employment Equity Report of the HGDM was completed in the 2021/22 reporting period and was submitted to the Department of Labour on the 11<sup>th</sup> of January 2023.

Below is the current municipal employee profile in the Harry Gwala District Municipality:

African	97,4%
Coloured	2%
Indians	0,4%
Whites	0,2%
People with Disabilities	2%

### Comments on the performance of Corporate Services

The Corporate Services Department provides administrative and corporate support services to all Departments within Harry Gwala District Municipality. The Department is comprised of these Units: Administration and Corporate Support, Records Management, Fleet Management, Information and Communication Technology, Human Resource and Development, Occupational Health and Safety, and Communications. The Department sets its performance targets based on the Integrated Development Plan and other relevant documents, which are at the disposal of the Municipality. We complied with other legislation, for example, we submitted our Workplace Skills Plan and Annual Training Report timeously to the Local Government Sector Education and Training Authority and all the parties have

agreed and appended their signatures and submitted the Employment Equity Report to the Department of Labour on/before the due dates.

Although the Department struggled to meet some of its targets for the year due to financial constraints, there were those targets that we exceeded on like producing a resolution register for Council in order to track progress made in implementing those resolutions; providing on-time responses to negative publicity; continuously verifying employee qualifications from Senior Management to lower level employees; functionality of the Information and Communication Technology Steering Committee; and last but not least, consistently reporting on the use of municipal vehicles and costs incurred thereo

Comments on the Performance of Social Services and Development Planning in 2022-2023 Financial Year

#### DEVELOPMENT PLANNING DIRECTORATE

As the Municipal Systems Act and Spatial Planning and Land Use Management Act (SPLUMA) requires Municipalities to prepare Spatial Development Framework (SDF), HGDM has once again managed to fulfil this legislative requirement by reviewing the SDF. As the World community started to experience Covid 19 towards the end of 2019, South Africa also started to experience this deadly virus in March 2020. In response to this pandemic the Country went to a National Lockdown towards the end of March

2020. A number of developmental challenges started to emerge and others which were ignored for some reasons became issues of priority. The HGDM Spatial Development Framework had to pay attention to these issues. Amongst other issues which were considered by this review were issues of densification, access to basic service, provision and effectiveness of social services and amenities. The SDF also paid a closer look into issues of cemetery needs and cemetery planning in line with the settlement planning and demands that were being brought by Covid 19 pandemic.

The use of Geographic Information System (GIS) assisted both our Municipal Health Services, Water Services by identifying and mapping areas which were showing concentration of Covid 19 infections. This was helpfully in order to provide necessary awareness and speed up the provision of services in areas where there was an urgent need.

#### **SOCIAL SERVICES DIRECTORATE:**

Social Services is a makeup of two units namely Disaster Management and Municipal health Services, and during the 2022-2023 financial year the directorate set out to achieving 10 planned targets and to meet some of its regulated objectives which was achieved. Other activities you may see are not appearing in the SDBIP however they form part of an integral part of providing the services effectively as well in meeting the obligations as set out in the Disaster Management Act and the National Health Act and its regulations.

#### **MUNICIPAL HEALTH SERVICES UNIT:**

The Environmental Health is a fundamental public health approach that affects the whole population of Harry Gwala District and provides a foundation for present living. Neglecting of this service may resulted in an increase in diseases associated with environmental factors. The Municipal Health Services needs both financial and technical resources to strengthen environmental health services rendering in areas within the jurisdiction of Harry Gwala District Municipality.

In the fiscal year, 2022-2023, Municipal Health Services Unit developed municipal health plan and that plan was aligned with the Harry Gwala Municipal Integrated Development Plan (IDP) and subsequent with Service Delivery and Budget Implementation Plans (SDBIP).

An important aspect of Environmental Health practice is to reduce the incident of illnesses that are related to the environmental induced.

---

The activities performed during 2022-2023 were all based on the following:

- Water Quality Monitoring;
- Food Control;
- Waste Management;
- Health Surveillance of premises;
- Surveillance and prevention of communicable disease, excluding immunisations;
- Vector Control;
- Environmental Pollution Control;
- Disposal of the Dead; and
- Chemical Safety

**HEALTH SURVEILLANCE OF PREMISES: FINANCIAL YEAR 2022-2023**

Total number of premises inspections conducted were 309. The number which were compliant were 206, and 103 premises were non-compliant as follows:

**WATER QUALITY MONITORING: FINANCIAL YEAR 2022-2023**

The total number of water samples taken were 235. The number of samples compliant were 154 and 72 were non-compliant, and were broken down per Local Municipalities as follows:

**HEALTH AND HYGIENE AWARENESSES CONDUCTED FINANCIAL YEAR 2022-2023**

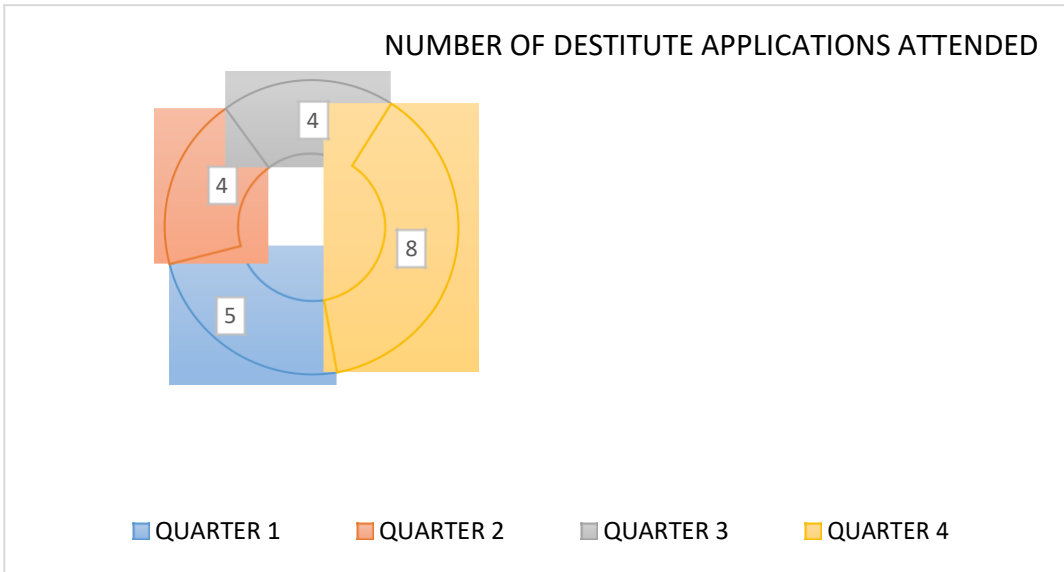

Total number of Health and Hygiene awareness’s conducted were 22, and were broken down per Local Municipality as follows:

NUMBEROF HEALTH AND HYGIENE AWARENESSES CONDUCTED

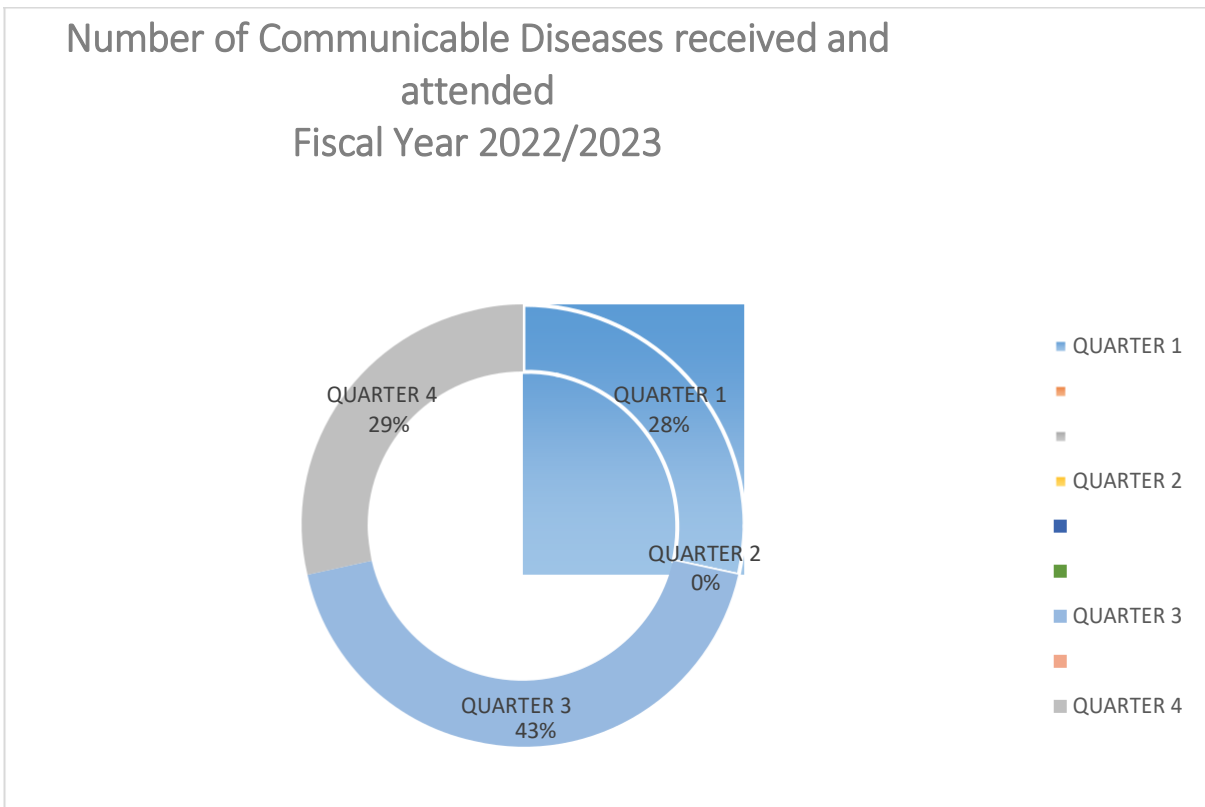

**DISPOSAL OF THE DEAD: FINANCIAL YEAR 2022-2023**

Total number of Destitute applications received and processed were 21, and where distributed per quarter as follows:

**SURVEILLANCE AND PREVENTION OF COMMUNICABLE DISEASE: FISCAL YEAR 2022-2023**

**HARRY GWALA DEMOGRAPHICS:**

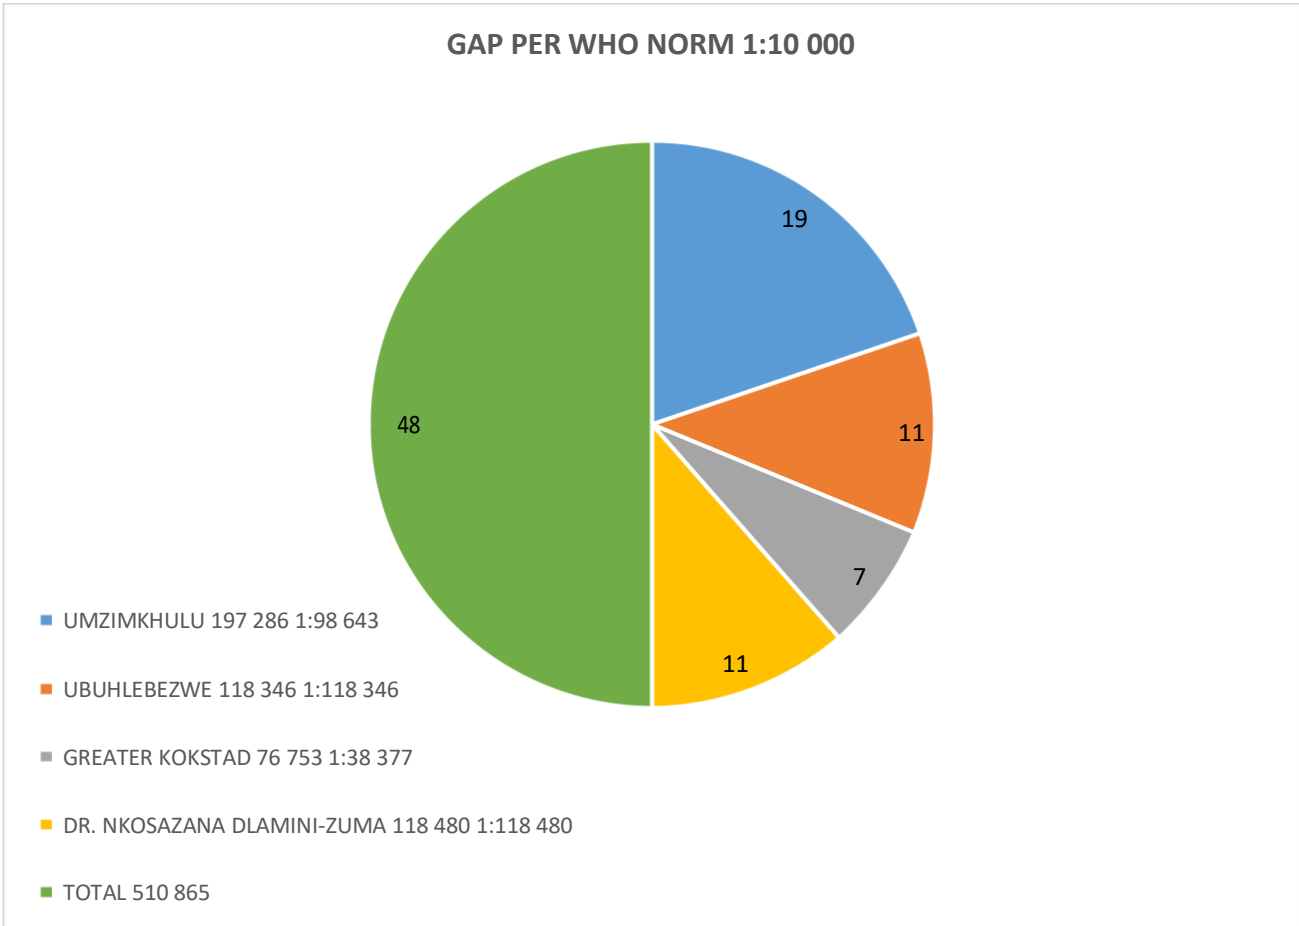

According to South Africa (Stat SA); the population of Harry Gwala is estimated at 510 865 in 2016 and we are faced with environmental health challenges, that is including the water borne diseases, food poisoning and other communicable.

NAME OF LOCAL MUNICIPALITY	POPULATION ESTIMATE	NUMBER OF EMPLOYED EHP/S	CURRENT RATIO OF EHP TO POPULATION	GAP PER WHO NORM 1:10 000
UMzimkhulu	197 286	2	1:98 643	19
Dr. Nkosazana Dlamini-Zuma	118480	1	1:118 480	11
Ubuhlebezwe	118 346	vacancy	0:118 346	11
Greater Kokstad	76753	2	1:38 377	7
TOTAL	510 865	5	-	48

The scope of practice of Environmental Health Practitioners (EHP) made under the Health Professions Act, 1974 (Regulation R698 of 26 June 2009) clearly outline the functions of an EHP.

**Number of functional Environmental Health Practitioner's in Harry Gwala and the WHO Norms for the ratio of EHP's for the fiscal year 2022-2023**

**DISASTER MANAGEMENT UNIT**

**KPA 1: Integrated institutional capacity**

**1.1 Municipal Disaster Management Policy Framework**

The Harry Gwala Disaster Management Framework has been updated and adopted by Council. It outlines how the municipality will go about implementing disaster management within its area of jurisdiction. All local municipalities have developed their policy framework for disaster management and adopted by their councils.

**1.2 Municipal Disaster Risk Management Plan**

The Harry Gwala Disaster Risk Management Plan has been updated and adopted by Council. Disaster Risk Reduction projects and programs are identified in the disaster risk management plan to prevent/mitigate disaster risks occurred or may occur and budget to implement these projects and programs.

**1.3 Disaster Management Advisory Forum -IGR**

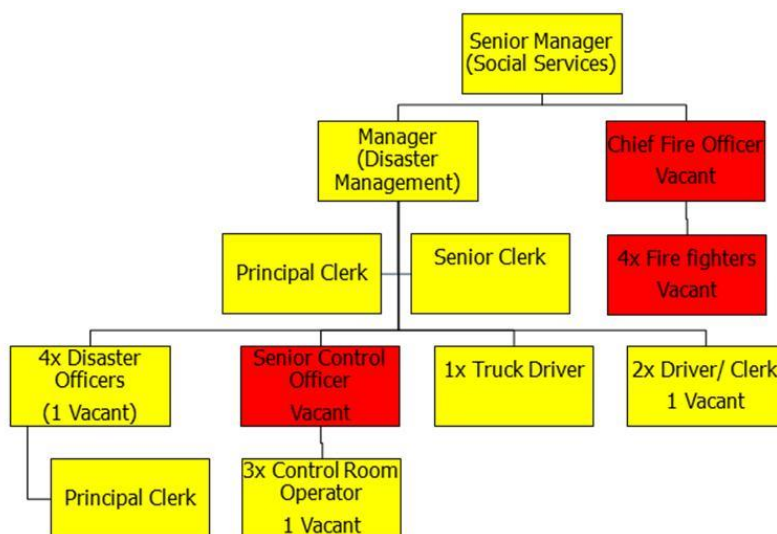

The Joint Disaster Management and Municipal Health Services Advisory Forum is a forum that convenes once in a quarter and 4 meetings are implemented, followed, and serves as a coordination forum for disaster management issues within the municipality.

The Disaster Management unit have established the Disaster Management Advisory forum to comply with the legislation. The Joint District Disaster Management and Municipal Health Services Advisory forum meeting was held on the 07<sup>th</sup> of June 2023 at the Disaster Management Centre.

**1.4 District Disaster Management Practitioners Meeting**

The District Practitioners Forum meetings are convened on quarterly basis prior to the Disaster Management Advisory Forum at the Disaster Management Centre. All Local Municipality Fire Services participate and report on Local Disaster Management Programs/Projects in line with their Service Delivery Budget Implementation Plans (SDBIP). All issues that pertain to disaster management and fire services are discussed in this meeting. Reports from Local Municipalities on all activities carried out are presented to this forum. Challenges in the implementation of Key Performance areas and all Disaster Management activities are also shared so that the practitioners can share possible solutions.

**1.5 DMC Organogram**

**KPA 2: Disaster risk assessment**

The Harry Gwala District Municipality just like most municipalities in the province is prone to several natural and man-made hazards. The vulnerability varies, which mainly depends on socio-economic status as well as the exposure of a particular household or community to a specific hazard. Table 1 outline the list of priority hazards that are affecting the district. The spatiotemporal characteristics of these hazards are well known since they have been observed and recorded continuously. The municipality has reviewed its Disaster Management Plan and part of that review will be to establish the current risks in all wards. The process is also informed by the climate change experience that have major impact on the response strategy in place.

### **2.1 Community Based Disaster Risk Assessment**

Disaster Risk Assessment is the first step in planning an effective disaster risk reduction programme (Policy Framework for Disaster Management). Harry Gwala District Municipality is prone to different types of hazards/risk and with the assistance of Local Municipalities has conducted ward based risk assessment in all wards for the purpose of developing risk profile to assist the municipality to identify risk reduction projects that will be incorporated in the Harry Gwala Disaster Risk Management Plan and in the IDP of the municipality for implementation. This will assist disaster management and all stakeholders in planning for projects and programs that need to be implemented. As part of mainstreaming the disaster management at ward level, the district municipality is working closely with all ward committee members to also participate as volunteers at a ward level when incidents occurred.

The Disaster Management Volunteers form part of the disaster management centre strategy to prevent and mitigate the occurrence of disasters e.g. removal of alien plants, clearing of storm water drains, river banks and educational awareness activities.

### **2.2 Disaster incident mapping**

The District Disaster Management Unit have started with the mapping of disaster incidents as part of ensuring that each and every incident that occurred within the district. The disaster management team is using cell phones and GPS devices to take the coordinates when conducting assessments. The GPS coordinates are recorded to indicate a historical occurrence of such an incident, once taken they are then sent to GIS for them to develop maps and pinpoint where exactly the incident occurred.

The GIS under the Development and Planning Unit provided training to the disaster management practitioners on how to utilize the GPS devices.

---

### **KPA 3: RISK REDUCTION, PREVENTION AND MITIGATION**

#### **3.1 Alignment / Integration between the IDP and DMP**

In terms of Section 26 (g) of the Municipal Systems Act, 200, Act 32 of 2000, a Municipality's IDP must contain a disaster risk management plan. A development project in the Municipality, as contained in the Municipality's IDP, is thus interlinked with disaster risk management planning and activities. Risk reduction projects identified as part of disaster risk management planning, such as those identified in this plan and the contingency plans to be developed and risk assessments should be included into the district and local Municipal IDPs.

The HGDM Disaster Management Sector Plan was developed and submitted to IDP and the Provincial Disaster Management Centre to be included in the District IDP document.

#### **3.2 Mutual Assistance Agreement for Disaster Risk Reduction**

In accordance with the Act (Act 57 of 2002) Section 7 (2) (d) and Policy Framework for Disaster Risk Management Section 1.4.3, municipalities must establish their level of capacity to deal with disaster risk reduction, response, and recovery. Where necessary, and to strengthen this capacity, they must enter into mutual assistance agreements within their neighbouring districts. At the Municipal level, cooperation and coordination efforts must be supported by cross-boundary mutual assistance agreements between provinces, districts, and municipalities and by creating partnerships with each other through memoranda of understanding.

Since the prevalence of major incidents and disasters is on the rise, there was a need to establish and sustain cross-border cooperation in fire prevention, suppression of fire, disaster management, and other emergency support including benchmarking in terms of disaster risk management and fire & rescue services good practice. Such cooperation also opens the potential for pragmatic, flexible, and creative solutions to major incidents and disaster risks.

Harry Gwala District Municipality has three districts with cross-boarders: UGU, uMgungundlovu, and Alfred Nzo. Should an incident or disaster at these cross borders arise, Harry Gwala District Municipality shall liaise with the relevant personnel in that district.

**The Harry Gwala District and Alfred Nzo District Municipality reviewed and updated their Mutual Assistance Agreement for cross border cooperation. The MAA was reviewed and signed by both parties in July 2022.**

### **KPA 4: RESPONSE AND RECOVERY**

The objective for KPA 4 as stipulated in the NDMF is to ensure effective and appropriate disaster response and recovery. This includes:

Implementing a uniform approach to the dissemination of early warnings

---

Averting or reducing the potential impact in respect of personal injury, health, loss of life, property, infrastructure, environment, and government services.

Implementing immediate integrated and appropriate response and relief measures when significant events or disasters occur or threatening to occur.

Implementing all rehabilitation and reconstruction strategies following a disaster in an integrated and development manner.

#### **4.1 Municipal capacity in terms of response and recovery**

The municipality has developed disaster risk management preparedness and/ or response plans in terms of the relevant prioritized risks that are imminent within the jurisdiction of the municipality. The response plan includes a response strategy to the Covid-19 pandemic to ensure that the regulations put in place to curb the spread of the corona virus are implemented.

#### **4.2 Preparedness Capacity**

As part of preparedness, the Harry Gwala District Municipality's Disaster risk Management, Disaster risk Management Advisory Forum, Local Municipalities within the district, Preparedness Planning Groups, Joint Response and Relief Management Teams, Disaster risk Management Volunteers, Rehabilitation & Recovery Project Teams, Covid-19 Joint Operation Committees and Harry Gwala Emergency Control Group are always on alert for action.

It is therefore very important to understand that, during response and recovery operations the relevant disaster preparedness and/ or response plans of the municipality will be executed by the disaster management structures. As and when disaster incidents and/ or disasters occur, the response teams are immediately activated to assist those affected, conduct assessments, and also provide disaster management relief.

Some of the response plans available in the disaster management plan are as follows:

- Covid-19 Response Plan
  - Cholera Incident Response Plan
  - Drought Incident Response Plan
  - Fire Incident Response Plan
  - Floods Incident Response Plan
  - Hazardous Materials Accidents by road Response Plan
  - Snow Incident Response Plan
  - Tornados Incident Response Plan
  - Climate Change Response Strategy
  - Festive Season Contingency Plan
  - Emergency Evacuation Plan
  - Ward Based Disaster Risk Assessment
-

### 4.3 Incidents occurred in 2022-2023 financial year

Harry Gwala District Municipality is prone to incidents that are man-made and natural such as strong winds, heavy rains, floods, thunderstorms and lightning, snowfall, structural and wildfires. Most of these incidents are seasonal, but in the past years, South Africa has been affected by the onset of climate change, which is associated with natural disasters and is occurring at any season. All four local municipalities under the Harry Gwala District area of jurisdiction were affected: Dr. Nkosazana Dlamini-Zuma, Greater Kokstad, Ubuhlebezwe, and uMzimkhulu.

These incidents sometimes caused displacement, loss of life and damage to property. The HGDM disaster management team and local municipality teams responded to seek the extent of the damages that occurred during the incident to provide emergency assistance to the affected victims. In all the incidents the district and local municipalities were very proactive to assist, the victims in terms of restoring their dignity and bringing their situation back to normal again.

Harry Gwala District Municipality experienced structural fires, strong winds, heavy rain accompanied by thunderstorms and lightnings, floods, and snowfall in different areas within the district.

A total of **One thousand nine hundred and fifty-eight (1958)** households were affected in different areas within the Harry Gwala District Municipality area of jurisdiction, **One thousand four hundred and sixty one (1461)** partially damaged households, **three fifty (350)** totally destroyed households, **one forty seven (147)** homeless, **eleven thousand three hundred and twenty three (11323)** people affected, **eight (08)** fatalities and **twenty five (25)** injuries reported.

#### 2022-2023FY Incidents reported and assessed

#### ENABLER 1: INFORMATION AND COMMUNICATION

**Objective:** To guide the development of a comprehensive information and communication system and establish integrated communication links with all disaster risk management role players.

##### Harry Gwala Disaster Management Information and Communication System

Integrated disaster risk management depends on access to reliable hazard and disaster risk information as well as effective information management and communication systems to enable the receipt, dissemination, and exchange of information.

The District Municipality has established an information and communication system and was installed in the Disaster Management Centre Control Room in 2013. Two control room operators appointed to date and one vacancy. The Service provider has been appointed supply and upgrade the information system. The Disaster Management Information and Communication System is currently being updated, some of the equipment has been installed and is about 80% complete.

#### ENABLER 2: TRAINING, AWARENESS EDUCATION AND RESEARCH

Activities conducted by the district disaster management Centre in collaboration with local municipalities:

Respond in all reported incidents and accidents occurred within the district.

Educational awareness campaigns are conducted in communities and in schools.

Risk assessments are conducted in all wards within the district.

Distribution of fire beaters and knap sack sprayers to Traditional Leaders that assist communities in conducting fire breaks and fight veld fires within their wards.

Roadblocks are carried out with other law enforcement stakeholders.

Business premises are being visited to check and ensure compliance with the regulations.

Mapping of disaster incidents and risks identified in areas within the district.

Participate in all events conducted within the district.

Inspection and mapping of lightning conductors and water/fire hydrants installed within the district.

### • AWARENESS CAMPAIGNS CONDUCTED IN 2022-2023

LOCAL MUNICIPALITY	NO. OF AWARENESSES	TYPE OF AWARENESS
DR NDZ	13	Disaster Management
GKM	06	Awareness Campaigns AND
Ubuhlebezwe	15	distribution of fire beaters &
uMzimkhulu	25	knapsack tanks to Amakhosi (Fire Safety Awareness, Flood awareness, Thunderstorm & Lightning awareness etc.
<b>TOTAL</b>	<b>59</b>	

### Enabler 3. FUNDING ARRANGEMENTS FOR DISASTER RISK MANAGEMENT

**Objective:** To establish mechanisms for the funding of disaster risk management in the HGDM. Given the provisions of the Act, funding arrangements must be designed in a manner that ensures that disaster risk management activities are funded adequately and in a sustainable manner.

#### Funding Mobilization Strategy

In terms of the Disaster management Act, funding arrangements must be designed in a manner which ensures that disaster risk management activities are funded adequately and in a sustainable manner.

#### Sources of Funding

Harry Gwala District Municipality (equitable share)

Provincial Disaster Management Centre (PDMC) Grant Funding

National Disaster Management Centre (NDMC) Grant Funding

## COMMUNICATIONS UNIT

The Municipality uses various forms of communication tools to ensure a constant exchange of information among its components (internal and external). This practice helps to enhance the municipality's transparency, credibility, and integrity.

## COMMUNICATION STRATEGY

An approved Communication Strategy that serves as a guiding document for the communications unit is in place and it is reviewed annually. The strategy is inclusive of the communications policy that guides its (strategy) implementation.

## NEWSLETTER

The Municipality has a newsletter that captures progress on the implementation of the various municipal programs including water and infrastructure projects. The newsletter is used as a platform for accountability by the Municipality.

## SOCIAL MEDIA (FACEBOOK)

The Municipality has a Facebook account: (@HarryGwalaDistrictMunicipality) and a Twitter handle. These are critical communication platforms where the Municipality shares new developments and current affairs with the community.

## WEBSITE

There is also a live website ([www.harrygwalmunicipality.gov.za](http://www.harrygwalmunicipality.gov.za)) with useful information about the Municipality.

**MEDIA ACTIVITIES**

The Municipality uses verbal and written communication to engage and or communicate with media stakeholders. Press statements are released as and when there is a need.

**MEDIA MONITORING**

The municipality monitors the output of the print, online, and broadcast media and responds accordingly.

**DISTRICT COMMUNICATORS FORUM (DCF)**

The Head of Communications chairs the forum on behalf of the District Municipality. The DCF meets once per quarter to discuss and resolve matters of common interest. In the financial year 2022/2023 the DCF managed to hold all its meetings as planned.

**INTERNAL AUDIT UNIT**

Internal audit unit was established as per the section 165 of the mfma, the unit develops an internal audit plan which is approved by the audit committee annually and all the internal projects are conducted in-house/internally. The internal audit unit reports quarterly to the Performance and Audit Committee the implementation of internal audit plan. The performance and audit committee consists of four independent members who are not working for the Harry Gwala District Municipality. The unit is guided by the internal audit charter which is approved annually by the performance and audit committee.

The Audit Committee Meetings for the financial year under review were held as follows:

Quarter 1: 23 August 2022

Quarter 2: 02 December 2022

Quarter 3: 16 February 2023

13 March 2023

Quarter 4: 17 May 2023

---

## CHAPTER 4: ORGANISATIONAL DEVELOPMENT PERFORMANCE

### COMPONENT A: INTRODUCTION TO MUNICIPAL WORKFORCE

#### Employee total turnover and vacancies

The information cited hereunder is as per the organizational structure approved on 30 May 2023.

EMPLOYEES							
Description	FY 2021/2022		FY 2022/2023		No. of (Funded and Unfunded)	Vacancies and	Vacancies (as a % of Total Posts)
	No. of Employees	No. of Approved Positions	No. of Employees (excluding Interns)				
Office of the Municipal Manager	18	34	18		2		5.8%
Budget & Treasury Services	71	94	74		3		3.2%
Water Services	227	553	245		33		5,7%
Corporate Services	45	52	42		3		5.8%
Social Services and Development Planning	44	61	37		5		8.2%
Infrastructure Services	22	34	21		2		5.9%
<b>Total</b>	<b>428</b>	<b>828</b>	<b>437</b>		<b>48</b>		<b>50,9%</b>

Vacancy Rate as per the categories stated below: 2022/23			
Description	Total No. of Approved Posts	Vacancies	Vacancies (as a % of total posts per category)
Municipal Manager	1	0	0%
CFO	1	0	0%
s.57 Managers (excluding Finance)	4	1	25%
Highly skilled supervision: T12-T18 (excluding Finance)	120	9	7.5%
Highly skilled supervision: T12- T18 (Finance posts)	24	1	4.2%

#### 4.2 COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE

Section 67 of the MSA states that "A municipality, in accordance with applicable law and subject to any applicable collective agreement, must develop and adopt appropriate systems and procedures, consistent with any uniform standards prescribed in terms of section 72(l)(c), to ensure fair, efficient, effective and transparent personnel administration..." This component cites the range of workforce management and progress made in the development of workforce policies and management practices during FY 2022-2023.

4)	COVID-19 Plan	100%	N/A	Adopted on the 29 June 2022.

### Occupational Health & Safety and Employee Wellness

The OHS Act provides for the health and safety of employees at work and for the health and safety of persons in connection with the use of plant and machinery; the protections of persons other than persons at work against hazards to health and safety arising out of or in connection with the activities of persons at work; to establish an advisory council for health and safety; and to provide for matters connected to Occupational Health and Safety.

This Unit deals with the following:

- Health and Safety in the institution
- Pre-employment Medical Examinations
- Executive Medical Examinations
- Medical Examinations for pension purposes
- Exit Medical Examinations
- Annual Medical Vaccinations
- Annual Immunisation
- Injury on duty cases
- Occupational diseases
- Implementation of wellness programmes

#### 4.4 INJURIES, SICKNESS AND SUSPENSIONS

There were ninety (90) days lost when three of our employees were injured at work. Those employees had to be referred to registered Medical Practitioners for assessment and hospital.

#### ***Steps taken to reduce injuries:***

The Municipality appointed a service provider to assist with Health and Wellness matters for employees. The service Provider promotes health and wellness as stipulated in the Integrated Health and Wellness Strategy where employees are encouraged about living healthy lifestyle so that they can be fully fit at work. The Municipality procured signs, which included warning signs as recommended by Department Employment and Labour inspectors. The Municipality did a risk assessment, which was

---

basically to identify hazards and associated risks, and management recommendations were made so as to minimize risks. The Municipality provided employees with Protective Clothing Equipment for those hazards that employees are exposed to, which cannot be eliminated.

---

<b>Number and Cost of Injuries on Duty</b>				
Type of Injury	Injury Leave Taken (Days)	No. of Employees Using Injury Leave	% Proportion of Employees Using Sick Leave	Average Injury Leave per Employee
<b>Required basic medical attention only</b>	0	0	0	0
<b>Temporary disablement</b>	3	3	3	4.32%
<b>Permanent disablement</b>	0	0	0	0
<b>Fatal</b>	0	0	0	0
<b>Total</b>	<b>3</b>	<b>3</b>	<b>3</b>	<b>4.32%</b>

Number of days and Cost of sick leave (excluding Injuries on Duty)				
Salary band	Total Sick Leave Days	No. of employees using sick leave	Total no. of employees in post	Average sick leave per employee (Days)
Lower skilled (T1-4)	54	9	146	3
Skilled (T5-T8)	353	27	133	3
Highly skilled production (Levels T9-T13)	656	64	76	3
Highly skilled supervision (T14 – T18)	201	21	81	2
Senior management	15	3	4	2
Municipal Manager	0	0	1	0

It should be noted that the “Total Number of Employees in Post” refers to the number of employees in post at the beginning of the FY 2022/2023.

**2022-2023 DISCIPLINARY CASES**

Disciplinary Action Taken on Cases of Financial Misconduct				
EMPLOYEE	ISSUE	STATUS	DATE	COMMENT
Cashier	Financial Misconduct	Unfair Dismissal Application Dismissed	27 May 2022	N/A
ISD Officer	Financial Misconduct	Not Guilty	11 April 2022	N/A
Director: Expenditure	Financial Misconduct	Reinstated by SALGBC	12 November 2020	N/A
Senior Clerk: Salaries	Financial Misconduct	Settlement Agreement at SALGBC	23 March 2021	N/A

**2022-2023 SUSPENSIONS**

<b>Total</b>		0	0	0	0

#### **4.3 COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE**

##### **4.5 SKILLS DEVELOPMENT AND TRAINING**

Section 68 of the MSA requires municipalities to develop their human resource capacity to a level that enables them to perform their functions and exercise their powers in an economical, effective, efficient and accountable way.

Harry Gwala District Municipality conducts its training through the Workplace Skills Plan. In the 2022/2023 financial year, 26% of the training budget was utilized. The under expenditure was because most of the trainings were advertised and no service providers were appointed and some of them had no direct cost. Some of the training programmes were offered by external stakeholders such as SALGA, COGTA, LGSETA at no cost.

In accordance with the MFMA Competency Regulations, progress in the HGDM financial competency development is as follows:

<b>Financial Competency Development: Progress Report 2022-2023</b>								
Description	A. Total no. of official employed by HGDM	B. Total no. of official employed by HGDM Entities	Consolidated (A+B)	Total	Consolidated competency assessments completed for A & B	Consolidated officials whose performance agreements with Reg. 16	no. of whom comply	Consolidated no. of officials who meet prescribed competency levels

## COMPONENT D: MANAGING THE WORKFORCE EXPENDITURE

## 4.6 EMPLOYEE EXPENDITURE

Number of employees whose salaries were increased due to positions being upgraded		
Designations	Gender	Total No. of Employees
Lower skilled (T1-T3)	Female	None
	Male	None
Skilled (T4-T8)	Female	None
	Male	None
Highly skilled production (T9-T13)	Female	None
	Male	None
Highly skilled supervision (T14-T18)	Female	1
	Male	None
Senior Management	Female	1
	Male	None
Municipal Manager	Female	None
	Male	None
<b>Total</b>		<b>2</b>

No. of employees whose position was upgraded	Date of implementation	No. of appeals submitted	No. of employees who are personal to holder
02	01/11/2022	0	217

Employees appointed to posts not approved				
Department	Level	Date of appointment	No. appointed	Reason for appointment when no established post exists
N/A	N/A	N/A	N/A	N/A

The HGDM Organizational structure was approved after engagement of the employer and employee representatives. There were positions that were upgraded in the 2022/2023 financial year because the municipality evaluated one new positions and re-evaluated another position.

## CHAPTER 5: FINANCIAL PERFORMANCE

### INTRODUCTION

Sustainable Financial Management still remains at the forefront of ensuring sustainable municipal service delivery. Conservative and prudent management of the public purse by the budget & treasury office remains at the core of ensuring the realisation of this critical Municipal Financial Management Act (MFMA) objective. In essence, the MFMA contributes towards ensuring that financial resources at a local government level are developmental, effective and efficient and that municipalities / municipal entities are held accountable for the effective management of their funds by encouraging transparency.

The aim of this chapter is to provide an overview of the financial performance of the municipality / municipal entity thorough measuring of actual results against actual and also through evaluating historical trends.

Information included in this chapter is structured as follows:

Component A: Statement of Financial Performance

Component B: Spending against Capital Budget

Component C: Cash flow Management and Investment

Component D: Other Financial Matters

## 5.1 Component A: Statement of Financial Performance

For the financial year under review, the Harry Gwala District Municipality obtained an unqualified opinion and the summary of its financial performance (Budget vs. Actual) is as follows:

96% of Operating Revenue Budget Earned,  
87% of Capital Budget Spent,  
90% of Operating Expenditure Budget Spend

The tables that follow show the detailed statement of financial performance by nature (Table A4) and by standard classification (Table A2).

## DC43 Harry Gwala - Reconciliation of Table A4 Budgeted Financial Performance (revenue and expenditure)

Financial Ratio's based on key financial indicators

Liquidity ratio measures the municipalities ability to pay its bills and is calculated by dividing the monetary assets (due within one year) by the municipality's current liabilities.

The graph above shows that the municipality will have problems meeting its short-term obligations or paying its current liabilities as the ratio is less than 1 in 2018/19 and 2019/20 although there is a slightly increase, then the municipality shows a great improvement in 2020/21 even though the ratio is still less than 1. In 2021/22 and 2022/23 the ratio shows great improvement, the ratio still shows the positive improvement due to a higher positive balance of cash and cash equivalents as well as VAT receivable at year end.

Cost coverage explains how many months of expenditure the municipality can survive with the cash and other liquid assets available to the municipality excluding utilisation of grants can cover.

- ✓ The ratio has been on a positive trend when comparing the two financial years starting from the 2018/19 financial year. In 2020/21 financial year, the ratio has further improved due to a higher cash balance at the end of June 2021. In 2021/2022 financial year the ratio

has deteriorated and then in 2022/23 the ratio has improved due to a higher cash balance at the end of June 2023 and the municipality can sustain its operations for a period of up to three months without any cash flows.

Capital Charges to operating expenditure ratio is calculated by dividing the sum of capital interest and principle paid by the total operating expenditure.

The ratio increased from 3% In 2018/19 and 2019/20 and from 2020/21 to 2022/2023 the ratio decreased to 2% due to decrease in the finance charges. The municipality does not have any loans with fianancial institutions. Furthermore the municipality embarked on an exercise of buying

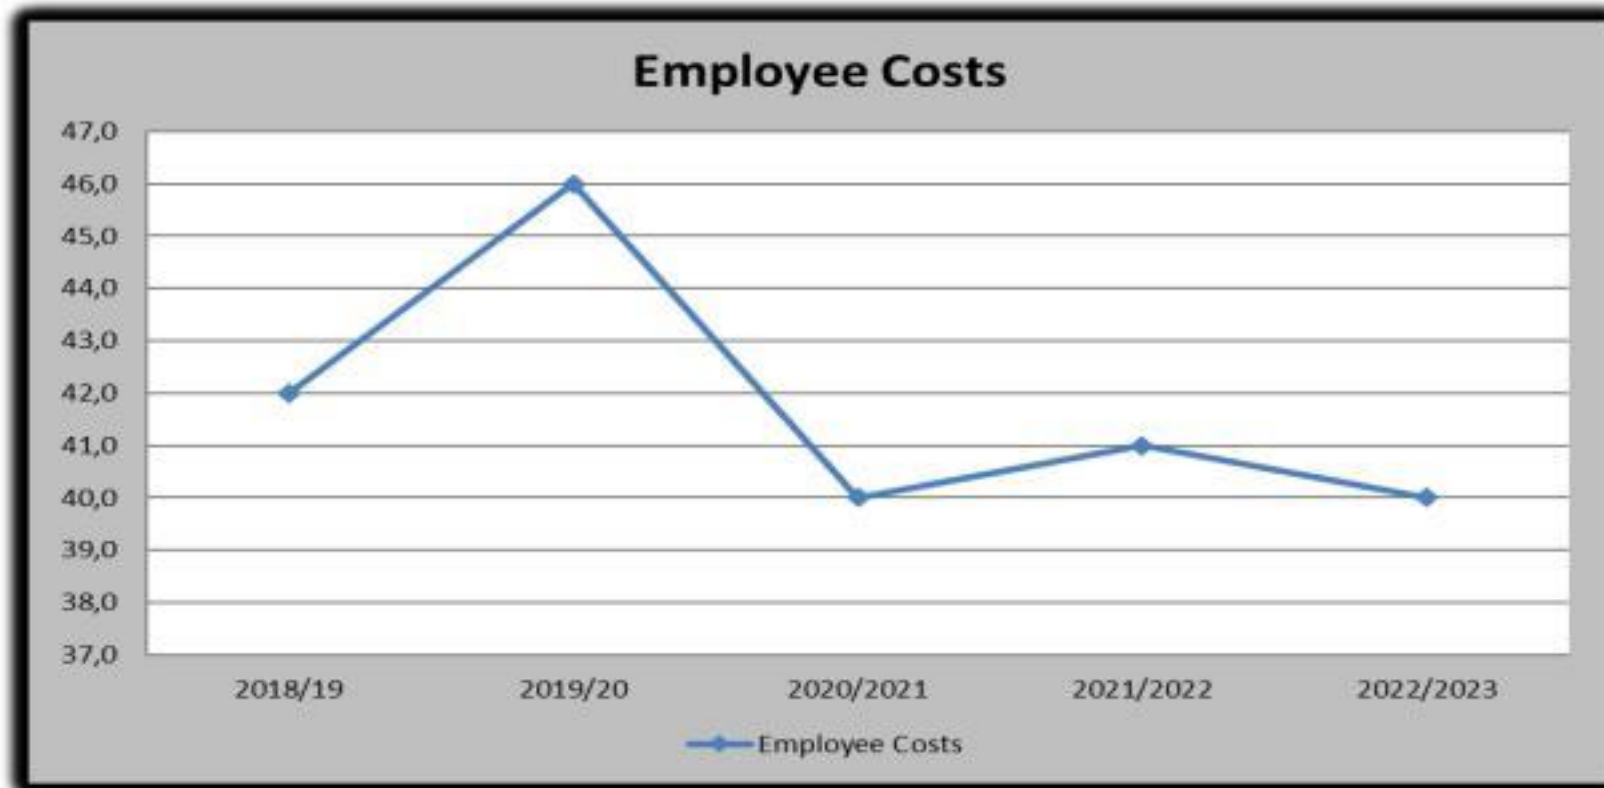

the municipal fleet instead of leasing or renting the vehicles. This has resulted in a decrease on the balance of finance lease obligations and finance costs.

Creditor System Efficiency- The proportion of creditors paid within terms(i.e 30 days). The ratio is calculated by outstanding trade creditors divided by creditor purchases. The ratio deteriorated in 2018/19 due to late payments of suppliers as a result of financial difficulties that was facing the municipality during that financial year. The municipality is still experiencing challenges in paying the suppliers within 30 days however the graph above shows gradual improvements over the years. In 2020/21 to 2022/23 there is great improvement in creditors payment period of 25 days compared to previous financial years except 2021/2022 there was a great improvement then in 2022/2023 there was a regression

from 13 days to 25 days. The municipality is striving to pay its suppliers within 30 days excepts for instances beyond the control of the municipality such late submission of invoices.

	25 days
Trade Creditors	34 627 869
Contracted Services	134 273 520
Repairs and Maintenance	-
General expenses	69 171 834
Bulk Purchases	33 985 638
Capital Credit Purchases ( <i>Capital Credit Purchases refers to additions of Investment Property and Property, Plant and Equipment</i> )	265 229 801

Employee related costs cost measures what portion of the revenue was spent on paying employee costs. It is calculated by dividing the total employee cost by the difference between total revenue and capital revenue. The remuneration as a % of operational expenditure is above the circular 71 norm of between 25% and 40%. An increase trend can be noticed in the employee related costs which could pose financial risks if the increase in own revenue does not keep up with increasing costs. The ratio has remained fairly constant over the years

	40%
Employee/personnel related cost	245 707 457
Councillors Remuneration	6 987 878
Total Operating Expenditure	632 526 250
Taxation Expense	-

Repairs and maintenance represents the proportion of operating expenditure spent and is calculated by dividing the total repairs and maintenance by the municipality's own revenue including the equitable share allocation. This ratio shows that the percentage of revenue spent on repairs and maintenance has been declining from 2019/20 meaning the municipality is spending less money on maintaining its infrastructure. The municipality is still facing financial challenges and failing to budget enough for repairs and maintenance, and this poses a risk of disruptions in service delivery due to failure of the water and sanitation plants not well serviced.

**5.2 Component B: Spending against Capital Budget**

Capital expenditure largely relates mainly to construction projects that will have value lasting over many years. In the case of the District, this relates to the Water & Sanitation Capital expenditure funded from National Grants Transfers. The municipality spent 90% of its Capital Budget.

An analysis of expenditure on the capital budget shows that the municipality’s Capital expenditure is highly reliant on Government Grants and subsidies. The district’s commitment towards water & sanitation service delivery backlogs reduction is indicated by 90% expenditure trend on water & sanitation infrastructure in the capital budget under trading service

**5.3 Component C: Cash flow Management and Investment**

**COMMENT ON CASH FLOW OUTCOMES**

In 2018/19 financial year the cash flow position was at positive balance for the municipality and the cash flow drop down in 2019/20 but still in a positive balance, and in 2020/21 financial year it went up to R56, 7million. The cash flow improved in the 2021/22 financial year to R 59, 6million and again in 2022/23 the municipality closed the year with a positive balance of R131, 4million, however there is R26, 1million unspent for Municipal Infrastructure Grant.

✓ 2018/19	R 58, 3million
✓ 2019/20	R 40, 6million
✓ 2020/21	R 56, 7million
✓ 2021/22	R 59,6million
✓ 2022/23	R131,4million

The municipality need to continue with cost containment measures to ensure that the municipality’s liquidity position continues to improve.

## COMMENT ON GRANT RECEIPTS

**Operating Transfers and Grants:** Budgeted operating include grants such as the Financial Management Grants that contribute the overall institutional arrangement such as Rural household's infrastructure grants, equitable share etc.

**Capital Transfers and Grants:** All capital grants budget as budgeted were received.

## 5.3.1 Borrowing and Investments

The municipality does not have any long-term borrowings

The municipality does not have investments greater than 90 days. All excess funds are deposited and kept in call accounts and these short term investments are made after taking into consideration short term working capital requirements.

### **5.3.2 Public Private Partnerships**

The Municipality is currently not involved in any Public Private Partnerships arrangements.

## CHAPTER 6

**REPORT OF THE AUDITOR-GENERAL**

**Harry Gwala District Municipality and its municipal entity  
(The group)**

**For the year ended 30 June 2023**

**Report of the auditor-general to the KwaZulu-Natal Provincial  
Legislature and the council on Harry Gwala District Municipality and its  
municipal entity**

**Report on the audit of the consolidated and separate financial statements**

**Opinion**

1. I have audited the consolidated and separate financial statements of the Harry Gwala District Municipality and its municipal entity (the group) set out on pages xx to xx, which comprise the consolidated and separate statement of financial position as at 30 June 2023, consolidated and separate statement of financial performance, statement of changes in net assets, cash flow statement and the statement of comparison of budget and actual amounts for the year then ended, as well as notes to the consolidated and separate financial statements, including a summary of significant accounting policies.
2. In my opinion, the consolidated and separate financial statements present fairly, in all material respects, the financial position of the group as at 30 June 2023 and their financial performance and cash flows for the year then ended in accordance with the South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2022 (Act No. 5 of 2022) (Dora).

**Basis for opinion**

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the consolidated and separate financial statements section of my report.
4. I am independent of the group in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

**Emphasis of matters**

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

#### Material impairments – consumer debtors

7. As disclosed in note 7 to the consolidated financial statements, the group recognised an allowance for impairment of R210,6 million (2021-22: R212,0 million) as the recoverability of these debts was doubtful.

#### Restatement of corresponding figures

8. As disclosed in note 40 to the consolidated financial statements, the corresponding figures for 30 June 2022 were restated as a result of errors in the financial statements of the group at, and for the year ended 30 June 2023.

#### Material losses - water

9. As disclosed in note 48 to the consolidated financial statements, material water losses of R8,44 million (2021-22: R7,99 million) was incurred, which represents 31,1% (2021-22: 30,6%) of total water purchased. These losses were due to ageing infrastructure, water supplied to informal settlements but not billed and illegal connections.

#### Other matter

10. I draw attention to the matter below. My opinion is not modified in respect of this matter.

#### Unaudited disclosure note

11. In terms of section 125(2) (e) of the MFMA, the particulars of non-compliance with the MFMA should be disclosed in the consolidated and separate financial statements. This disclosure requirement did not form part of the audit of the consolidated and separate financial statements and, accordingly, I do not express an opinion on it.

#### Responsibilities of the accounting officer for the consolidated and separate financial statements

12. The accounting officer is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with the SA Standards of GRAP and the requirements of the MFMA and Dora; and for such internal control as the accounting officer determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.
13. In preparing the consolidated and separate financial statements, the accounting officer is responsible for assessing the group's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

## Responsibilities of the auditor-general for the audit of the consolidated and separate financial statements

14. My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

15. A further description of my responsibilities for the audit of the consolidated and separate financial statements is included in the annexure to this auditor's report.

## Report on the audit of the annual performance report

16. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected key performance area presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.

17. I selected the following key performance area presented in the annual performance report for the year ended 30 June 2023 for auditing. I selected a key performance area that measures the municipality's performance on its primary mandated functions and that is of significant national, community or public interest.

### Key performance area

### Page

### numbers

### Purpose

To improve coverage, quality, efficiency and sustainability of water and sanitation in all urban and rural communities

### Basic service delivery

18. I evaluated the reported performance information for the selected key performance area against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the municipality's planning and delivery on its mandate and objectives.

19. I performed procedures to test whether:

- the indicators used for planning and reporting on performance can be linked directly to the municipality's mandate and the achievement of its planned objectives

- the indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements
- the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated
- the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents
- the reported performance information is presented in the annual performance report in the prescribed manner
- there is adequate supporting evidence for the achievements reported and for the reasons provided for measures taken to improve performance.

20. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.

21. The material findings on the reported performance information for the selected development priority are as follows:

<b>Basic service delivery</b>		
Various indicators		
22. I could not determine whether the reported achievements were correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievements might be more or less than reported and were not reliable for determining if the targets had been achieved.		

Indicator	Target	Reported achievement
Percentage of households with access to basic water for the first time through new projects (500 HH)	100%	100%
Percentage of households with access to basic water through refurbishment projects (212 HH)	100%	100%

### Other matters

23. I draw attention to the matters below.

### Achievement of planned targets

24. The annual performance report includes information on reported achievements against planned targets and provides measures taken to improve performance. This information should be considered in the context of the material findings on the reported performance information.

**Material misstatements**

25. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information for basic service key performance area. Management did not correct all the misstatements and I reported material findings in this regard.

**Report on compliance with legislation**

26. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the municipality's compliance with legislation.
27. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
28. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the municipality, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
29. The material findings on compliance with the selected legislative requirements, presented per compliance theme, are as follows:

**Annual financial statements**

30. The financial statements submitted for auditing were not fully prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, liabilities and disclosure items identified by the auditors in the submitted financial statement were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.

**Expenditure management**

31. Money owed by the municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.
32. Reasonable steps were not taken to prevent irregular expenditure of R288,89 million, disclosed in note 47 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by incorrect application of local content requirements.

### Asset management

33. An effective system of internal control for assets was not in place, as required by section 63(2)(c) of the MFMA.

### Human resource management

34. Job descriptions were not established for all posts in which appointments were made, as required by section 66(1)(b) of the Municipal Systems Act.

### Strategic planning and performance management

35. The performance management system and related controls were inadequate as they did not describe how the performance measurement processes should be conducted, organised and managed, as required by municipal planning and performance management regulation 7(1).

### Other information in the annual report

36. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report, and the selected key performance area presented in the annual performance report that have been specifically reported on in this auditor's report.
37. My opinion on the consolidated and separate financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
38. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the consolidated and separate financial statements and the selected key performance area presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

39. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

### Internal control deficiencies

40. I considered internal control relevant to my audit of the consolidated and separate financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.

41. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the opinion, the material findings on the annual performance report and the material findings on compliance with legislation included in this report.
42. Management did not exercise oversight responsibility regarding financial and performance reporting and compliance, as well as related internal controls.
43. Management did not implement proper record keeping in a timely manner to ensure that complete, relevant and accurate information is accessible and available to support financial and performance reporting. In addition, management did not take adequate steps to prevent breakdowns in compliance processes by instilling discipline in the institutionalisation of policies and procedures, as well as strict monitoring the compliance checklist.

### Material Irregularities

44. In accordance with the PAA and the Material Irregularity Regulations, I have a responsibility to report on material irregularities identified during the audit and on the status of material irregularities as previously reported in the auditor's report.

#### Material irregularities identified during the audit

45. The material irregularities identified are as follows:

**Payments to consultant not in accordance with contract terms** Financial Management Act, 2003 (Act No.56 of 2003) (MFMA) which states that each senior manager of a municipality and each official of a municipality exercising financial management responsibilities must take all reasonable steps within their respective areas of responsibility to ensure that the financial and other resources of the municipality are utilised effectively, efficiently, economically and transparently.

47. The municipality awarded a contract to a service provider for the provision of technical support for assets verification and conditional assessments for a period of 36 months effective from 02 May 2019. The officials of the municipality approved payments to the service provider that were not in accordance with the approved MOA thereby not effectively implementing financial management controls around payment approval and processing resulting in a likely financial loss amounting to R22,1 million.
48. The accounting officer was notified of the material irregularity on 31 January 2023 and was invited to make a written submission on the actions taken and that will be taken to address the matter.
49. The following actions are being taken to address the material irregularity:
- An investigation into the matter is currently in progress.

- The municipality suspended the processing of payments relating to this contract pending the finalisation of the investigation.
- The service provider has instituted a counter claim against the Municipality for the outstanding payments not processed. The matter is still in progress.

50. I will follow up on the progress of the matters indicated above, including the outcomes of the investigations and the implementation of the recommendations thereof, in the next audit.

## 5 Status of previously reported material irregularities

### Payments made to contractor for project standing costs

- 1 The municipality did not comply with section 116(2)(a) of the MFMA which states that the accounting officer of a municipality or municipal entity must take all reasonable steps to ensure that a contract or agreement procured through the supply chain management policy of the municipality or municipal entity is properly enforced.
52. The municipality entered into a contract with a supplier for the construction of the Gala Bulk pipeline from Sappi's Ngudwini Dam to J8 (Emnywaneni off-take Greater Bulwer-Donnybrook Water Supply). The construction was dependent on the delivery of the pipes which were procured using another contract from a different supplier. The delivery of the pipes was significantly delayed, which resulted in the delays on the construction process and a subsequent claim for standing time against the municipality.
53. The municipality did not enforce any of the delay or penalty clauses against the supplier for failure to deliver the pipes on time resulting in non-compliance with section 116(2)(a) of the MFMA. The non-compliance resulted in a material financial loss for the municipality of R8,1 million as a result of the standing time claimed and paid to the service provider for delays in construction.
54. The accounting officer was notified of the material irregularity on 15 February 2022 and was invited to make a written submission on the actions taken and that will be taken to address the matter.
55. The following actions have been taken to address the material irregularity:
- The investigation was conducted on the matter, and four municipal employees were recommended for disciplinary proceedings which are currently in progress.
  - A letter of demand was issued to the service provider that was responsible for supplying the pipes, demanding a repayment of the loss suffered. This led to a legal process instituted by the supplier against the municipality denying responsibility for the financial loss suffered.
  - Due to weaknesses in controls that were identified by the investigation and based on the advice from the legal representatives of the Municipality, the accounting officer elected not to pursue loss recovery as the prospects of recovery are slim.

- The internal controls within the supply chain management (SCM) unit were strengthened through the implementation of the new SCM compliance checklist, to ensure proper verification processes prior to processing payments.
- A clear liability clause for non-compliance has been incorporated into the specification of the service-level agreements.

56. The Municipality is in the process of sourcing training for the relevant employees relating to supply chain management and contract management processes.

57. I will follow up on the progress of this matter in the next audit.

Pietermaritzburg

FOR - GENERAL

14 December 2023

AUDITOR GENERAL  
SOUTH AFRICA

*Auditing to build public confidence*

## Report of the auditor-general to the KwaZulu-Natal Provincial Legislature and the council on Harry Gwala District Municipality

### Chapter 1 Report on the audit of the financial statements

#### Chapter 2 Qualified opinion

I have audited the financial statements of the Harry Gwala District Municipality set out on pages ... to ..., which comprise the statement of financial position as at 30 June 2022, the statement of financial performance, statement of changes in net assets, cash flow statement and the statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.

In my opinion, except for the possible effects of the matter described in the basis for qualified opinion section of this auditor's report, the financial statements present fairly, in all material respects, the financial position of the Harry Gwala District Municipality as at 30 June 2022, and its financial performance and cash flows for the year then ended in accordance with the South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2021 (Act No. 9 of 2021) (Dora).

#### Basis for qualified opinion

#### Chapter 3 Contracted services- Outsourced business and advisory

I was unable to obtain sufficient appropriate audit evidence that payments made for outsourced business and advisory services included in contracted services were received, as internal controls were not adequate to confirm receipt of these services. I was unable to confirm outsourced business and advisory services expenditure included in contracted services by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to outsourced business and advisory services included in contracted services stated at R35,15 million in note 23 to the financial statements.

#### Context for the opinion

I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of my report.

I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

#### **Chapter 4 Emphasis of matters**

I draw attention to the matters below. My opinion is not modified in respect of these matters.

#### **Chapter 5 Material impairments – consumer debtors**

As disclosed in note 6 to the financial statements, the municipality recognised a provision for impairment of R212,01 million (2020-2021: R204,32 million) as the recoverability of these debts was doubtful.

#### **Chapter 6 Material losses – water**

As disclosed in note 44 to the financial statements, the municipality incurred water distribution losses of R7,99 million (2020-2021: R6,56 million), which represents 30,6% (2020-2021: 28,3%) of total water purchased. These losses were due to the high increase in water carting due to drought, illegal connections, ageing infrastructure and water supplied to informal settlements but not billed.

#### **Chapter 7 Other matter**

10. I draw attention to the matter below. My opinion is not modified in respect of this matter.

#### **Chapter 8 Unaudited disclosure note**

In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirements did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on them.

#### **Chapter 9 Responsibilities of the accounting officer for the financial statements**

The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the SA Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the

preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

### **Chapter 10 Auditor-general's responsibilities for the audit of the financial statements**

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

### **Chapter 11 Report on the audit of the annual performance report**

In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report on the usefulness and reliability of the reported performance information against predetermined objectives for selected key performance area presented in the annual performance report. I performed procedures to identify material findings but not to gather evidence to express assurance.

My procedures address the usefulness and reliability of the reported performance information, which must be based on the municipality's approved performance planning documents. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures do not examine whether the actions taken by the municipality enabled service delivery. My procedures do not extend to any disclosures or assertions relating to the extent of achievements in the current year or planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.

I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the *basic service delivery key performance area* presented on pages xx to xx of the municipality's annual performance report for the year ended 30 June 2022:

I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

The material findings on the usefulness and reliability of the performance information for the selected key performance area are as follows:

#### **Chapter 12 Number of jobs created through capital projects**

The source information and method of calculation for measuring the planned indicator was not clearly defined and related systems and processes were not adequate to enable consistent measurement and reliable reporting of performance against the predetermined indicator definitions. As a result, limitations were placed on the scope of my work and I was unable to audit the reliability of the achievement of 56 reported against the target of 55 in the annual performance report.

#### **Chapter 13 Percentage of households with access to basic sanitation for the first time (788H)**

The source information and method of calculation for measuring the planned indicator was not clearly defined and related systems and processes were not adequate to enable consistent measurement and reliable reporting of performance against the predetermined indicator definitions. As a result, limitations were placed on the scope of my work and I was unable to audit the reliability of the achievement of 101,27% reported against the target of 100% in the annual performance report.

#### **Chapter 14 Other matter**

23. I draw attention to the matter below.

#### **Chapter 15 Achievement of planned targets**

The annual performance report on pages ... to ... sets out information on the achievement of planned targets for the year. This information should be considered in the context of the material findings on the usefulness and reliability of the reported performance information in paragraphs 21 to 22 of this report.

## Chapter 16 Adjustment of material misstatements

I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were on the reported performance information of the *basic service delivery key performance area*. As management subsequently corrected only some of the misstatements, I raised material findings on the usefulness and reliability of the reported performance information. Those that were not corrected are reported above.

## Chapter 17 Report on the audit of compliance with legislation

### Chapter 18 Introduction and scope

In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the municipality's compliance with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.

The material findings on compliance with specific matters in key legislation are as follows:

### Chapter 19 Financial statements

The financial statements submitted for auditing were not fully prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of expenditure and payables identified by the auditors in the submitted financial statements were subsequently corrected, but the supporting documents that could not be provided resulted in the financial statements receiving a qualified audit opinion.

### Chapter 20 Strategic planning and performance management

The performance management system and related controls were inadequate as it did not describe how the performance measurement should be conducted and managed, as required by municipal planning and performance management regulation 7(1).

### Chapter 21 Procurement and contract management

Goods and services of a transaction value above R200 000 were procured without inviting competitive bids, as required by supply chain management (SCM) regulation 19(a).

Contracts were awarded to bidders that did not score the highest points in the evaluation process, as required by section 2(1)(f) of the Preferential Procurement Policy Framework Act 5 of 2000 and 2017 preferential procurement regulation 11 (PPR).

Invitation to tender for procurement of commodities designated for local content and production, did not stipulate the minimum threshold for local production and content as required by PPR 8(2).

Persons in the service of the municipality who had a private or business interest in contracts awarded by the municipality failed to disclose such interest, in contravention of SCM regulation 46(2)(e).

## Chapter 22 Expenditure management

Money owed by the municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.

Reasonable steps were not taken to prevent irregular expenditure amounting to R326,73 million as disclosed in note 43 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by competitive bidding process not followed.

## Chapter 23 Other information

The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report and the key performance area presented in the annual performance report that has been specifically reported in this auditor's report.

My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.

In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected key performance area presented in the annual performance report, or my knowledge obtained in the audit or otherwise appears to be materially misstated.

I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

## Chapter 24 Internal control deficiencies

I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified opinion, the findings on the annual performance report and the findings on compliance with legislation included in this report.

Monitoring of financial information, performance information and compliance with key legislation, was not effective to ensure that the objectives of transparent, credible and reliable reporting were achieved.

Management did not adequately maintain and independently review underlying schedules and invoices supporting contracted services, property, plant and equipment and did not perform regular reconciliations over performance information ensuring that all indicators had reliable schedules. In addition, management did not take adequate steps implement compliance processes by instilling discipline in the institutionalisation of policies and procedures as well as strict monitoring of compliance with legislation relating to procurement and contract management.

The municipality's risk assessment was considered to be adequate, however it did not proactively manage risks relating to inaccurate and incomplete financial and performance reporting and the failure to comply with key legislation.

## Chapter 25 Material irregularities

In accordance with the PAA and the Material Irregularity Regulations, I have a responsibility to report on material irregularities identified during the audit.

### Chapter 26 Material irregularity identified during the audit

45. The material irregularity identified is as follows:

#### Chapter 27 Payments made to contractor for project standing costs

The municipality entered into contract HGDM522/HGDM/2016 with SSR Security, trading as Mahlubi Transport and Plant Hire for the construction of the Gala Bulk pipeline from Sappi's-Ngudwii Dam to J8 (Emnywaneni off-take Greater Bulwer-Donnybrook Water Supply). This construction contract was dependent on contract HGDM 533/HGDM/2017 entered into with NRB Piping Systems (Pty) Ltd. The delivery of the pipes by NRB Piping Systems was significantly delayed

which resulted in delays on the construction process for Mahlubi Transport and Plant Hire and a subsequent claim for standing time by Mahlubi Transport and Plant Hire against the municipality.

The municipality did not comply with section 116(2)(a) of the MFMA which states that: “The accounting officer of a municipality or municipal entity must take all reasonable steps to ensure that a contract or agreement procured through the supply chain management policy of the municipality or municipal entity is properly enforced”.

The non-compliance resulted in a material financial loss for the municipality of R8 090 292 as a result of the standing time claimed and paid to Mahlubi Transport and Plant Hire due to delays in construction caused by delays in the contract with NRB Piping Systems.

The accounting officer was notified of the material irregularity on 15 February 2022 and was invited to make a written submission on the actions taken and that will be taken to address the matter.

The following actions have been taken to resolve the material irregularity

The former accounting officer had planned that the municipality will institute the recovery of the standing costs from NRB Piping Systems. The municipality sourced the services of an independent investigator to conduct an investigation concerning whether the amount of R8 090 292 paid to Mahlubi Transport Plant Hire warranted to be fruitless and wasteful expenditure for standing time. The outcome of the investigation confirmed the matter above. Municipal Public Accounts Committee (MPAC) recommended that further investigation be conducted ensuring that, a clear report detailing the roles and sets out clearly exactly what roles of everyone involved were, who was supposed to have done what and never did and recommendations thereto.

The municipality instituted disciplinary action against the officials that were responsible for project management for Bulwer-Donnybrook Water Supply Scheme project.

A clear liability clause for non-compliance will be incorporated into the specification of the service-level agreements.

The municipality will reconsider how its construction projects are structured.

Training and further training should be provided to the contract and project management team of the municipality.

Training by and with the Risk Management unit for project and contract management has been conducted.

I will follow up on the implementation of the planned actions during the next audit.

**Chapter 28 Other reports**

In addition to the investigations relating to material irregularities, I draw attention to the following engagement conducted which had, or could have, an impact on the matters reported in the municipality's financial statements, reported performance information, compliance with applicable legislation and other related matters. This report did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.

The municipality is investigating claims submitted and payments made for consulting services on asset management under tender number: HGDM/625/ HGDM/ 2019. The investigation was still in progress at the date of this report.

## Appendix B: Committee and committee purpose

Executive Committee Council

Finance and Corporate Services Committee

Social Services and development Planning Committee

Infrastructure Services Committee

Water Services Committee

Municipal Public Accounts Committee

Audit Committee

Executive committee

It is the Principal Committee and makes recommendations to Council for Endorsement. It monitors the municipal performance. The Committee also reports annually to Council on the effect of community participation and consultation in oversee provision of services to the community eg. Integrated Development Plan (IDP) roadshows.

Council

This is the body that makes the by-laws and decisions for the municipality and oversees the executive and administration. It has a number of different responsibilities. These include making the by-laws and policies, providing financial oversight, planning the budget, approval of the Service Delivery and Budget Implementation Plan (SDBIP) and the Integrated Development Plan (IDP), employment of the Municipal Manager and ensures that policies and by-laws are adhered to. It is also responsible for ensuring that the municipal administration fulfills its duties by ensuring that all resolutions are implemented.

Finance and Corporate Services committee

The Finance and Corporate Services Committee assists the Executive Committee to promote a safe, healthy and enabling environment. The Committee shall be responsible for research, planning and recommendation of best methods and strategies with respect to the following

functions of the Municipal Council and advising the Executive Committee on all policy matters ensuring appropriate systems and procedures.

Receive reports and evaluate progress on Human Resources, Administrative and Communication issues.

Make recommendations on legislation and policies relating to Human Resources, Administrative Finance and Communication matters.

Matters related to the job evaluation and grading of staff.

Performance Management that is cascaded to employees below Section 56 Managers.

Implementation of new structures and strategies.

Ensuring that administrative systems and processes of Sisonke District Municipality are in line with National principles e.g. Batho Pele principles.

Deliberate on all finance related matters.

Deliberate on Communication matters.

Assist the Executive Committee in the allocation if applicable, the distribution of grants made to the District Municipality such as LGSETA grants.

Monitoring of Workplace Skills Plan and all other related programmes.

Assist the Executive Committee in water tariffs related matters by developing revenue enhancement strategy.

Policy decisions relating to:

The recruitment, selection and appointment of persons as staff members.

The monitoring, measuring and evaluating performance of staff.

The dismissal and retrenchment of staff

Conditions of service for employees

Labour Relations matters

Human Resources Development

Transformation and diversity management

Any other matters related to:

General Administration

Security Services

Organisational Development

Committees Management and Administration

Registry Services

Information Communication Technology Management

Communication

Social Services and Development Planning committee

The Social Services and Development Planning Committee assists the Executive Committee to promote a safe, healthy and enabling environment. The Committee shall be responsible for undertaking research, planning and recommendation of best methods and strategies with respect to the following functions of the Municipal Council, in each case advising the Executive Committee:-

Social Development strategies for all sectors of the District community, including but not limited to Senior Citizens, Youth, Women (Gender issues), children and people with disabilities.

Environmental Health System: the planning and development of a system and mechanisms to implement an effective and efficient environmental health system.

Sports and Recreation, Heritage, Arts and Culture: coordinating and initiating programmes and projects aimed at developing the skills, knowledge, talent and participating in social regeneration of all sectors of the community.

Disaster Management: planning and local economic including disaster mitigation i.e. put measures in place to deal with disaster should it happen.

The Committee shall approve development applications.

The Committee will work in promoting Tourism within the District.

Establishment of poverty alleviation initiatives

The Committee shall monitor progress and use of land after transfer.

Revitalisation of declining towns.

Encouragement liveable and sustainable human settlements.

Development of sector plans and monitor that sector plans are undertaken.

Undertaking any other related functions which may be requested by the Committee from the Executive Committee.

Receive reports and evaluate progress.

#### Municipal Public Accounts committee

Audit Report on annual financial statements of the Municipality, Any reports issued by the Auditor- General on the Affairs of the Harry Gwala District Municipality, and the annual report of the municipality.

The Mayor's quarterly report on the implementation of the budget and the financial state of affairs of the municipality; and any other financial statement or reports referred to MPAC by the Council. Any information relating to personnel; books of account, records, assets and liabilities of the council. Relevant information that may be required for the purpose fulfilling its mandate, MPAC may report on or make recommendations in relation to any of the reports or financial statements which it may examine.

In its examination (mentioned in 2) MPAC must take into account previous statements and reports and consider the degree to which previously identified shortcomings have been rectified. The Committee must report to council on its findings. The Committee shall initiate and develop the annual Oversight report on the Municipality's Annual Report.

The Committee may initiate, direct and supervise investigations referred to it and render an opinion on such recommendations. MPAC may consider any Audit Committee recommendations referred to it and render an opinion on such recommendations. The Committee may request or invite members of the public to attend any meeting of the Committee (section 16 (1) of the Municipal System Act, 2000) to assist it with the performance of its function. MPAC may co-opt advisory members or experts to advise the Committee in its deliberations, provided that such persons may not vote of any matter.

## Audit committee

Section 166 of the Municipal Finance Management Act, 1998 requires every municipality to have an Audit Committee which must serve the purpose of being an independent advisory body to the council, political office bearers, and the municipal manager in his role as accounting officer, management and staff. The audit Committee is required to consider any matters relating to financial affairs of the municipality and any risk, internal and external audit matters. The Committee must review and assess the qualitative aspects of financial reporting, the municipality's processes and compliance with significant applicable legal, ethical regulatory requirements.

The advisory role of the Audit Committee is related to matters including:

internal financial control and internal audits;

risk management;

accounting policies;

the adequacy, reliability and accuracy of financial reporting and information;

performance management;

effective governance;

compliance with the Municipal Finance Management Act, the annual Division of Revenue Act and any other applicable legislation;

performance evaluation; and

Any other issues referred to it by the municipality.

The Committee must review the financial statements to provide council with a credible view of the financial position of the municipality. It must respond to any issues raised by the Auditor-General in the audit report and carry out any investigations into the financial affairs of the municipality which the council requests.

## Infrastructure services committee

The Municipal Structures Act, 117 of 1998 prescribes the methodology for the establishment of Municipal Council Committees. The Infrastructure Committee (hereby referred to as the "Committee" is established in terms of Section 80 of the Municipal Structures Act.

The object of the Infrastructure Committee is to assist the Executive Committee to promote service delivery with the District Municipality.

The Committee shall be responsible for undertaking research, planning and recommendation of best methods and strategies with respect to the following functions of the Municipal Council, in each case advising the Executive Committee. The functions of the Infrastructure Committee are tabulated as follows:

Bulk electricity supply which includes for the purposes of such supply, the transmission, distribution and where applicable the generation of electricity.

Bulk sewage reticulation infrastructure (including bulk water reticulation and domestic waste water) and solid waste disposal.

Solid waste disposal infrastructure relating to the determination of waste of waste disposal strategy.

Establishment operation and control of waste disposal sites, bulk waste transfer facilities and waste disposal facilities.

Municipal roads which form an integral part of a road transport system for the area of the district, municipality as a whole. Any other municipal public works allocated to the municipality.

The Infrastructure Committee shall advise the Executive Committee on all fiscal and other incentives designed to promote infrastructure development.

Overseeing of the implementation of infrastructure projects.

Prioritization of infrastructure development projects and recommend to the Executive Committee Support administration in community liaison issues relevant to infrastructure development.

Represent Council in Seminars/workshops related to Infrastructure development.

The Committee must recommend the provision/approval of funds for unforeseen infrastructural improvements.

Overseeing the implementation of projects and support committees relevant to community development.

Water and Sanitation services committee

The Municipal Structures Act, 117 of 1998 prescribes the methodology for the establishment of Municipal Council Committees. The Water and Sanitation Committee (hereby referred to as the "Committee" is established in terms of Section 80 of the Municipal Structures Act.

This Committee provides to the Executive Committee, recommendations on legislation and policies relating to the following functions:

Water,

Sanitation,

Ensure that all Safety issues relating to the above are adhered to,

Legislative compliance,

Receive progress reports on the issues mentioned above and evaluate progress.

Responsible to assist the Executive Committee in the coordination of functions pertaining to its portfolio. Considering reports from the designated officials for the portfolio, or other functionary and submit its recommendations on such issues to the Executive Committee.

Perform any duties and exercise any powers delegated to it by the Executive Committee.

May sub-delegate any duty or power delegated to it by the Executive Committee to any Political Office Bearer or the Municipal Manager.

May within the limits of any Policy Directives of the Executive Committee and adopted Integrated Development Plan issue policy directives to any Political Office Bearer or the Municipal Manager to whom discretion has been sub-delegated by it for the exercise of any power by such a person under such sub-delegation.

To assist the Executive Committee to promote a safe and healthy environment by advising the Executive Committee on:

-All policies and bylaws for the water and sanitation services

-The review of those bylaws, regulations, rules and tariffs that regulate and arise out of matters within the Terms of Reference of the Committee and the proposal of amendments and additions thereto.

Appoint from within its membership a sub-committee with powers to co-opt such other members as the sub-committee deem fit, to consider and report to the Committee on any matter falling within its terms of reference.

Recommend to the Executive Committee strategies, programs and services to address water and sanitation needs through the water services development plan and Integrated Development Plan; taking into account any applicable national and provincial development strategies and recommend or determine the best methods, including partnership and other approaches, to

deliver water and sanitation services, programs and services to the maximum benefit of the community.

Oversee random water quality testing undertaken within the district municipality The Water and Sanitation Committee in performing its duties must: Identify and develop criteria in terms of which progress in the implementation of water and sanitation strategies, programs and services it recommended to the Executive Committee can be evaluated, including key performance indicators which are specific to the Municipality and common to local government and water sector in general evaluate progress against the key performance indicators, which include provision of water and sanitation.

Monitor water services administration.

Oversee the provision of water and basic sanitation services to the community is in a sustainable manner, in compliance with Section 3 of the Water Services Act.

Ensure that regard is given of particular scheme specific and reports on the effect of consultation on the decisions of the Executive Committee.

Make recommendations to the Executive Committee about provision of water services to areas outside the district municipality.

To report to the Executive Committee on all decisions and resolutions taken by it where necessary, make a request to the district municipality for financial, technical and administrative support services for unforeseen water development services, planning and provision related matters.

Appendix G: Recommendations of the municipal audit committee

**REPORT OF THE AUDIT COMMITTEE FOR HARRY GWALA DISTRICT MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2022**

**REPORT OF THE AUDIT COMMITTEE FOR HARRY GWALA DISTRICT MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2023**

**1. Objective**

For the Audit Committee to present to Council the progress to date in carrying out its oversight responsibilities, including oversight for the statutory audit process for the financial year ended 30 June 2023.

### **Terms of reference**

The mandate of the Audit Committee is legislated in terms of section 166 of the Municipal Finance Management Act, 2003 (MFMA) which requires the Audit Committee to advise the Accounting Officer and Council on matters relating to: Internal financial control and internal audits; risk management; adequacy, reliability and accuracy of financial reporting and information; Accounting policies; performance management and evaluation; effective governance; Compliance with the MFMA, the Annual Division of Revenue Act (DORA) and any other applicable legislation and / or policies and any other issues referred to it by the municipality.

The Audit Committee is also required to fulfil the functions of a Performance Management Committee constituted in terms of Regulation 14(2) of the Local Government: Municipal Planning and Performance Management Regulations, 2001.

The MFMA also requires the Audit Committee to review the annual financial statements, respond to Council on matters raised by the Auditor General.

### **Audit Committee membership and attendance**

As at 30 June 2023 the Audit Committee comprised of four independent members. The members have diverse skills and experience. An independent member chairs the Committee. Both the Internal and External Auditors have unrestricted access to the Audit Committee.

The table below sets forth the membership and attendance at meetings of the committee for the period ended 30 June 2023. The Audit Committee held 5 meetings overall for this reporting period:

		Meetings	Meetings
Names	Role	held	attended
Mr S.Z. Hlophe	Chairperson	5	5
Ms S. Gumbi	Member	5	5
Prof B. Stobie	Member	5	5
Mr S Ngidi	Member	5	5

#### **Audit Committee's Responsibility**

The Audit Committee operates under written terms of reference, the audit committee charter which is approved by the Council annually. These terms of reference are in line with the requirements of section 166 of the MFMA and Treasury Regulation 27.1.

In the performance of its duties and in fulfilling its responsibility, the Audit Committee has performed the following statutory duties, responsibilities and would like to report as follows:

#### **4.1 Internal Audit and Internal Control**

In line with the requirements of the MFMA the Internal Audit provides the Audit Committee and Management with assurance as to whether the internal controls are appropriate and effective. This is achieved by means of the risk based internal audit plan which is approved by the Audit Committee annually.

□

## Internal Audit Plan and Charter

We approved the Internal Audit Plan covering the period ending 30 June 2023. We also approved the internal audit charter which serves as the guiding policy for the internal audit unit.

## Execution of Internal Audit Plan

Internal Audit unit performed all planned projects as per approved risk based annual internal audit plan. State of Internal Audit Function

We are satisfied of the work performed by Internal Audit within the municipality. As at 30 June 2023 the Internal Audit unit had only one vacant position.

---

## **4.2 Risk Management**

We are pleased to report that, the municipality had a fully flashed Risk Management Unit for the financial year ended 30 June 2023. We have considered risks facing the municipality at both operational and strategic level, emanating from a risk assessment. The Audit Committee noted and approved operational risk register, while strategic risk register was recommended for Council consideration. We have continuously (quarterly basis) monitored the implementation of mitigating factors by management. We are satisfied with the progress made in this regard. We noted where applicable that some mitigating factors could not be implemented due to budgetary limitations.

## **4.3 ICT Governance and ICT Operations**

We note and appreciate that the Municipality has a fully fleshed ICT Unit. ICT is the integral part of the organization and it covers wide range of departments within the organization. We note that a significant amount of work has been done in this regard to improve internal controls, segregation of duties and interface issues relating to payroll and salaries.

## **4.4 Evaluation of Financial Reports and Annual Financial Statements (AFS)**

Monthly and quarterly financial reports were submitted and reviewed by the Audit Committee during the year.

The Audit Committee reviewed the Annual Financial Statements for the year ended 30 June 2023, before submission to Auditor-General. All matters raised by Internal Audit and the Audit Committee were considered and processed.

## **4.5 Performance information**

The Audit Committee also serves as the Performance Audit Committee for the Municipality. The legal responsibilities of the Audit Committee in this regard are set out in terms of the Local Government: Municipal Planning and Performance Management Regulations 2001.

We reviewed the Annual Performance Report and draft Annual Report. We raised our observations which were addressed prior the submission to Auditor-General.

The Chairperson served on the evaluation panel in terms of the Local Government: Municipal Performance Regulations for Municipal Managers and Managers directly accountable to the Accounting Officer.

We noted improvement in overall performance of the Municipality.

### **Investigations**

There were no investigations reported as new or underway during this period.

### **Conclusion**

The Audit Committee confirms its commitment to assist and support the Council in the execution of its mandate and towards managing the financial affairs in accordance with the law.

To enhance the quality of our control environment and instil a culture of good governance within the Municipality, the Audit Committee always provides guidance and recommendations to management during our meetings.

The Audit Committee also wishes to thank the Council and management for their cooperation and support as well as the teams from internal audit and the Auditor-General for their contributions.

On behalf of the Audit Committee

---

**Mr Simiso Ngidi**

Chairperson

**Data Cleansing**

It is recommended that prior to business licences or any other permission being granted either by local or district municipalities all outstanding municipal debt be paid or have an arrangement in place

**Debt Recovery Schemes**

The Council approved the debt recovery scheme on 26 October 2023.

The amnesty program must be made known to all customers (via bulk email, Facebook, websites, notice boards, loud hailing, etc.).

The MANCO and Council Committees must receive a monthly report on the scheme's implementation progress.

		<p><b><u>Debt Written off process</u></b></p> <p>Accounts owned by indigent consumers deceased customers to be assessed and be written off.</p>			
2.	Suppliers not paid within 30 days.	<p>To request BCX to develop an invoice tracking tool that will allow the municipality to manage and track invoices effectively. The aim is to manage and monitor invoices throughout their lifecycle. This involves keeping a close eye on invoice receipt from the supplier, due dates, payment status, and any potential delays or issues. By closely monitoring the status of invoices, we will be able to identify any delays in payment and take appropriate action to ensure smooth transactions and timely payments.</p> <p>Where invoices are not paid within 30 days of receipts thereof, the reasons for the delay should be documented on the payment voucher together with the</p>	Senior Manager: Expenditure	30 September 2024	Invoice Tracking Tool

relevant documentation to support reasons provided.

		Implement consequence management processes to ensure that individuals are held accountable for invoices that are paid late without valid reasons.			
3.	As disclosed in note 48 to the consolidated financial statements, material water losses of R8,44 million (2021-22: R7,99 million) was incurred, which represents 31,1% (2021-22: 30,6%) of total water purchased. These losses were due to ageing infrastructure, water supplied to informal settlements but not billed and illegal connections. ## CHAPTER 1 FOREWORD BY THE MAYOR

The Harry Gwala District Municipality's vision is "to be a leading Water Services Provider in the KZN Province with its communities benefitting from a vibrant agriculture and tourism sector by 2030" with

high-quality drinkable water and discharge high-quality effluent to the environment. The 2022/2023 financial year saw the municipality experiencing several financial challenges which have compromised the Municipality's ability to perform some of its deliverables. The legacy of our dysfunctional billing system coupled with the prevalent culture on non-payment by some residents for municipal services rendered as a major contributor to our financial situation.

The Harry Gwala District Municipality (HGDM) remains committed to its vision which will see the municipality working together with its communities and stakeholders in ensuring provision of clean, drinkable uninterrupted water services and proper sanitation facilities and strive to improve its agriculture and tourism sectors to enhance human dignity. In order to realise this long-term vision, on an annual basis as a municipality we set strategic objectives and goals as which are intended to be used as building blocks towards our vision. Our strategic objectives are clear and achievable. These strategic objectives cater for Basic Service Delivery, Municipal Transformation and Institutional Development, Good Governance and Public Participation, Local Economic Development and Social Development and Cross Cutting Issues.

In addition to the ongoing work aimed at giving effect to the vision, I have taken personal responsibility to embark on a project inspection task with a focus on projects in progress and malfunctioning water supply schemes. In this endeavour I am joined by the Municipality's Technical Team, Project Managers, Consultants and Contactors to ensure accountability and accurate reporting of progress and challenges that are being experienced. It is important to acknowledge that water remains a basic resource that is fundamental to improve the quality of life for all citizens, and equally critical to our economy.

Illegal water connections in some of the areas continue to cause a serious challenge to service delivery and unless we take drastic measures, our efforts to ensure uninterrupted water supply to communities will remain compromised. In a number of occasions, the abnormal demand for water, as a result of unauthorised connections, result of some of our water systems being overworked. This, amongst other things, cost the municipality financially and tend to also cause social unrest. As we work around the clock to try and address water and sanitation issues, we request all stakeholders to become active partners and reflect on our shared responsibility to use water more sparingly and also report any suspicious and illegal water connections.

Our focus as an institution is guided and driven by the Integrated Development Plan (IDP), which is developed initially as a five (5) year plan (aligned to the current term of office). This is revised and updated annually while taking current resources (detaining annual strategy objectives) into account. The strategic goals and priorities are then translated into the Service Delivery and Budget Implementation Plan (SDBIP) where the municipality develops the indicators and targets attached to each Executive Director with allocated resources and cascaded into the strategic and operational plans

of all directorates and related employee's scorecards. By doing so, it is ensured that every effort at any point in time is constantly being made to achieve the required targets and desired outcomes.

As many Municipalities in the country, we are also experiencing the challenges of Unemployment, Poverty and inequality. Our struggle is based on overcoming the triple challenge of poverty, unemployment and inequality. This is a continuous process which we commit to address in our planning in every financial year. In our efforts to address that, there were a number of issues that needed to be considered so as to enable the environment and place suitable measures in place.

Despite the challenges, the Municipality have made a remarkable progress in-roads towards extending water and sanitation services to communities who had no access to these services. Our ongoing task is to work tirelessly in accelerating and mobilizing our resources towards our core function which is water and sanitation services to our community services. We are determined to overcome whatever challenges we encounter along the way in pursuit of this noble course.

The people of Harry Gwala District Municipality expect the municipality to provide an uninterrupted water and sanitation services which requires full cooperation of our residence towards the payment of municipal services. We are making all strides towards mitigating risks, improvement of our billing system, improvement of our water infrastructure and bettered municipal financial management.

I wish to extend a word of appreciation to the Political Leadership, Stakeholders and Staff led by the Municipal Manager for ensuring stability in political and administrative day-to-day work within our District Municipality.

The Municipality will continue to make improvements where and when necessary, so as to improve on service delivery and in changing the lives of the people for the better.

Conclusion: The collective leadership of this municipality will continue to ensure that the municipality is providing and delivering on its mandate of delivering services to people of Harry Gwala and the surrounding areas. We will ensure that we perform our oversight task, and the management is committed in implementing Council policies.

Yours in development,  
Councillor Z.D. Nxumalo  
THE MAYOR  
HARRY GWALA DISTRICT MUNICIPALITY

## FOREWORD BY THE MUNICIPAL MANAGER

The Annual Performance Report indicates how the Municipality is performing against its aims and objectives. Good performance information helps to identify what policies and processes work and why they work. Performance information is essential for effective management, including business planning, monitoring and evaluation. Externally, performance information allows effective accountability with appropriate information; members of the public and other stakeholders are able to exert pressure for improvements and can better understand the issues involved.

The Municipality for each quarter aligns the performance of the municipality against the set targets on the Municipal SDBIP. This performance seeks to attain the following:

- ② indicating progress against objectives.
- ② prompting an external focus by public institutions on transparency, accountability, and progress on service delivery.
- ② ensuring the best results for citizens.
- ② identifying gaps between policy formulation and policy implementation; enhancing strategic planning processes; and
- ② reflecting the level of institutional capacity to actually deliver services to citizens

This performance report is per National Key Performance Areas and indicates the performance of each National Key Performance Areas. This report also entails the corrective measures to variations on planned targets and the challenges thereof.

## BACKGROUND

The constitutional commitment mandates all spheres of government to ensure that the lives of the South African citizens are improved, and their dignity is restored. As a sphere of government which is closer to the people, we are striving to ensure that the needs of the communities residing within the Harry Gwala district area of jurisdiction finds expression in the Integrated Development Plan (IDP) which is a five-year strategic plan of the municipality.

Harry Gwala district municipality as a water service authority has a quest to provide clean drinkable water to all people living within this district and to restore the people's dignity by providing decent sanitation system. Since 1994, when the present government took over, Harry Gwala district municipality have managed to provide piped water to more than 51 000 people. Over the past 24 years' government has massively expanded access to basic service, but backlog remains, and the quality of services is uneven. Improvement of the quality and consistency of services requires improvement in the performance of the municipality and its service providers.

## SUMMARY

In pursuit for a sustainable development, the Service Delivery Budget and Implementation plan (SDBIP) was developed to ensure the realisation of the municipality's vision that " By 2030 Harry Gwala will be a leading water services provider in the KZN province with its communities benefitting from vibrant agriculture and tourism sector" strategic objectives, key performance indicators and targets were set to be achieved in a period of year and they got expression in the form of the organisational SDBIP which is the management tool for the municipality.

In 2009 government re-affirmed its intention to shift its high-level management focus from being compliant to outcome focus. Therefore, accountability also shifted from just being about compliance with regulation, but to include accountability for service delivery outputs and outcomes. The National Treasury's mandate which is informed by section 215 and 216 of the Constitution as well as the MFMA of 2003 is to ensure that information on inputs, activities, outputs and outcomes underpinning planning, budgeting, implementation and reporting promotes efficiency and effectiveness, transparency and expenditure control.

The cabinet took a decision in 2013 that the 2014-2019 performance indicators and targets should be set relating to the budget year and the Medium-Term Expenditure Framework (MTEF) period in respect of strategic objectives and activities in the Service Delivery Budget and Implementation plan. Hence the Service Delivery Budget and Implementation plan was developed as the management tool to inform the annual strategic planning and budgeting in the municipality. Targets and key performance indicators (KPIs) were set in the IDP and the SDBIP are now being reported on a quarterly basis in order to comply with Regulation 28(1) of the Local Government: Municipal Performance Regulations for Municipal Managers and Managers directly accountable to the Municipal Manager, 2006, section 46 of the Systems Act, 2000

## 1. STRATEGIC SUMMARY OF 2021/2022 – 2022/2023 FINANCIAL YEAR

Annual Performance Report (APR) presents the performance results for the 2022/2023 financial year that contributed to the achievement of goals identified in the MTSF priorities which was adopted by the cabinet in 2013. The performance measures in this report were initially outlined in municipal IDP which is a five-year strategic document. To ensure the realization of the objectives in the IDP, the Service Delivery Budget and Implementation plan was developed with clear targets and key performance indicators to be achieved in a period of a year. Performance targets are revised annually to reflect changes in accordance with the budget adjustment.

The APR contains details of the municipality's projects performance, showing the historical targets and results of the 2022/2023 financial year. This report fulfils the statutory requirements of the Municipal Financial Management Act (MFMA) of 2003 that a municipality must prepare for each financial year a performance report reflecting the performance of the municipality and each external service provider during that financial year and compare the targets set for and performance of the previous financial year.

The 2022/2023 performance reporting is based on the 2022-2023 IDP, which serves as a blueprint for enhancing service delivery and economic growth within the district. We are currently in the 3<sup>rd</sup> generation of the IDP. On its adoption, the service delivery budget and implementation plan are developed and is reviewed annually.

The APR shows the historical performance of the municipality for the financial year 2021/2022-2022/2023 financial year. With the core function of providing water and sanitation, there are other functions provided by the municipality that cuts across the district to ensure that the lives of the residents are improved. The municipality is comprised of Infrastructure services department, Water services department, Budget and Treasury Office, Corporate services, Office of the Municipal Manager and Social services and Development planning.

## 2. MANAGEMENT PROCESS

Performance management is defined as a strategic process to management (or system of management), which equips leaders, managers, employees and stakeholders at different levels with a set of tools and techniques to regularly plan, continuously monitor, periodically measure and review performance of the organization in terms of indicators and targets for efficiency, effectiveness and impact. Regulation 7 of the 2001 Performance Regulations requires that every municipality develop a performance management system (PMS) which consists of a performance framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organized and managed, and must set out the roles and responsibilities of the different stakeholders. The regulations further provide in Regulation 13 that a municipality must, after consultation with the community, develop and implement mechanisms, systems and processes for the monitoring, measurement and review of performance in respect of the key performance indicators and targets set by it.

During the IDP process a corporate vision and mission was formulated for the Harry Gwala District

Municipality, together with broad key performance areas (KPA's), development objectives and key performance indicators (KPI's) which feed into the vision and mission. The process was taken further.

into the performance management system, by developing an organizational or strategic scorecard that will encompass all the relevant areas or concepts that will allow measurement of the performance of the organization using this scorecard. This was done using relevant concepts to populate the organizational and service scorecards of the Harry Gwala District Municipality. This process of developing the organizational and departmental scorecards is followed every year after adoption of the IDP and the budget and after evaluation of the previous year scorecard or municipal performance.

### 3. REPORTING PROCESS

Accountability shifted from just being about compliance with regulation, but to include accountability for service delivery outputs and outcomes after the government re-affirmed its intention to shift its high-level management from focusing on compliance but outcomes to ensure effective and efficient service delivery. Guided by the legislation a reporting mechanism was developed to promote efficiency and effectiveness as well as transparency and expenditure control. Performance reporting is a critical step because it determines what is to be reported, when to be reported and to whom to be reported. To assess the achievement of results in relation to the set goals/objectives an indicator was set. Performance indicators and targets were set relating to the budget year and the Medium-Term Expenditure Framework (MTEF) period in respect of strategic objectives and activities in the Service Delivery Budget and Implementation plan. When preparing the reports priorities, objectives, indicators, targets, measurements and analysis of the municipality were taken into consideration and present this information in a simple and accessible format, relevant and useful to the specified target group.

**3.1 The table below illustrates the details on the nature of reporting, to whom they were submitted and when they were submitted:**

#### 4. SUMMARY OF PERFORMANCE PER DEPARTMENT (2020/2021 – 2022/2023)

The legend used to report performance is as follow:

**Blue** – Planned targets

**Green** – Performance target met.

**Bottle Green** – Performance exceeded.

**Red** – performance target not met.

Traffic Light Status	2022/2023	2021/2022	2020/2021
	<b>Performance</b>	<b>Performance</b>	<b>Performance</b>
<b>Blue – Planned target</b>	73	73	64

<b>Green – Target met</b>	57	64	50
<b>Bottle Green – Performance exceeded</b>	29	46	27
<b>Red – Target Not met</b>	16	9	14

#### 4.1. BASIC SERVICE DELIVERY

##### 4.1.1. INFRASTRUCTURE SERVICES

Water and sanitation constitute the human right of every individual, without discrimination, to sufficient, safe, acceptable, accessible and affordable water and sanitation for personal use. It is well known that safe water and adequate sanitation are the bases for sustainable solution to the threat of water related diseases.

Sources of water within this district are categorized into boreholes, protecting springs, rainwater collection and abstraction of water from the rivers and currently implementing the Stephen Dlamini dam. High priority is given to sanitary waste disposal because human excreta always contain large numbers of microorganisms, some of which may cause diseases such as cholera, typhoid and hepatitis. Lack of proper sanitation facilities lead to contamination of water sources. To ensure that Harry Gwala residents are protected from the risk of drinking contaminated water, the municipality had put aside a budget for infrastructure department to implement the water and sanitation projects. Projects were identified by the communities during the IDP road shows, and they find expression in the IDP. Most of the water projects are multi-year and the spring protection, rainwater collection and sanitation have targets that can be accomplished in a period of month to a year.

##### **Key challenges:**

Percentage (100%) of households with access to basic water for the first time (1683 HH). For Khukhulela project there is slow progress on the implementation of projects due to late appointments of the consultants. The contractor that is doing the Package plant fell behind program due to reasons beyond his control. This part of the project is the one that was going to clean the water before it gets reticulated to the communities. The contractor will now complete the project during the first quarter of 2023/24 financial year based on the approved revised program of works and also approved extension of time. For Highflats projects the contractor that was appointed for the project has fully (100 %) completed their scope of works. Their Scope of works did not include the construction of the treatment plant. When the project was completed, we were able to fill up the 150kl tank for the purpose of testing the lines and also the functionality of the standpipes. It was at this time that we discovered that the water quality was not up to standard, and the water needed to be treated. This matter was communicated to the Project Steering Committee and the CLO.

Percentage (100%) of expenditure spent on capital projects (MIG). 1. Mnqumeni Water scheme was stopped by the Department of Environment due to some non-compliance issues and that affected our expenditure as there was no work. 2. We could not be to register the Raising of the Kempdale Dam Wall through the Municipal Business Plan Appraisal Committee (MBPAC) due to delays in getting the

land agreement signed between the Municipality and the Landowners. This affected the expected expenditure as this was one of our big projects. 3. Our projects namely Mbizweni Sewers, Greater Summerfield, Ibisi Sewers and Khukhulela Water supply were approved very late (May 2023) by the MBPAC. We spent a lot of time not paying the contractor as the projects were not registered and this affected onsite progress as well as their expenditure. 4. Reticulation of Magqagqeni was stopped by a court Order as one of the farm owners indicated that we were working on their land

Total number of households (334) connected to sewer water borne for the first time. The project took too long to get registered by the MBPAC and also delays on the contract appointment was only done during the month of April 2023 and that affected planned target.

**Corrective measures:**

For Khukhulela project the department is working tirelessly to ensure that the projects gets completed by the 30 June 2023 to ensure that the mandate of the municipality is achieved through water access by the communities. On another projects, consultants appointments have since been done and progress shall be reported on by the fourth quarter. Extension of time for the contractor has been approved by the Municipality and the project will now be completed by the first quarter of 23/24 financial year. The contractor has completed the construction of all the bulk lines, Package Plant, 500KL Reservoir, Reticulation lines, Equipping of 2 x Boreholes, Pumphouse and Standpipes. The Municipality is currently in the process of appointing a contractor for the construction of the 1ML Concrete Reservoir in the 2023/24 financial year. For Highflats project We have since applied and got an approval for a Variation Order to the treatment plant to the value of R R1 190 707.01. This VO will also cover the Eskom connection line.

1. Early registration of Projects for the 23/24 financial year. 2. Ensure that all our projects are in compliance with all the governing laws especially Environmental issues. The municipality has advertised four projects to the estimated value of 110 million and active contracts to the value of R 114 479 825,24 giving a total of R 224 479 825,24. The other two contracts are being finalised for advertisement and they total to R 146 364 997,14. The value of contracts that are earmarked for 2023-24 expenditure amounts R370 844 822.38 which suffice to spend an allocation of R241 833 000.00

Contractor has been appointed and they are currently onsite, and the project will be completed after 8 months. The project is currently 27% complete. E:The plan is to have bulk earthworks complete by the end of September, Pipelaying by end October and have manholes completed by mid-December 2023.

**4.1.1.1 INFRASTRUCTURE SERVICES DEPARTMENT Performance Highlights for 2020/2021 – 2022/2023**

Infrastructure Services			
Financial Year	2020/2021	2021/2022	2022/2023
Planned Targets	6	6	6
Targets Met	6	5	3
Targets Not Met	0	1	3
% Achievement	100%	83,33%	50%

**4.1.1.2 The bar chart below illustrates performance highlights of Infrastructure Department in comparison with 2020/2021- 2022/2023 Financial Year**

This table presents the highlights from the key performance measures included in the 2022/2023 IDP financial year. The department planned to achieve 6 targets for the year. 3 were achieved and 3 were not achieved as of 30 June 2023. Annual Performance achievement is sitting at 50% which has regressed from the previous financial year as was sitting at 83.33%.

**4.1.2 WATER SERVICES**

The main objective of this department is to ensure efficient operation and maintenance of a water supply schemes in order to provide safe drinking water as per designed quality and quantity. The functions of this department include planning and design, Operation and maintenance of water schemes and Good Governance.

**4.1.2.1 Planning and Design Unit**

To ensure the availability of sufficient good quality water, it is tremendously imperative to plan and design suitable water supply schemes. These water schemes should be able to provide portable water to the various sections of communities residing within the Harry Gwala district municipality in accordance with the demands and requirement. The provision of such a scheme should ensure constants and reliable water supply to the people to which it has been designed and ensuring better living standard. The unit is also responsible for ensuring that the water consumed by the communities is of good quality by taking water samples for analysis and testing for the control of bacteriological quality and ensure that the water schemes have water use licences for compliance with the Department of water and sanitation requirements.

**4.1.2.2 Operation and Maintenance**

By Operation” we refer to timely and daily operation of the components of a Water Supply schemes such as treatment plant, machinery and equipment, conveying mains, service reservoirs and distribution of water effectively by various technical personnel, as a routine function.

Whereas “Maintenance” is defined as the act of keeping the structures, plants, machinery and equipment and other facilities in an optimum working condition. Maintenance also includes preventive /routine maintenance and also breakdown maintenance, replacements, correction of defects. The department has developed the operation and maintenance plan to ensure that the water schemes are fully functional and attended to when faults are reported by the community. Job cards are issued as when the fault is reported for repairs and maintenance. The budget was set aside for water schemes due for refurbishment. To ensure effective and efficient service delivery, a budget for the installation of smart water meters was set aside. This will assist the municipality to be able to make collections to the water users who are not indigent.

#### **4.1.2.3 Good Governance**

Efficient and effective operation depends upon sound water supply strategies made up of water safety plans to ensure good quality water supply. The focus of this unit is on ensuring that the water and sanitation related regulations are adhered to, developing water by-laws and policies. Conducting awareness campaigns for conservative use of water and Health and Hygiene education are amongst the functions of this unit. The customer care unit was established to ensure that the water and sanitation related issues are reported and attended to timeously by the relevant personnel.

#### **Key challenges:**

The percentage (99%) of compliant wastewater quality discharged to the natural environment as required by National Department of Water and Sanitation. Most of HGDM wastewater systems had recorded the "no flows during quarter 3" this was due to loadshedding that affected the functioning of wastewater systems.

Percentage (55%) of complaints resolved within 48 hours. The customer complaints received were all attended to within 48 hours; the user department has developed the template populated manually; however, it was not easy to prove if indeed these were resolved as the template could not indicate the time / date when the complaint was reported and resolved. The procurement of an automated system will resolve this issue as it will be generated by the system and will be able to record all details to prove the turnaround time. This system will ensure consistency in the template produced.

#### **Corrective measures:**

O&M to motivate for the procurement of standby generators for all wastewater treatment facilities across the district to ensure that even when there is loadshedding, the flow doesn't get

interrupted. This will be engaged on during the adjustments budget process which will then decide if the proposal is considered. There will be a follow up on this by the 28 February 2024.

Whilst awaiting the procurement process on the system, the user department will work on improving the manual reporting template to ensure consistency as well as accuracy of information. There have been engagements on the procurement of a new system through a full tender process. The specification has been prepared and submitted to the specification committee. ICT has been tasked to ensure that an advert is issued by no later than the 18 August 2023. This process will have to follow the tender processes that requires that an advert be issued, followed by the sitting of the Bid Evaluation Committee that has to sit within 14 days after the advert closing date, within 7 days after the evaluation for the sitting of the Bid Adjudication Committee then the 14-day notice for the intention to award. This whole process is anticipated to unfold no later than 31 December 2023.

#### 4.1.2.6 WATER SERVICES DEPARTMENT Performance Highlights for 2020/2021 – 2022/2023

Water Services			
Financial Year	2020/2021	2021/2022	2022/2023
Planned Targets	19	18	16
Targets Met	19	17	14
Targets Not Met	0	1	2
% Achievement	100%	94,44%	87,50%

**4.1.2.7 The bar chart below illustrates performance highlights of Water Services Department in comparison with 2020/2021 – 2022/2023 Financial Year**

This table presents the highlights from the key performance measures included in the 2022/2023 IDP financial year. The department planned to achieve 16 targets for the year. 14 were achieved and 2 were not achieved as of 30 June 2023. Annual Performance achievement is sitting at 87.50% which has regressed from the previous financial year as was sitting at 94.44%.

## 4.2. MUNICIPAL TRANSFORMATION AND INSTITUTIONAL DEVELOPMENT

### 4.2.1 CORPORATE SERVICES

The department is comprised of two directorates each dealing with an aspect of the internal functions of the administration. Firstly, the Human Resource Management and secondly the administrative support which will assist in increasing service delivery. To ensure the realisation of the vision of the Harry Gwala district municipality Corporate Services directorate ensures that there is enough human resource for effective and efficient service delivery. One of the focus areas of this department is agenda setting for the Council, Executive committee meetings and Portfolio committees where politicians have to take serious decisions on service delivery and compliance issues. Municipal Structures Act, No. 117 of 1998 states that the municipal council must meet at least quarterly.

The Employment Equity Plan (EEP) was developed to comply with section 10(e) of the regulations which states that target groups must be employed in the three highest levels of management in the municipality. To Provide training of Councillors and Employees, the Workplace Skill Plan was developed, and a budget was set aside to ensure that a certain percentage of the municipality`s budget is spent on skill development.

#### 4.2.1.2 Human Resource Management

This unit is responsible for implementation of the Employee wellness programs: HIV and Aids in the implementation of Workplace Skills plan and amongst other things are the following programmes:

- ❓ Occupational Health and Safety and
- ❓ Recruitment and
- ❓ Skills development

#### 4.2.1.3 Administrative Support

- ❓ IT Support and Systems Administration, and
- ❓ Networking, Software and hardware maintenance
- ❓ Procurement of Stationery
- ❓ Cleaning and security services
  
- ❓ Fleet management of the organization

##### Key challenges:

Percentage (60%) of budget spent on Workplace Skills plan. Requisition memos were prepared and submitted to SCM however, the service providers that were bidding could not meet the requirement as a result no appointments were made which led to the trainings not conducted as well as expenditure.

Number (20) of officials trained on SCM. There was an adjustment made during the adjustments process and the capacitation of SCM officials was adjusted to 0 budget.

Number (46) of people from employment equity target groups employed in the three highest levels of management in compliance with a municipality's approved employment equity plan. The department had anticipated that the ED for Water services as well as the Manager Strategic Support would have been appointed.

Date (30 June 2023) by when the fleet management system is installed. The fleet management system is dependent on the delivery of new municipal vehicles which will then lead to them being installed with the fleet management system. New municipal vehicles were only delivered exactly on the 30 June 2023.

Number (6) of software licenses renewed. The department achieved 6 however due to the dates on the invoices reflecting that the 5 licenses were renewed during the first quarter as are dated the 30 June 2022, 6th September and 1st September, this has led to an achievement of only 2 renewed during the second quarter.

Date (30 June 2023) in which a Plotter is procured. The plotter will be leased alongside the municipal printers to save costs in terms of maintenance. The reason for leasing as well is due to the changes in technology which then compromises the municipality. Leasing will assist in ensuring that these machines are always compatible with the technology as and when there are changes rather than buying and end up sitting with a machine that no longer serves its purpose.

Percentage (100%) on filling of S54A/56 management positions. This was due to the resignation of the Water Services Executive Director.

Percentage (50/50) gender representation on S54A/56 management positions. This was due to the resignation of the Water Services Executive Director.

**Corrective measures:**

There will be readvertisements and the process is anticipated to unfold within the second quarter of the 2023/2024 financial year to allow compliance with the SCM processes which is no later than 31 December 2023.

In the 2023/2024 this indicator has been totally removed until the municipality is able to secure funding for capacitating SCM officials. To ensure that SCM officials are always on par with the requirements of the SCM regulations, BTO did arrange a workshop on the PPPFA that took place on the 30 January 2023 and 23 February 2023.

Anticipating the appointment of the ED for Water services to unfold in the 2023/2024 financial year. The interviews have already been held for the ED Water Services on the 2nd of August 2023. Considering the recruitment processes for the S54A/56 Managers, the municipality anticipates the filling of the post by no later than 30 September 2023. As for the Manager Strategic Support, the municipality has an Acting incumbent in place to ensure the execution of duties.

As the vehicles have been delivered, Corporate Services department is anticipating the installation of a fleet management system on all new municipal vehicles by the end of September 2023.

This has since been achieved as they were already renewed prior the second quarter. In addition, the department has taken a resolution to have monthly departmental meetings and make the SDBIP a standard item so as to track progress and ensure that all officials are aware of what is due per quarter as well as ensuring that adequate evidence is available.

The department has engaged the HGDM SCM on a transversal contract process, to which SCM had to engage with Provincial Treasury for their approval so that process can continue on the issuing of the requests for quotations. That process has been undertaken and the requests for quotations have unfolded, awaiting the appointment process of the suitable service provider which is anticipated to be no later than 30 September 2023.

The interviews have already been held for the ED Water Services on the 2nd of August 2023. Considering the recruitment processes for the S54A/56 Managers, the municipality anticipates the filling of the post by no later than 30 September 2023. Moving forward, the indicator will no longer form part of the SDBIP as this process depends on the Council decision.

**4.2.1.6 CORPORATE SERVICES Performance Highlights for 2020/2021 – 2022/2023**

<b>Corporate Services</b>			
<b>Financial Year</b>	<b>2020/2021</b>	<b>2021/2022</b>	<b>2022/2023</b>
<b>Planned Targets</b>	10	13	15
<b>Targets Met</b>	7	11	7
<b>Targets Not Met</b>	3	2	8
<b>% Achievement</b>	70%	84,61%	46,67%

**4.2.1.7 The bar chart below illustrates performance highlights of Corporate Services Department in comparison with 2020/2021 – 2022/2023 Financial Year**

This table presents the highlights from the key performance measures included in the 2022/2023 IDP financial year. The department planned to achieve 15 targets for the year. 7 were achieved and 8 were not achieved as of 30 June 2023. Annual Performance achievement is sitting at 46.67% which has regressed from the previous financial year as was sitting at 84.61%.

### 4.3. LOCAL ECONOMIC AND SOCIAL DEVELOPMENT AND CROSS-CUTTING INTERVENTIONS

#### 4.3.1. SOCIAL SERVICES AND DEVELOPMENT PLANNING

The Constitution assigns developmental duties to municipalities. Section 152 provides that a municipality must strive within its financial and administration to promote social and economic development of the communities. Social service as the second largest services within local government is mainly responsible for providing and managing social services. It is comprised of 4 directorates: Social Services, IDP/PMS, Planning and Development and Special programs unit.

##### 4.3.1.1 Social Services Directorate

The Social Services Directorate is responsible for Disaster Management and the Municipal Health services. The unit mainly focus on social wellbeing aspect of our communities as per the South African Constitution section 24 and performs its function guided by the Disaster Management Act and the National Health Act. However, there are policies developed by the municipality to further define its function and services for the district. Some of these policies include the Disaster Management policy, Pauper burial Policy, Municipal Health Services Policy, the Health & Hygiene education strategy and the Draft Municipal Health Services By-laws.

During budgeting and planning priority is given to the basic needs of the people residing within Harry Gwala district municipality. Disaster management is one of the core functions for the municipality. Support is given to the families during disaster incidents, proving lightning conductors in areas prone to lightning, conducting disaster awareness campaigns to ensure that Harry Gwala communities as required by the Disaster Management Act. Harry Gwala is a rural municipality and it exposed to field fire; therefore, the disaster management unit ensures that there is budget provision for procurement and distribution of fire beaters to the communities to enable them to control field fires.

##### 4.3.1.2 Municipal Health Services

Men have used water since the dawn of history; but the realization of its importance and, in some instances, of its danger, to health is a relatively a recent development. Even today this knowledge is not complete, particularly the incidence of certain communicable diseases. Early investigation conducted were principally concern with Cholera and Typhoid fever and later diarrhoeal diseases. More recently an increasing attention has been given to the role of water in transmitting certain virus diseases. Harry Gwala as water service authority has a functional Municipal Health service unit with 7 professional health practitioners. The main focus of this unit, guided by their polies

and the National Health act is to monitor water quality consumed by the community. This is conducted through taking the water samples for testing and analysis on a monthly basis. This process assists the municipality to detect early any water related diseases and conduct awareness of any outbreak to the community.

Inspection of business premises is conducted on monthly basis to ensure compliance with relevant legislation and By-laws. Conducting clean up campaigns to encourage the community to keep their towns clean at all times. A pauper burial policy is in place to ensure that destitute are buried in dignified manner. To comply with National Health Act exhumation application requests are processed in conjunction with the relevant department.

#### **4.3.1.3 Special Programs Unit**

This directorate is mainly responsible for sport & Recreation, Youth and Special programs for men, women, elderly people and people living with disability. It's functions ranges from supporting the cultural events and Umkhosi womhlanga. Promoting healthy living style through women and men's` forums. Currently South Africa is highly dependent on social grants resulting in few people contributing to the GDP. These forums play an enormous role in encouraging men and women to get educated through adult learning facilities in order to be able to get decent jobs and enabling them to establish and manage their own businesses.

In order to achieve the constitutional objectives in section 153 of the constitution youth and elderly people participate in national and provincial development programmes. Youth participate in KZN-South African Association Local Games (SALGA) to sure case their talent and sometimes get an opportunity to be selected to participate in the National games and being selected to play in other teams where they get paid huge amounts of money for their talent. The elderly citizens are given a chance to participate in provincial and national golden games to keep their bodies healthy and fit.

Horse riding event which is conducted in conjunction with Sports and Recreation department is annually hosted in Dundee under the uMzinyathi District Municipality. Young people residing within the district are able to raise their concerns and ensure that the municipality plans and budget for their programmes through Youth Indaba. Programmes for People living with disabilities are implemented to ensure that they get all the support required. Social services deal with all ages and all members of the Harry Gwala population.

#### 4.3.1.4 Planning and Development unit

This unit is responsible for municipal planning and geographic information system. To improve planning administration, the HGDM, CoGTA and Local Municipalities (LMs) are working together to implement the Application Filing and Monitoring System (AFMS) to enable municipalities to process development applications within the specified timeframes as stated in the Planning and Development Act. To indicate the future development and significant economic opportunities the Spatial Development Framework (SDF) was developed and reviewed annual.

This unit is also responsible for the Geographic Information System (GIS) which is used as planning and strategic tool to acquire the base data in preparation of the SDF. GIS assist the Harry Gwala district municipality to identify the projects that falls in and outside the boundaries of this district.

#### 4.3.1.5 SOCIAL SERVICES AND DEVELOPMENT PLANNING Performance Highlights for 2020/2021 – 2022/2023

Social Services & Development Planning			
Financial Year	2020/2021	2021/2022	2022/2023
Planned Targets	16	22	23
Targets Met	10	17	23
Targets Not Met	6	5	0
% Achievement	62,5%	77,27%	100%

4.3.1.6 The bar chart below illustrates performance highlights of Social Services and Development Planning Department in comparison with 2020/2021- 2022/2023 Financial Year

This table presents the highlights from the key performance measures included in the 2022/2023 IDP financial year. The department planned to achieve 23 targets for the year. 23

were achieved as of 30 June 2023. Annual Performance achievement is sitting at 100% which has improved from the previous financial year as was sitting at 77.27%.

#### 4.4. MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT

##### 4.4.1 BUDGET AND TREASURY OFFICE

This department is made up of 4 directorates: Budget and Reporting, Creditors, Income and Supply chain management unit. To comply with the Municipal Finance Management Act 56 of 2003, the Budget and Salaries prepared budget for the municipality which was approved by council before the start of the current financial year. To manage the affairs of the municipality and assess its

###### 4.4.1.1 Budget and Reporting Unit

To comply with section 21 of the MFMA, the accounting officer of a municipality ensured that the budget is prepared as stipulated in section 68 of the Act and took reasonable steps to ensure that funds are spent accordingly as per section 69 of the Act.

Prospective Investors need Financial Statements (FS) to assess the viability of investing in a company. Investors may predict future dividends based on the profits disclosed in the Financial Statements. Furthermore, risks associated with the investment may be gauged from the Financial Statements. Therefore, the municipality produced the Financial Statements to provide a basis for the investment decisions of potential investors. The decisions to lend are also supported by a sufficient asset base and liquidity. Governments require Financial Statements to determine the correctness of tax declared in the tax returns. Government also keeps track of economic progress through analysis of Financial Statements of businesses from different sectors of the economy.

###### 4.4.1.2 Income Unit

Due to the level of unemployment and poverty within Harry Gwala municipal areas, there are both households and citizens who are unable to access or pay for basic services; this grouping is referred to as the "indigent". A municipality has developed and adopted an indigent policy to ensure that the indigent can have access to the package of services included in the FBS programme.

The indigent are those people who have an income of less than the old age grant who are entitled to free basic services from government. The municipality has started developing the Indigent Register.

###### 4.4.1.3 Supply Chain Management Unit

An Assets Register was developed for municipal assets like infrastructure assets and office assets. These assets were verified on quarterly basis for administrative purposes. Most of these assets are expected to be used for more than one accounting period. The supply chain Management Policy was developed to comply with section 217 of the Constitution of the Republic of South Africa which states that that, when government contracts for goods and services it must do so in a way which is fair, equitable, transparent, competitive and cost-effective and is currently implemented.

**Key challenges:**

Percentage (60%) of Collection from the billed consumers. Non-Payment by Rietvlei hospital has an impact on revenue collection rate as these accounts are also accumulating interest. Regarding poor collection rate, Rietvlei owes a huge amount to the municipality which has a major impact on the municipal collection, in addition non-functionality of almost 60% of water meters is the reason for the decline in the collection rate as the municipality cannot even fully implement credit control and debt management policy.

Number (2836) of existing households with access to free basic services in terms of the indigent register. The Revenue acknowledges that the manual capturing of information onto the excel spreadsheet has caused the duplication in the number of customers. A service provider appointed by CoGTA has verified the indigent consumer information and currently the Revenue section is removing duplicates, incorrect ID numbers, consumers earning above the threshold and appointed by the state.

The reason for the duplicates was caused by capturing the application manually on spreadsheets and now the Revenue section is using an indigent management module on Solar system ensuring that the duplicates are eliminated. This process shall be completed by 25 August 2023.

**Corrective measures:**

Revenue section has written a Letter requesting intervention to resolve this issue of nonpayment by Rietvlei hospital and was sent to the MEC, HOD provincial health and District Manager and the municipality is still waiting for payment as promised by the department.

The municipality is also in a process of replacing faulty meters with smart meters which are then converted to prepaid. Billing is also extended to other billable areas e.g., extension 6 & 8 at uMzimkhulu. This process should have been completed by 31 December 2023.

A service provider appointed by CoGTA has verified the indigent consumer information and currently the Revenue section is removing duplicates, incorrect ID numbers, consumers earning above the threshold and appointed by the state.

The reason for the duplicates was caused by capturing the application manually on spreadsheets and now the Revenue section is using an indigent management module on Solar system ensuring that the duplicates are eliminated. This process shall be completed by 25 August 2023.

**4.4.1.4 BUDGET AND TREASURY OFFICE Performance Highlights for 2020/2021 – 2022/2023**

Budget & Treasury Office			
Financial Year	2020/2021	2021/2022	2022/2023
Planned Targets	6	8	8
Targets Met	2	8	6
Targets Not Met	4	0	2
% Achievement	33,33%	100%	75%

**4.4.1.5 The bar chart below illustrates performance highlights of Budget and Treasury Office in comparison with 2020/2021- 2022/2023 Financial Year**

This table presents the highlights from the key performance measures included in the 2022/2023 IDP financial year. The department planned to achieve 8 targets for the year. 6 were achieved and 2 was not achieved as of 30 June 2023. Annual Performance achievement is sitting at 75% which has regressed from the previous financial year as was sitting at 100%.

#### 4.5. GOOD GOVERNANCE AND PUBLIC PARTICIPATION

##### 4.5.1 MUNICIPAL MANAGER'S OFFICE

The Municipal Manager, as the Head of Administration and the Accounting Officer of the municipality has played a major role in ensuring that the administration of the affairs of the municipality are governed by the democratic values and principles enshrined in the Constitution, but not limited to the local Government Municipal Systems Act,32 of 2000 and chapter 8 of the MFMA, No.56 of 2003. As the head of administration, she ensured that the administration is attended to at all the time. With her extensive statutory and delegation of powers and duties, the necessary reports for the Executive Committee and Council were prepared by the corporate services and checked by the Municipal Manager before they were submitted to council structures. To ensure credible public participation process is followed, the "Izimbizo" were held before the adoption of the IDP and the budget.

##### 4.5.1.2 Development of performance management system and Implementation of the IDP

As per section 55(1) (c) of the Local Government: Municipal Systems Act, No. 32 of 2000, the municipal manager is, subject to the policy directions of the council, responsible for and accountable for the implementation of the municipality's integrated development plan, and the monitoring of progress with implementation of the plan as well as the development of the municipality's performance management system. Hence the preparation of the IDP and Performance management system were delegated to the Social Services and Development Planning department. The service Delivery Budget and Implementation plan for 2015/2016 was prepared and submitted to the mayor as required by the section 69(3)(a) of the Local Government Municipal Finance Management Act.

#### **4.5.1.3 Performance Reporting**

In 2009 government re-affirmed its intention to shift its high-level management focus from being compliant to outcome focus. Therefore, accountability also shifted from just being about compliance with regulation, but to include accountability for service delivery outputs and outcomes. Following the adoption of the NDP, the cabinet took a decision in 2013 that the 2014-2019

Performance indicators and targets should be set relating to the budget year and the Medium-Term Expenditure Framework (MTEF) period in respect of strategic objectives and activities in the Service Delivery Budget and Implementation plan. The accounting officer of the municipality established the procedures for quarterly reporting to the council in order to facilitate performance monitoring, reporting and evaluation as well as ensuring that corrective actions were taken to improve performance. The municipality report to the Executive committee and council on a quarterly basis as required by the legislation. A uniform quarterly reporting template was developed guided by the Department of Corporative Governance and Traditional Affairs (CoGTA) as part of their support to municipalities to be utilised for reporting purposes. This report took into consideration the priorities of the organisation, objectives, indicators, targets, measurements and analysis and presented them in a simple and accessible format, relevant and useful to the specified target group. The Mid-year budget and performance assessment were conducted, and the assessment report was submitted to National and Provincial Treasury on the 25<sup>th</sup> of January as required by section 72 of the MFMA.

#### **4.5.1.4 Internal Audit and Risk Management unit**

As per section 165 of the MFMA, the Internal Audit unit prepared the risk-based audit plan and the internal audit programme for each financial year. The IA reports on implementation of the internal audit plan were submitted to Audit Committee and council. The Internal audit unit is directly accountable to Municipal manager to maintain their independence and objectivity and functionally report to the audit committee as per the Internal Audit Charter.

The Risk and control self-assessment workshop was conducted, and the Risk register and profile was compiled in order to identify potential events that may affect the institution, evaluate and address risks on a continuous basis before such risks can impact negatively on the institution's service delivery capacity.

**Key Challenges:**

Number (4) of Newsletters developed and published. The service provider has a contract with the municipality which they did not adhere to in terms of delivery. On the 25th of July 2023 a meeting was arranged with the service provider so as to seek their reasons for non-delivery. The service provider did not attend and reported that they were not feeling well, however, delivered on the 26th of July 2023.

**Corrective measures:**

As a long term remedial plan, the user department has arranged a meeting with the service provider, BTO, and legal services to discuss importance of adherence to the SLA as well as the process for possible termination if this occurs in future. This meeting has set on the 16th of August 2023 and the service provider was made aware of the consequences should this repeat itself and he has committed to ensuring that this will never happen again.

**4.5.1.5 OFFICE OF THE MUNICIPAL MANAGER Performance Highlights for 2020/2021 – 2022/2023**

OMM			
Financial Year	2020/2021	2021/2022	2022/2023
Planned Targets	7	6	5
Targets Met	5	5	4
Targets Not Met	2	1	1
% Achievement	71,43%	83,33%	80%

**4.5.1.6 The bar chart below illustrates performance highlights of the Office of the Municipal Manager in comparison with 2020/2021 – 2022/2023 Financial Year**

This table presents the highlights from the key performance measures included in the 2022/2023 IDP financial year. The department planned to achieve 5 targets for the year. 4 were achieved and 1 was not achieved as of 30 June 2023. Annual Performance achievement is sitting at 80%, which has regressed from the previous financial year as was sitting at 83.33%.

**5. ORGANIZATIONAL PERFORMANCE HIGHLIGHTS (2020/2021 – 2022/2023)**

Annual Organizational Performance			
Financial Year	2020/2021	2021/2022	2022/2023
Planned Targets	64	73	73
Targets Met	50	63	57
Targets Not Met	14	10	16
% Achievement	78,13%	86,30%	78,08%

**5.1.1. The bar chart below illustrates performance highlights of the Organisational Scorecard in comparison with 2020/2021-2022/2023 Financial Year**

This table presents the highlights from the key performance measures included in the 2022/2023 IDP financial year. The organization planned to achieve 73 targets for the year. 57 were achieved and 16 were not achieved as of 30 June 2023. Annual Performance achievement is sitting at 78.08% which has regressed from the previous financial year as it was sitting at 86.30%.

**Chapter 29** 6. ASSESSMENT OF THE PERFORMANCE OF EXTERNAL SERVICE PROVIDERS

The monitoring of the service provider performance is ensured through the signing of the Service Level Agreement. It is currently being done by user department levels. The end user department is providing monthly reports to the SCM unit as well. Service providers who fail to perform are reported to SCM and the necessary action is taken including the termination of the contract or cancellation of an order.

Rating of (1-5).

<b>RATING</b>	<b>DEFINITION OF RATING</b>
5	Outstanding performance
4	Performance significantly above expectation
3	Fully effective
2	Performance not fully satisfactory
1	Unacceptable performance

## 7. CONCLUSION

The Municipality maintains a Portfolio of Evidence to support the achievements recorded in this Annual Performance Report, and Internal Audit has performed a verification of credibility of evidence for validity of the reported achievements.

Furthermore, in areas where performance was not achieved, the municipality have provided reasons and remedial actions to ensure that performance is improved in the 2023/2024 financial year. The municipality will also ensure that during the review of the indicators and targets, all those that would have not been achieved or where there has been under performance, these shall be carefully looked at for incorporation in the Service Delivery and Budget Implementation Plan as well as Section 54A/56 Managers operational plans as part of the service delivery roadmap for the 2023/2024 financial year.

Yours in governance,

## **Harry Gwala District Municipality and its Municipal Entity**

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### **Accounting Officer's Responsibilities and Approval**

---

The accounting officers are required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officers to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period ended 30 June 2023. The external auditors are engaged to express an independent opinion on the annual financial statements and were given unrestricted access to all financial records and related data..

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the economic entity and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the economic entity and all employees are required to maintain the highest ethical standards in ensuring the economic entity's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the economic entity is on identifying, assessing, managing and monitoring all known forms of risk across the economic entity. While operating risk cannot be fully eliminated, the economic entity endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the economic entity's cash flow forecast for the year to 30 June 2024 and, in the light of this review and the current financial position, he is satisfied that the economic entity has or has access to adequate resources to continue in operational existence for the foreseeable future.

The municipality is wholly dependent on the municipality for continued funding of operations. The annual financial statements are prepared on the basis that the municipality is a going concern and that the municipality has neither the intention nor the need to liquidate or curtail materially the scale of the municipality.

In accordance with the provisions outlined in Section 124 (1)(a) of the Municipal Finance Management Act (MFMA), I hereby confirm the inclusion of comprehensive particulars regarding the salaries, allowances, and benefits of political office-bearers and councillors of Harry Gwala District Municipality in the notes to the annual financial statements. These particulars encompass both financial and in-kind components of remuneration, providing a transparent overview of the compensation structure for political office-bearers and councillors. Furthermore, as the accounting officer, I affirmatively declare that the salaries, allowances, and benefits outlined in the annual financial statements are thoroughly examined against the upper limits specified in Section 219 of the Constitution. This evaluation ensures strict adherence to the constitutional framework governing remuneration for political office-bearers and councillors. I can confirm that, to the best of my knowledge, the salaries, allowances, and benefits provided to political office-bearers and councillors fall within the prescribed upper limits established by Section 219 of the Constitution.

The annual financial statements set out from pages 5 to 88, which have been prepared on the going concern basis, were approved by the on 30 September 2023 and were signed on its behalf by:

---

**Mr GM Sineke**

**Municipal Manager**

**Friday, 29 September 2023**

### 5. Significant account policies

The principal accounting policies applied in the preparation of these annual financial statements are set out below.

#### 1.1 Basis of preparations

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipality in terms of section 1 of the Local Government: Municipal Structures Act (Act 117 of 1998) read with section 155 (1) of the Constitution of the Republic of South Africa (Act 108 of 1996).

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise. They are presented in South African Rand.

Assets, liabilities, revenues and expenses were not offset, except where offsetting is either required or permitted by a Standard of GRAP.

These accounting policies are consistent with the previous period.

## **1.2 Presentation currency**

These annual financial statements are presented in South African Rand, which is the functional currency of the economic entity.

## **1.3 Going concern assumption**

These annual financial statements have been prepared based on the expectation that the economic entity will continue to operate as a going concern for at least the next 12 months.

## **1.4 Materiality**

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decisions or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatement judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor.

Assessing whether an omission or misstatement could influence decisions of users, and so be material, requires consideration of the characteristics of those users. The Framework for the Preparation and Presentation of Financial Statements states that users are assumed to have a reasonable knowledge of government, its activities, accounting and a willingness to study the information with reasonable diligence. Therefore, the assessment takes into account how users with such attributes could reasonably be expected to be influenced in making and evaluating decisions.

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

---

#### **1.5 Interests in other entities**

##### **Consolidated financial statements**

Consolidated annual financial statements are the annual financial statements of an economic entity in which the assets, liabilities, net assets, revenue, expenses and cash flows of the controlling entity and its controlled entities are presented as those of a single economic entity.

An entity controls another entity when the entity is exposed, or has rights, to variable benefits from its involvement with the other entity and has the ability to affect the nature or amount of those benefits through its power over the other entity.

A controlled entity is an entity that is controlled by another entity. A controlling entity is an entity that controls one or more entities.

A decision maker is an entity with decision making rights that is either a principal or an agent for other parties.

An economic entity is a controlling entity and its controlled entities.

An investment entity is an entity that obtains funds from one or more investors for the purpose of providing those investor(s) with investment management services, has the purpose of investing funds solely for returns from capital appreciation, investment revenue, or both, and measures and evaluates the performance of substantially all of its investments on a fair value basis.

A non-controlling interest is the net assets in a controlled entity not attributable, directly or indirectly, to a controlling entity.

Power consists of existing rights that give the current ability to direct the relevant activities of another entity.

Protective rights are rights designed to protect the interest of the party holding those rights without giving that party power over the entity to which those rights relate.

Relevant activities are activities of the potentially controlled entity that significantly affect the nature or amount of the benefits that an entity receives from its involvement with that other entity.

Removal rights are rights to deprive the decision maker of its decision making authority.

## **Presentation of consolidated financial statements**

The entity as controlling entity presents consolidated annual financial statements.

## **Control**

The entity determines whether it is a controlling entity by assessing whether it controls the other entity. The entity controls another entity when it is exposed, or has rights, to variable benefits from its involvement with the other entity and has the ability to affect the nature and amount of those benefits through its power over the other entity.

The entity controls another entity if the entity has all three of the following elements of control:

- ❑ power over the other entity;
- ❑ exposure, or rights, to variable benefits from its involvement with the other entity; and
- ❑ the ability to use its power over the other entity to affect the nature or amount of the benefits from its involvement with the other entity.

The entity considers all facts and circumstances when assessing whether it controls another entity. The entity reassess whether it controls another entity if facts and circumstances indicate that there are changes to one or more of the three elements of control.

As an entity with decision making rights, the entity determines whether it is a principal or an agent in undertaking transactions with third parties. The entity also determines whether another entity with decision making rights is acting as an agent for the entity. An agent is a party primarily engaged to undertake transactions with third parties on behalf of and for the benefit of another party or parties (the principal(s)) and therefore does not control the other entity when it exercises its decision making authority. Thus, sometimes a principal's power may be held and exercisable by an agent, but on behalf of the principal.

### **Accounting requirements**

---

## **Harry Gwala District Municipality and its Municipal Entity**

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

---

#### **1.5 Interests in other entities (continued)**

The entity as controlling entity prepares consolidated annual financial statements using uniform accounting policies for like transactions and other events in similar circumstances.

Consolidation of a controlled entity begins from the date the entity obtains control of the other entity and ceases when the entity loses control of the other entity.

#### **Consolidation procedures**

Consolidated financial statements:

Combine like items of assets, liabilities, net assets, revenue, expenses and cash flows of the controlling entity with those of its controlled entities.

Offset (eliminate) the carrying amount of the controlling entity's investment in each controlled entity and the controlling entity's portion of net assets of each controlled entity.

Eliminate in full intra-economic entity assets, liabilities, net assets, revenue, expenses and cash flows relating to transactions between entities of the economic entity. Intra-economic entity losses may indicate an impairment that requires recognition in the consolidated financial statements.

#### **Uniform accounting policies**

If a member of the economic entity uses accounting policies other than those adopted in the consolidated annual financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that member's annual financial statements in preparing the

consolidated annual financial statements to ensure conformity with the economic entity's accounting policies.

### **Measurement**

The entity includes the revenue and expenses of a controlled entity in the consolidated annual financial statements from the date it gains control until the date when the entity ceases to control the controlled entity. Revenue and expenses of the controlled entity are based on the amounts of the assets and liabilities recognised in the consolidated annual financial statements at the acquisition date.

### **Reporting dates**

The financial statements of the entity as controlling entity and its controlled entities used in the preparation of the consolidated annual financial statements are prepared as at the same reporting date.

- obtains, for consolidation purposes, additional financial information as of the same date as the annual financial statements of the controlling entity; or
  - uses the most recent annual financial statements of the controlled entity at the time of preparing the consolidation, adjusted for the effects of significant transactions or events that occur between the date of those annual financial statements and the date of the consolidated annual financial statements
-

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.6 Significant judgements and sources of estimation uncertainty

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

Other significant judgements, sources of estimation uncertainty and/or relating information, have been disclosed in the relating notes.

#### Trade receivables / Held to maturity investments and/or loans and receivables

The economic entity assesses its trade receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the municipality makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for trade receivables is calculated on a portfolio basis, based on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio. These annual loss ratios are applied to loan balances in the portfolio and scaled to the estimated loss emergence period.

#### Impairment testing

The recoverable amounts of cash-generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the

use of estimates and assumptions. It is reasonably possible that assumptions may change which may then impact our estimations and may then require a material adjustment to the carrying value of tangible assets.

The economic entity reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable.

### **Useful lives of waste and water network and other assets**

The municipality's management determines the estimated useful lives and related depreciation charges for the waste water and water networks. This estimate is based on industry norm. Management will increase the depreciation charge where useful lives are less than previously estimated useful lives.

### **Post-retirement benefits**

The present value of the post-retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post-retirement obligations.

The economic entity determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the health care retirement benefits obligations.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note 15.

### **Allowance for doubtful debts**

On debtors an impairment loss is recognised in surplus and deficit when there is objective evidence that it is impaired. The impairment is measured as the difference between the debtors carrying amount and the present value of estimated future cash flows.

## **1.7 Property, plant and equipment**

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

---

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.7 Property, plant and equipment (continued)

The cost of an item of property, plant and equipment is recognised as an asset when:

- ☐ it is probable that future economic benefits or service potential associated with the item will flow to the economic entity; and
- ☐ the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Items such as spare parts, standby equipment and servicing equipment are recognised when they meet the definition of property, plant and equipment.

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment are depreciated on the straight-line basis over their expected useful lives to their estimated residual value.

The useful lives of items of property, plant and equipment have been assessed as follows:

---

<b>Item</b>	<b>Depreciation method</b>	<b>Average useful life</b>
Buildings	Straight-line	
☐ Office		30 years

Furniture and office equipment	Straight-line	
☐ Office equipment		7 years
☐ Office furniture		10 years
☐ Paintings, sculptures, ornaments		10 years
Transport Assets	Straight-line	
☐ Motor vehicles		7 years

Domestic equipment		5 years

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the economic entity. The depreciation method applied to an asset is reviewed at least at each reporting date and, if there has been a significant change in the expected pattern of consumption of the future economic benefits or service potential embodied in the asset, the method is changed to reflect the changed pattern. Such a change is accounted for as a change in an accounting estimate.

The economic entity assesses at each reporting date whether there is any indication that the economic entity expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the economic entity revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

---

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.7 Property, plant and equipment (continued)

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Assets which the economic entity holds for rentals to others and subsequently routinely sell as part of the ordinary course of activities, are transferred to inventories when the rentals end and the assets are available-for-sale. Proceeds from sales of these assets are recognised as revenue. All cash flows on these assets are included in cash flows from operating activities in the cash flow statement.

The economic entity separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note 9).

The economic entity discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note 9).

#### 1.8 Intangible assets

An asset is identifiable if it either:

- ❑ is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- ❑ arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the economic entity or from other rights and obligations.

A binding arrangement describes an arrangement that confers similar rights and obligations on the parties to it as if it were in the form of a contract.

An intangible asset is recognised when:

- ❑ it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the economic entity; and the cost or fair value of the
- ❑ asset can be measured reliably.

The economic entity assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- ❑ it is technically feasible to complete the asset so that it will be available for use or sale.
- ❑ there is an intention to complete and use or sell it.
- ❑ there is an ability to use or sell it.
- ❑ it will generate probable future economic benefits or service potential.
- ❑ there are available technical, financial and other resources to complete the development and to use or sell the asset.
- ❑ the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight-line basis over their useful life.

---

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.8 Intangible assets (continued)

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Internally generated goodwill is not recognised as an intangible asset.

Amortisation is provided to write down the intangible assets, on a straight-line basis, to their residual values as follows:

---

Item	Depreciation method	Average useful life
Computer software, other	Straight-line	5 years

The economic entity discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note ).

Intangible assets are derecognised:

- ❓ on disposal; or
- ❓ when no future economic benefits or service potential are expected from its use or disposal.

## 1.9 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility.

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Derecognition is the removal of a previously recognised financial asset or financial liability from an entity's statement of financial position.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- ❓ Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- ❓ It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- ❓ It is settled at a future date.

### Accounting Policies

---

#### 1.9 Financial instruments (continued)

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability (or group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, an entity shall estimate cash flows considering all contractual terms of the financial instrument (for example, prepayment, call and similar options) but shall not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate (see the Standard of GRAP on Revenue from Exchange Transactions), transaction costs, and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of similar financial instruments can be estimated reliably. However, in those rare cases when it is not possible to reliably estimate the cash flows or the expected life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instrument (or group of financial instruments).

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

A financial asset is:

- ☐ cash;
- ☐ a residual interest of another entity; or
- ☐ a contractual right to:
  - receive cash or another financial asset from another entity; or
  - exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

A financial liability is any liability that is a contractual obligation to:

- ☐ deliver cash or another financial asset to another entity; or
- ☐ exchange financial assets or financial liabilities under conditions that are potentially unfavourable to the entity.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Liquidity risk is the risk encountered by an entity in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Loan commitment is a firm commitment to provide credit under pre-specified terms and conditions.

Loans payable are financial liabilities, other than short-term payables on normal credit terms.

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

A financial asset is past due when a counterparty has failed to make a payment when contractually due.

A residual interest is any contract that manifests an interest in the assets of an entity after deducting all of its liabilities. A residual interest includes contributions from owners, which may be shown as:

- ☐ equity instruments or similar forms of unitised capital;

- ② a formal designation of a transfer of resources (or a class of such transfers) by the parties to the transaction as forming part of an entity's net assets, either before the contribution occurs or at the time of the contribution; or
  - ② a formal agreement, in relation to the contribution, establishing or increasing an existing financial interest in the net assets of an entity.
-

# Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

## Accounting Policies

---

### 1.9 Financial instruments (continued)

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

Financial instruments at amortised cost are non-derivative financial assets or non-derivative financial liabilities that have fixed or determinable payments, excluding those instruments that:

- ☐ the entity designates at fair value at initial recognition; or
- ☐ are held for trading.

Financial instruments at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured.

Financial instruments at fair value comprise financial assets or financial liabilities that are:

- ☐ derivatives;
- ☐ contingent consideration of an acquirer in a transfer of functions between entities not under common control to which the Standard of GRAP on Transfer of Functions Between Entities Not Under Common Control (GRAP 106) applies
- ☐ combined instruments that are designated at fair value;
- ☐ instruments held for trading. A financial instrument is held for trading if:
  - it is acquired or incurred principally for the purpose of selling or repurchasing it in the near-term; or
  - on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit-taking;
  - non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; and

financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

### Classification

The entity has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

<b>Class</b>	<b>Category</b>
Short-term Investment Deposits	Financial asset measured at amortised cost
Bank Balances and Cash	Financial asset measured at amortised cost
Consumer Debtors	Financial asset measured at amortised cost
Other Debtors	Financial asset measured at amortised cost
Investment in Controlled entities	Financial asset measured at amortised cost

The entity has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

<b>Class</b>	<b>Category</b>
Trade and other payables	Financial liability measured at amortised cost
Consumer Deposit	Financial liability measured at amortised cost
Bank overdraft	Financial liability measured at amortised cost
Finance leases	Financial liability measured at amortised cost

The entity has the following types of residual interests (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

## **Harry Gwala District Municipality and its Municipal Entity**

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

---

#### **1.10 Tax**

##### **Value Added Tax**

The annual financial statements are prepared on an accrual basis, which means that revenues and expenses are recognized when they are incurred, regardless of when the associated cash inflows or outflows occur. However, in compliance with the tax regulations of South Africa, we declare our VAT liability or receivable the South African Revenue Service (SARS) on a payment basis.

#### **1.11 Leases**

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

##### **Finance leases - lessee**

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

### **Operating leases - lessee**

Operating lease payments are recognised as an expense on a straight -line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

### **1.12 Inventories**

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- ❑ distribution at no charge or for a nominal charge; or
- ❑ consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the economic entity incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the economic entity.

---

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.12 Inventories (continued)

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

#### 1.13 Cash and cash equivalents

Cash comprises cash on hand and demand deposits.

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Cash and cash equivalents comprise bank balances, cash on hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less which are available on demand.

Some equity investments are included in cash equivalents when they are, in substance, cash equivalents.

Bank overdrafts which are repayable on demand forms an integral part of the entity's cash management activities, and as such are included as a component of cash and cash equivalents.

#### **1.14 Impairment of cash-generating assets**

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets used with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable amount of an asset or a cash-generating unit is the higher its fair value less costs to sell and its value in use.

Useful life is either:

the period of time over which an asset is expected to be used by the economic entity; or the number of production or similar units expected to be obtained from the asset by the economic entity.

### Accounting Policies

---

#### 1.14 Impairment of cash-generating assets (continued)

##### Designation

At initial recognition, the economic entity designates an asset as non-cash-generating, or an asset or cash-generating unit as cash-generating. The designation is made on the basis of an economic entity's objective of using the asset.

The economic entity designates an asset or a cash-generating unit as cash-generating when:

- ☐ its objective is to use the asset or a cash-generating unit in a manner that generates a commercial return; such that
- ☐ the asset or cash-generating unit will generate positive cash flows, from continuing use and its ultimate disposal, that are expected to be significantly higher than the cost of the asset.

An asset used with the objective of generating a commercial return and service delivery, is designated either as a cash-generating asset or non-cash-generating asset based on whether the economic entity expects to use that asset to generate a commercial return. When it is not clear whether the objective is to use the asset to generate commercial return, the economic entity designates the asset as a non-cash-generating asset and applies the accounting policy on Impairment of Non-cash-generating assets, rather than this accounting policy.

##### Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The economic entity assesses at each reporting date whether there is any indication that a cash - generating asset may be impaired. If any such indication exists, the economic entity estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the economic entity also tests a cash-generating intangible asset with an indefinite useful life or a cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

### **Discount rate**

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money, represented by the current risk-free rate of interest and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.14 Impairment of cash-generating assets (continued)

##### Reversal of impairment loss

The economic entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are

treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

- its recoverable amount (if determinable); and
- the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

### **1.15 Impairment of non-cash-generating assets**

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Non-cash-generating assets are assets other than cash-generating assets.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets managed with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

---

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.15 Impairment of non-cash-generating assets (continued)

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Useful life is either:

- ☐ the period of time over which an asset is expected to be used by the economic entity; or
- ☐ the number of production or similar units expected to be obtained from the asset by the economic entity.

#### 1.16 Employee benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees.

A qualifying insurance policy is an insurance policy issued by an insurer that is not a related party (as defined in the Standard of GRAP on Related Party Disclosures) of the reporting entity, if the proceeds of the policy can be used only to pay or fund employee benefits under a defined benefit plan and are not available to the reporting entity's own creditors (even in liquidation) and cannot be paid to the reporting entity, unless either:

- ☐ the proceeds represent surplus assets that are not needed for the policy to meet all the related employee benefit obligations; or
- ☐ the proceeds are returned to the reporting entity to reimburse it for employee benefits already paid.

Termination benefits are employee benefits payable as a result of either:

- ❑ an entity's decision to terminate an employee's employment before the normal retirement date; or
- ❑ an employee's decision to accept voluntary redundancy in exchange for those benefits.

Other long-term employee benefits are employee benefits (other than post-employment benefits and termination benefits) that are not due to be settled within twelve months after the end of the period in which the employees render the related service.

Vested employee benefits are employee benefits that are not conditional on future employment.

Composite social security programmes are established by legislation and operate as multi-employer plans to provide post-employment benefits as well as to provide benefits that are not consideration in exchange for service rendered by employees.

A constructive obligation is an obligation that derives from an entity's actions where by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities and as a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.16 Employee benefits (continued)

##### Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- ☐ wages, salaries and social security contributions; short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
- ☐ bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and non-
- ☐ monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

When an employee has rendered service to the entity during a reporting period, the entity recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- ☐ as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognises that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- ☐ as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The entity measures the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The entity recognises the expected cost of bonus, incentive and performance related payments when the entity has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

### **Post-employment benefits**

Post-employment benefits are employee benefits (other than termination benefits) which are payable after the completion of employment.

Post-employment benefit plans are formal or informal arrangements under which an entity provides post-employment benefits for one or more employees.

Multi-employer plans are defined contribution plans (other than state plans and composite social security programmes) or defined benefit plans (other than state plans) that pool the assets contributed by various entities that are not under common control and use those assets to provide benefits to employees of more than one entity, on the basis that contribution and benefit levels are determined without regard to the identity of the entity that employs the employees concerned.

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.16 Employee benefits (continued)

##### Post-employment benefits: Defined benefit plans

Defined benefit plans are post-employment benefit plans other than defined contribution plans.

Actuarial gains and losses comprise experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred) and the effects of changes in actuarial assumptions. In measuring its defined benefit liability the entity recognises actuarial gains and losses in surplus or deficit in the reporting period in which they occur.

Assets held by a long-term employee benefit fund are assets (other than non-transferable financial instruments issued by the reporting entity) that are held by an entity (a fund) that is legally separate from the reporting entity and exists solely to pay or fund employee benefits and are available to be used only to pay or fund employee benefits, are not available to the reporting entity's own creditors (even in liquidation), and cannot be returned to the reporting entity, unless either:

- ☐ the remaining assets of the fund are sufficient to meet all the related employee benefit obligations of the plan or the reporting entity; or
- ☐ the assets are returned to the reporting entity to reimburse it for employee benefits already paid.

Current service cost is the increase in the present value of the defined benefit obligation resulting from employee service in the current period.

Interest cost is the increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to settlement.

Past service cost is the change in the present value of the defined benefit obligation for employee service in prior periods, resulting in the current period from the introduction of, or changes to, post-employment benefits or other long-term employee benefits. Past service cost may be either positive (when benefits are introduced or changed so that the present value of the defined benefit obligation increases) or negative (when existing benefits are changed so that the present value of the defined benefit obligation decreases) . In measuring its defined benefit liability the entity recognises past service cost as an expense in the reporting period in which the plan is amended.

The entity account not only for its legal obligation under the formal terms of a defined benefit plan, but also for any constructive obligation that arises from the entity's informal practices. Informal practices give rise to a constructive obligation where the entity has no realistic alternative but to pay employee benefits. An example of a constructive obligation is where a change in the entity's informal practices would cause unacceptable damage to its relationship with employees.

The amount recognised as a defined benefit liability is the net total of the following amounts:

- ☐ the present value of the defined benefit obligation at the reporting date;
- ☐ minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly;
- ☐ plus any liability that may arise as a result of a minimum funding requirement

Any adjustments arising from the limit above is recognised in surplus or deficit.

The entity determines the present value of defined benefit obligations and the fair value of any plan assets with sufficient regularity such that the amounts recognised in the annual financial statements do not differ materially from the amounts that would be determined at the reporting date.

The entity recognises the net total of the following amounts in surplus or deficit, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- ☐ current service cost;
- ☐ interest cost;
- ☐ the expected return on any plan assets and on any reimbursement rights;
- ☐ actuarial gains and losses;
- ☐ past service cost;
- ☐ the effect of any curtailments or settlements; and
- ☐ the effect of applying the limit on a defined benefit asset (negative defined benefit liability).

The entity uses the Projected Unit Credit Method to determine the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost. The Projected Unit Credit Method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) sees each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

---

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.16 Employee benefits (continued)

In determining the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost, an entity shall attribute benefit to periods of service under the plan's benefit formula. However, if an employee's service in later years will lead to a materially higher level of benefit than in earlier years, an entity shall attribute benefit on a straight-line basis from:

- ☐ the date when service by the employee first leads to benefits under the plan (whether or not the benefits are conditional on further service); until
- ☐ the date when further service by the employee will lead to no material amount of further benefits under the plan, other than from further salary increases.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan. The results of the valuation are updated for any material transactions and other material changes in circumstances (including changes in market prices and interest rates) up to the reporting date.

The entity recognises gains or losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs. The gain or loss on a curtailment or settlement comprises:

- ☐ any resulting change in the present value of the defined benefit obligation; and
- ☐ any resulting change in the fair value of the plan assets.

Before determining the effect of a curtailment or settlement, the entity re-measure the obligation (and the related plan assets, if any) using current actuarial assumptions (including current market interest rates and other current market prices).

When it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, the right to reimbursement is recognised as a separate asset. The asset is measured at fair value. In all other respects, the asset is treated in the same way as plan assets. In surplus or deficit, the expense relating to a defined benefit plan is [OR is not] presented as the net of the amount recognised for a reimbursement.

The entity offsets an asset relating to one plan against a liability relating to another plan when the entity has a legally enforceable right to use a surplus in one plan to settle obligations under the other plan and intends either to settle the obligations on a net basis, or to realise the surplus in one plan and settle its obligation under the other plan simultaneously.

### **Actuarial assumptions**

Actuarial assumptions are unbiased and mutually compatible.

Financial assumptions are based on market expectations, at the reporting date, for the period over which the obligations are to be settled.

The rate used to discount post-employment benefit obligations (both funded and unfunded) reflect the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the post-employment benefit obligations.

Post-employment benefit obligations are measured on a basis that reflects:

- ❑ estimated future salary increases;
- ❑ the benefits set out in the terms of the plan (or resulting from any constructive obligation that goes beyond those terms) at the reporting date; and
- ❑ estimated future changes in the level of any state benefits that affect the benefits payable under a defined benefit plan, if, and only if, either:
  - ❑ those changes were enacted before the reporting date; or
  - ❑ past history, or other reliable evidence, indicates that those state benefits will change in some predictable manner, for example, in line with future changes in general price levels or general salary levels.

Assumptions about medical costs take account of estimated future changes in the cost of medical services, resulting from both inflation and specific changes in medical costs.

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.16 Employee benefits (continued)

##### Termination benefits

The entity recognises termination benefits as a liability and an expense when the entity is demonstrably committed to either:

- ☐ terminate the employment of an employee or group of employees before the normal retirement date; or
- ☐ provide termination benefits as a result of an offer made in order to encourage voluntary redundancy.

The entity is demonstrably committed to a termination when the entity has a detailed formal plan for the termination and is without realistic possibility of withdrawal. The detailed plan includes [as a minimum]:

- ☐ the location, function, and approximate number of employees whose services are to be terminated;
- ☐ the termination benefits for each job classification or function;
- ☐ and the time at which the plan will be implemented.

Implementation begins as soon as possible and the period of time to complete implementation is such that material changes to the plan are not likely.

Where termination benefits fall due more than 12 months after the reporting date, they are discounted using an appropriate discount rate. The rate used to discount the benefit reflects the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the benefit.

In the case of an offer made to encourage voluntary redundancy, the measurement of termination benefits shall be based on the number of employees expected to accept the offer.

### **1.17 Provisions and contingencies**

Provisions are recognised when:

- ☐ the economic entity has a present obligation as a result of a past event;
- ☐ it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and a reliable estimate can be made of
- ☐ the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the economic entity settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating surplus (deficit).

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

---

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.17 Provisions and contingencies (continued)

A constructive obligation to restructure arises only when an entity:

- ☐ has a detailed formal plan for the restructuring, identifying at least:
  - the activity/operating unit or part of an activity/operating unit concerned;
  - the principal locations affected;
  - the location, function, and approximate number of employees who will be compensated for services being terminated;
  - the expenditures that will be undertaken; and
  - when the plan will be implemented; and
- ☐ has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

A restructuring provision includes only the direct expenditures arising from the restructuring, which are those that are both:

- ☐ necessarily entailed by the restructuring; and
- ☐ not associated with the ongoing activities of the economic entity

No obligation arises as a consequence of the sale or transfer of an operation until the economic entity is committed to the sale or transfer, that is, there is a binding arrangement.

After their initial recognition contingent liabilities recognised in entity combinations that are recognised separately are subsequently measured at the higher of:

- ☐ the amount that would be recognised as a provision; and the
- ☐ amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 38.

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Loan commitment is a firm commitment to provide credit under pre-specified terms and conditions.

The economic entity recognises a provision for financial guarantees and loan commitments when it is probable that an outflow of resources embodying economic benefits and service potential will be required to settle the obligation and a reliable estimate of the obligation can be made.

Determining whether an outflow of resources is probable in relation to financial guarantees requires judgement. Indications that an outflow of resources may be probable are:

- ❑ financial difficulty of the debtor;
- ❑ defaults or delinquencies in interest and capital repayments by the debtor;
- ❑ breaches of the terms of the debt instrument that result in it being payable earlier than the agreed term and the ability of the debtor to settle its obligation on the amended terms; and
- ❑ a decline in prevailing economic circumstances (e.g. high interest rates, inflation and unemployment) that impact on the ability of entities to repay their obligations.

Where a fee is received by the economic entity for issuing a financial guarantee and/or where a fee is charged on loan commitments, it is considered in determining the best estimate of the amount required to settle the obligation at reporting date. Where a fee is charged and the economic entity considers that an outflow of economic resources is probable, an economic entity recognises the obligation at the higher of:

- ❑ the amount determined using in the Standard of GRAP on Provisions, Contingent Liabilities and Contingent Assets; and
- ❑ the amount of the fee initially recognised less, where appropriate, cumulative amortisation recognised in accordance with the Standard of GRAP on Revenue from Exchange Transactions.

## **1.18 Commitments**

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Disclosures are required in respect of unrecognised contractual commitments.

---

32

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.18 Commitments (continued)

Commitments for which disclosure is necessary to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

- ❑ Contracts should be non-cancellable or only cancellable at significant cost (for example, contracts for computer or building maintenance services); and
- ❑ Contracts should relate to something other than the routine, steady, state business of the entity – therefore salary commitments relating to employment contracts or social security benefit commitments are excluded.

#### 1.19 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

#### Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

The amount of revenue arising on a transaction which is statutory (non-contractual) in nature is usually measured by reference to the relevant legislation, regulation or similar means. The fee structure, tariffs or calculation basis specified in legislation, regulation or similar means is used to determine the amount of revenue that should be recognised.

### **Sale of goods**

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- ☐ the economic entity has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- ☐ the economic entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold; the amount
- ☐ of revenue can be measured reliably;
- ☐ it is probable that the economic benefits or service potential associated with the transaction will flow to the economic entity; and
- ☐ the costs incurred or to be incurred in respect of the transaction can be measured reliably.

### **Tariff charges**

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant authorised tariff.

### **Service charges**

Service charges relating to water are based on consumption. Meters are read on a monthly basis and recognised as revenue when invoiced. Provisional estimates of consumption, based on the consumption history, are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced, except at year-end when estimates of consumption are made in the invoicing period in which meters have been read. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

In circumstances where services cannot readily be measured and qualified, a flat rate service charge is levied monthly on such properties.

## Interest

Interest is recognised, in surplus or deficit, using the effective interest rate method.

---

# Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

## Accounting Policies

---

### 1.20 Revenue from non-exchange transactions

Revenue comprises gross inflows of economic benefits or service potential received and receivable by an municipality, which represents an increase in net assets, other than increases relating to contributions from owners.

Conditions on transferred assets are stipulations that specify that the future economic benefits or service potential embodied in the asset is required to be consumed by the recipient as specified or future economic benefits or service potential must be returned to the transferor.

Control of an asset arise when the municipality can use or otherwise benefit from the asset in pursuit of its objectives and can exclude or otherwise regulate the access of others to that benefit.

Exchange transactions are transactions in which one entity receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of cash, goods, services, or use of assets) to another entity in exchange.

Expenses paid through the tax system are amounts that are available to beneficiaries regardless of whether or not they pay taxes.

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, an municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

## **Recognition**

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

## **Measurement**

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Receivables that arise from statutory (non-contractual) arrangements are initially measured in accordance with this accounting policy, as well as the accounting policy on Statutory Receivables. The entity applies the accounting policy on Statutory Receivables for the subsequent measurement, derecognition, presentation and disclosure of statutory receivables.

Interest is recognised using the effective interest rate method for financial instruments, and using the nominal interest rate method for statutory receivables. Interest levied on transactions arising from exchange or non-exchange transactions is classified based on the nature of the underlying transaction.

## **Transfers**

---

34

## **Harry Gwala District Municipality and its Municipal Entity**

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

---

#### **1.20 Revenue from non-exchange transactions (continued)**

Apart from Services in kind, which are not recognised, the municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

The municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

Transferred assets are measured at their fair value as at the date of acquisition.

#### **Fines**

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality.

Where the municipality collects fines in the capacity of an agent, the fine will not be revenue of the collecting entity.

#### **Gifts and donations, including goods in-kind**

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

### **1.21 Investment income**

Investment income is recognised on a time-proportion basis using the effective interest method.

### **1.22 Borrowing costs**

Borrowing costs are interest and other expenses incurred by an entity in connection with the borrowing of funds.

Borrowing costs are recognised as an expense in the period in which they are incurred.

### **1.23 Comparative figures**

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

### **1.24 Unauthorised expenditure**

Unauthorised expenditure means:

- ❓ overspending of a vote or a main division within a vote; and
- ❓ expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

Unauthorised expenditure is accounted for in line with all relating requirements, including, but not limited to, ruling Legislation, Regulations, Frameworks, Circulars, Instruction Notes, Practice Notes, Guidelines etc (as applicable).

### **1.25 Fruitless and wasteful expenditure**

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

Fruitless and wasteful expenditure is accounted for in line with all relating requirements, including, but not limited to, ruling Legislation, Regulations, Frameworks, Circulars, Instruction Notes, Practice Notes, Guidelines etc (as applicable).

---

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Accounting Policies

---

#### 1.26 Irregular expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy.

Irregular expenditure is accounted for in line with all relating requirements, including, but not limited to, ruling Legislation, Regulations, Frameworks, Circulars, Instruction Notes, Practice Notes, Guidelines etc (as applicable).

#### 1.27 Segment information

A segment is an activity of an entity:

- ❑ that generates economic benefits or service potential (including economic benefits or service potential relating to transactions between activities of the same entity);
- ❑ whose results are regularly reviewed by management to make decisions about resources to be allocated to that activity and in assessing its performance; and for which separate
- ❑ financial information is available.

Reportable segments are the actual segments which are reported on in the segment report. They are the segments identified above or alternatively an aggregation of two or more of those segments where the aggregation criteria are met.

#### Measurement

The amount of each segment item reported is the measure reported to management for the purposes of making decisions about allocating resources to the segment and assessing its performance. Adjustments and eliminations made in preparing the entity's financial statements and allocations of revenues and expenses are included in determining reported segment surplus or deficit only if they are included in the measure of the segment's surplus or deficit that is used by management. Similarly, only those assets and liabilities that are included in the measures of the segment's assets and segment's liabilities that are used by management are reported for that segment. If amounts are allocated to reported segment surplus or deficit, assets or liabilities, those amounts are allocated on a reasonable basis.

If management uses only one measure of a segment's surplus or deficit, the segment's assets or the segment's liabilities in assessing segment performance and deciding how to allocate resources, segment surplus or deficit, assets and liabilities are reported in terms of that measure. If management uses more than one measure of a segment's surplus or deficit, the segment's assets or the segment's liabilities, the reported measures are those that management believes are determined in accordance with the measurement principles most consistent with those used in measuring the corresponding amounts in the entity's financial statements.

### **1.28 Research and development expenditure**

Expenditure on research is recognised as an expense when it is incurred.

An asset arising from development is recognised when:

- ☐ it is technically feasible to complete the asset so that it will be available for use or sale.
- ☐ there is an intention to complete and use or sell it.
- ☐ there is an ability to use or sell it.
- ☐ it will generate probable future economic benefits or service potential.
- ☐ there are available technical, financial and other resources to complete the development and to use or sell the asset.
- ☐ the expenditure attributable to the asset during its development can be measured reliably.

### **1.29 Budget information**

Economic Entity are typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by economic entity shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on a accrual basis and presented by functional classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2022/07/01 to 2023/06/30.

---

## **Harry Gwala District Municipality and its Municipal Entity**

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### **Accounting Policies**

---

#### **1.29 Budget information (continued)**

The budget for the economic entity includes all the entities approved budgets under its control.

The annual financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

#### **1.30 Related parties**

A related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control.

Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Joint control is the agreed sharing of control over an activity by a binding arrangement, and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control (the venturers).

Related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party, regardless of whether a price is charged.

Significant influence is the power to participate in the financial and operating policy decisions of an entity, but is not control over those policies.

Management are those persons responsible for planning, directing and controlling the activities of the economic entity, including those charged with the governance of the economic entity in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by that person in their dealings with the economic entity.

The economic entity is exempt from disclosure requirements in relation to related party transactions if that transaction occurs within normal supplier and/or client/recipient relationships on terms and conditions no more or less favourable than those which it is reasonable to expect the economic entity to have adopted if dealing with that individual entity or person in the same circumstances and terms and conditions are within the normal operating parameters established by that reporting entity's legal mandate.

Where the economic entity is exempt from the disclosures in accordance with the above, the economic entity discloses narrative information about the nature of the transactions and the related outstanding balances, to enable users of the entity's financial statements to understand the effect of related party transactions on its annual financial statements.

### **1.31 Events after reporting date**

Events after reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- ❑ those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- ❑ those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The economic entity will adjust the amount recognised in the financial statements to reflect adjusting events after the reporting date once the event occurred.

The economic entity will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.

## 2. New standards and interpretations

### 2.1 Standards and interpretations issued, but not yet effective

The economic entity has not applied the following standards and interpretations, which have been published and are mandatory for the economic entity's accounting periods beginning on or after 01 July 2023 or later periods:

#### **GRAP 103 (as revised): Heritage Assets**

##### **Background**

The Accounting Standards Board (the Board) completed its post-implementation review of the Standard of GRAP on Heritage Assets (GRAP 103) (hereafter referred to as "the review") in 2020. Based on the feedback received as part of the review, the Board agreed to reconsider certain principles in GRAP 103.

The objective of the project was to revise and clarify principles in GRAP 103 following feedback received from the review and actions agreed by the Board.

### **Key amendments to GRAP 103**

The Board agreed that the definition of a heritage asset in GRAP 103 should be reconsidered to better align it with the legislative explanation of a heritage resource in the National Heritage Resources Act, 1999, and the classification by the South African Heritage Resources Agency.

The proposed definition focuses on assets that have “cultural significance” and defines a heritage asset as “an asset that has cultural significance, and is held indefinitely for the benefit of present and future generations”. “Cultural significance” has also been defined and described in GRAP 103 based on legislation.

The characteristics displayed by heritage assets, and the range of assets that could be heritage assets, have also been aligned with legislation.

The amendments further relate to the Classification of dual purpose heritage assets, Determining a reliable value for a heritage asset, Protective rights imposed on heritage assets, Re-assessing if a reliable value becomes available subsequently, Aggregation of individually insignificant heritage assets, Impairment of heritage assets, Mandatory disclosures of heritage assets borrowed or on loan.

The effective date of these revisions have not yet been set.

It is unlikely that the standard will have a material impact on the economic entity's annual financial statements.

### **GRAP 25 (as revised): Employee Benefits**

#### **Background**

The Board issued the Standard of GRAP on Employee Benefits (GRAP 25) in November 2009. GRAP 25 was based on the International Public Sector Accounting Standard on Employee Benefits (IPSAS 25) effective at that time. However, GRAP 25 was modified in some respects where the Board decided the

requirements of the International Accounting Standard on Employee Benefits (IAS® 19) were more appropriate. Specifically, the Board:

- ❑ Eliminated the corridor method and required recognition of actuarial gains and losses in full in the year that they arise.
- ❑ Required the recognition of past service costs in the year that a plan is amended, rather than on the basis of whether they are vested or unvested.

Since 2009, the International Accounting Standards Board® has made several changes to IAS 19, including changes to the recognition of certain benefits, and where these changes are recognised. The IPSASB made similar changes to its standard and as a result of the extent of changes, issued IPSAS 39 on Employee Benefits to replace IPSAS 25 in 2016.

When the Board consulted locally on the proposed amendments to IPSAS 25 in 2016, stakeholders welcomed the amendments to align IPSAS 25 to IAS 19 and supported the changes that resulted in IPSAS 39.

---

## **Harry Gwala District Municipality and its Municipal Entity**

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### **Notes to the Annual Financial Statements**

#### **2. New standards and interpretations (continued)**

In developing GRAP 25, the Board agreed to include the guidance from the IFRS Interpretation on IAS 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction (IFRIC 14<sup>®</sup>) partly in GRAP 25 and partly in the Interpretation of the Standards of GRAP on The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction (IGRAP 7).

#### **Key amendments to GRAP 25**

The Board agreed to align GRAP 25 with IPSAS 39, but that local issues and the local environment need to be considered. As a result of this decision, there are areas where GRAP 25 departs from the requirements of IPSAS 39. The Board's decisions to depart are explained in the basis for conclusions.

The amendments to GRAP 25 are extensive and mostly affect the accounting for defined benefit plans. A new renumbered Standard of GRAP (e.g. GRAP 39) will not be issued, but rather a new version of the current GRAP 25.

The effective date of these revisions is 01 April 2023.

The economic entity expects to adopt the revisions for the first time in the 2022/2023 annual financial statements.

The impact of this revisions is currently being assessed.

#### **GRAP 104 (as revised): Financial Instruments**

Following the global financial crisis, a number of concerns were raised about the accounting for financial instruments. This included that (a) information on credit losses and defaults on financial assets was received too late to enable proper decision-making, (b) using fair value in certain instances was inappropriate, and (c) some of the existing accounting requirements were seen as too rules based. As a result, the International Accounting Standards Board® amended its existing Standards to deal with these issues. The IASB issued IFRS® Standard on Financial Instruments (IFRS 9) in 2009 to address many of the concerns raised. Revisions were also made to IAS® on Financial Instruments: Presentation and the IFRS Standard® on Financial Instruments: Disclosures. The IPSASB issued revised International Public Sector Accounting Standards in June 2018 so as to align them with the equivalent IFRS Standards.

The revisions better align the Standards of GRAP with recent international developments. The amendments result in better information available to make decisions about financial assets and their recoverability, and more transparent information on financial liabilities.

The most significant changes to the Standard affect:

- ❓ Financial guarantee contracts issued
- ❓ Loan commitments issued
- ❓ Classification of financial assets
- ❓ Amortised cost of financial assets
- ❓ Impairment of financial assets
- ❓ Disclosures

The effective date of the revisions is not yet set by the Minister of Finance.

The economic entity expects to adopt the revisions for the first time when the Minister sets the effective date for the revisions.

The adoption of this standard is not expected to impact on the results of the economic entity, but may result in more disclosure than is currently provided in the annual financial statements.

### **GRAP 1 (amended): Presentation of Financial Statements**

Amendments to this Standard of GRAP, are primarily drawn from the IASB's Amendments to IAS 1.

Summary of amendments are:

## Materiality and aggregation

39

## **Harry Gwala District Municipality and its Municipal Entity**

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### **Notes to the Annual Financial Statements**

#### **2. New standards and interpretations (continued)**

The amendments clarify that:

- ❑ information should not be obscured by aggregating or by providing immaterial
- ❑ information; materiality considerations apply to all parts of the financial statements; and
- ❑ even when a Standard of GRAP requires a specific disclosure, materiality considerations apply.

#### **Statement of financial position and statement of financial performance**

The amendments clarify that the list of line items to be presented in these statements can be disaggregated and aggregated as relevant and additional guidance on subtotals in these statements.

#### **Notes structure**

The amendments add examples of possible ways of ordering the notes to clarify that understandability and comparability should be considered when determining the order of the notes and to demonstrate that the notes need not be presented in the order listed in GRAP 1.

#### **Disclosure of accounting policies**

Remove guidance and examples with regards to the identification of significant accounting policies that were perceived as being potentially unhelpful.

An economic entity applies judgement based on past experience and current facts and circumstances.

The effective date of this amendment is for years beginning on or after 01 April 2025.

The economic entity expects to adopt the amendment for the first time in the 2024/2025 annual financial statements.

The adoption of this amendment is not expected to impact on the results of the economic entity, but may result in more disclosure than is currently provided in the annual financial statements.

### 3. Inventories

Water for distribution	715 785	513 295	715 785	513 295
<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
	295			

### Key judgements made and assumptions applied

Inventory water includes water purchased or purified and not yet sold at reporting date insofar as it is stored (controlled) in reservoirs at year end.

Inventory water also includes any water purification costs incurred for non-purchased water.

The municipality furthermore assesses whether there is material water purification chemicals and other consumables in hand at year end and discloses them separately on the notes to the annual financial statements. At the end of the financial year ended 30 June 2023 there was no material inventory in hand.

Consumer debtors - Value Added Tax

Other receivables from non-exchange revenue	3 773 720	3 488 817	3 773 720	3 488 817
	<b>3 773 720</b>	<b>3 509 346</b>	<b>3 773 720</b>	<b>3 509 346</b>

#### Receivables from non-exchange transactions impaired

As of 30 June 2023, other receivables from non-exchange transactions of 2 105 753 (2022: 2 105 753) were impaired and provided for.

The receivables impaired are as follows:

Debtor-Kokstad deposits	105 753	105 753	105 753	105 753
Cyclone construction - Farmers market	2 000 000	2 000 000	2 000 000	2 000 000

**6. VAT receivable**

VAT	28 347 894	25 853 438	27 153 154	25 557 301
-----	------------	------------	------------	------------

---

The annual financial statements are prepared on an accrual basis, which means that revenues and expenses are recognized when they are incurred, regardless of when the associated cash inflows or outflows occur. However, in compliance with the tax regulations of South Africa, we declare our VAT liability or receivable the South African Revenue Service (SARS) on a payment basis.

It is municipality policy to lease certain motor vehicles and office equipment under finance leases. Finance lease contracts for motor vehicles and office equipment, previously entered into, reached their contractual expiration during the financial year. While these contracts have concluded, the municipality ensured a smooth transition by extending them on a month-to-month basis to maintain operational continuity while new contracts are being finalized.

The average lease term was 3-4 years and the average effective borrowing rate was 12% (2022: 12%).

Interest rates are linked to prime at the contract date. All leases escalate at CPI% p.a and no arrangements have been entered into for contingent rent.

The economic entity's obligations under finance leases are secured by the lessor's charge over the leased assets. Refer note 9.

Water	2 415 086	2 175 007	2 415 086	2 175 007
<hr/>	<hr/>			

As of the year- end date, our annual financial statements reflect a liability related to consumer water deposits. Consumer water deposits represent funds collected from customers as security against potential non- payment of water services or to ensure adherence to the terms of water usage agreements. Throughout the year, changes to the consumer water deposits liability occurs due to various factors, such as new deposits, withdrawals of deposits, or the return of deposits when customers terminate their agreements.

### Long service awards

The municipality operate an unfunded defined benefit plan for all its employees. The Municipality offers employees long service awards for every five years of service completed, from five years of service to 45 years of service, inclusive. The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2023 by Mr C Weiss, Fellow of the Actuarial Society of South Africa.

### Changes in the present value of the defined benefit obligation are as follows:

	Net effective discount rate
Opening balance	Average retirement age
	_____
	_____
Expected benefits vesting	
Net expense recognised in the statement of financial performance	
_____	
_____	
	<b>Unspent conditional grants and receipts</b>

At amortised cost	_____				
	_____				

**18. Long term payables from exchange transactions**

The Special Investigating Unit (SIU) performed an investigation per the President's proclamation on allegations of financial misconduct. The investigations resulted in SIU billing the municipality an amount of R14.2 million for the services rendered. However due to financial difficulties that was facing the municipality at the time, the municipality could not afford to pay for these services.

During the 2018/2019 financial year the municipality entered into an arrangement with the Special Investigating Unit (SIU) to repay the amount owed by the municipality in monthly installment of R200 000. There is no interest charged on the outstanding balance.

The amount payable within the next 12 months is reclassified to current liabilities as follows:

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Notes to the Annual Financial Statements

Figures in Rand	Economic entity		Controlling entity	
	2023	2022	2023	2022

#### 22. Government grants & subsidies (continued)

<b>149 796</b>	<b>1 303 994</b>	-	-
----------------	------------------	---	---

The purpose of the grant is to revamp the agro processing facility and cold rooms. The project is fully complete and there were savings as the award was less than the allocation grant funding.

#### Department of higher education training grant

Balance unspent at beginning of year	314 113	288 612	-	-
Interest received	-	25 501	-	-
	<b>314 113</b>	<b>314 113</b>	-	-

Conditions still to be met - remain liabilities (see note 16).

The purpose of this grant is provide funding through National Skills Fund for the capacitation of the youth with skills. The grant could not be spent during the year under review and there are engagements with the funder to reprioritize funds so that they are used in other related activities by the Agency.

**Development bank of South Africa**

Balance unspent at beginning of year	1 169 348	1 065 859	-	-
Interest received	-	103 489	-	-
	<b>1 169 348</b>	<b>1 169 348</b>	-	-

Conditions still to be met - remain liabilities (see note 16).

The purpose of the grant is to capacitate co-operatives through Jobs Fund Projects. There was no movement during the year, The Agency has engaged National Treasury(Jobs Fund Division) to use the remaining funds to other related activities in 2023/2024 financial year.

**Expanded public works programme**

Current-year receipts	5 221 000	4 596 000	5 221 000	4 596 000
	(5 221 000)	(4 596 000)	(5 221 000)	(4 596 000)
Conditions met - transferred to revenue				
	-	-	-	-

Expanded public works programme grant is used to expand work creation efforts through the use of labour intensive delivery methods in identified focus areas.

**Water services infrastructure grant** Conditions met - transferred to revenue (current year allocation - capital)

Current-year receipts Conditions met - transferred to revenue (current year allocation - operational)

85 000 000	115 700 000	85 000 000	115 700 000	-	-	-
		(85 937				
(82 982 270)	(85 937 736)	(82 982 270)	736)			

During the reporting period, an amount of 10 million, which was previously allocated to the municipality as part of the Water Services Infrastructure Conditional Grant, was withheld by the Treasury. This decision stems from the identified lack of performance in meeting the conditions and expenditure requirements associated with the grant.

The water services infrastructure grants is used to facilitate the planning and implementation of various water and sanitation projects to accelerate backlog reduction and improve the sustainability of services.

## Harry Gwala District Municipality and its Municipal Entity

(Registration number D43)

Annual Financial Statements for the year ended 30 June 2023

### Notes to the Annual Financial Statements

Figures in Rand	Economic entity		Controlling entity	
	2023	2022	2023	2022

#### 33. Remuneration of councillors (continued) In-kind benefits

The Mayor, Deputy Mayor and Speaker are full -time. Each is provided with an office and secretarial support at the cost of the Council. The new gazette changed Executive Committee Members from being full time to part time during the course of the financial year.

The Mayor, Deputy Mayor and the Speaker each have the use of separate Council owned vehicles for official duties.

The Mayor and the Speaker have two full-time bodyguards driving with them and one relief protector.

The Mayor is allocated a driver and one back up vehicle.

150 000	150 000	150 000	150 000			

In this matter, the service provider was claiming the amount of R 1 254 000 from the Municipality for an alleged breach of contract. The Municipality is attempting to locate the company in order to arrange a pretrial conference since its previous attorneys of record have withdrawn.

#### **Water scheme project**

This is a matter where the Khuzwayo family has demanded payment of R 2 000 000.00 as compensation for the Municipality's construction of a treatment plant on parts of its property. The Municipality may have to pay reasonable compensation to the family which would be far less than what they have demanded. In the interim, the attorneys are awaiting further instructions regarding whether the Municipal council has decided to proceed with the proposed acquisition of the property.

#### **Unitrade 1047 CC T/A Isidingo Security Services**

This is a claim for damages arising from an alleged breach of contract against the Municipality in relation to a tender award. A summons was issued out of the High Court, Durban Local Division and the matter is currently pending in the Durban High Court awaiting a set down for trial. The matter was defended by the Municipality.

#### **Unlawful arrest and detention**

This matter is in relation to the unlawful arrest and detention of a certain Mr Mdladla. Mr Mdladla alleges that on or about 12 November 2017, acting under the instructions of immediate supervisor Mr Mbona, instructed him to deliver a Jojo tank to a designated area.

Whilst acting on his instruction he was unlawfully arrested and detained by members of the SAPS, following false charges of theft. Mr Mdladla further alleges that he was released after six hours and that since his arrest and subsequent to his release he has not been summoned to appear in court. As a result, Mr Mdladla now claims damages in the amount of R500 000.00. The matter is now at the stage of discovery and we need to liaise with municipal official who will depose to the Municipality discovery affidavit.

### **Matatiele Local Municipality**

Harry Gwala District Municipality is disputing the amount raised as a debtor by Matatiele Local Municipality. An agreement is yet to be reached between the two municipalities.

### **Impande Consulting Engineers**

Impande issued summons against the Municipality for services rendered. Impande is currently in the process of combining the two action proceedings under case numbers 12387/22P and 2307/23P, as they relate to the same facts and cause of action. HGDM applied to review and set aside Impande's appointment to the 2019 panel for tender number HGDM625/HGDM/2019 and various instructions issued to it in terms of that appointment.

	2023	2022	2023	2022

---

#### 38. Contingencies (continued)

Furthermore Impande applied to review and set aside the appointment of one of the firms of engineers on the panel appointed by HGDM in 2022, under tender number HGDM749/HGDM/2021.

#### Lerumo Lantate Training and Development Services

Harry Gwala District Municipality has a civil claim instituted by Lerumo Lantate Training and Development Services at the Pietermaritzburg High Court, under case number: 9372/2022P

#### Lakani Projects (PTY) LTD

The municipality is currently engaged in legal proceedings initiated by Lakani Projects (PTY) LTD regarding the construction of VIP toilets in uMzimkhulu. Lakani Projects (PTY) LTD has instituted actions against the municipality, alleging contractual and project-related issues. The municipality is actively defending itself against the legal claim brought forth by Lakani Projects (PTY) LTD. The municipality asserts its position, disputing the validity of the claims made by Lakani Projects (PTY) LTD. As of the date of the annual financial statement, the financial impact of the contingent liability cannot be reliably

determined. The outcome of the legal proceedings will ultimately dictate whether the municipality incurs an obligation to make payments to Lakani Projects (PTY) LTD and the extent of any potential financial implications.

### **Mahlasela And Sons Property Limited**

The municipality is currently involved in legal proceedings initiated by Mahlasela and Sons Property Limited pertaining to land use for the construction of a water project. The legal action involves a dispute regarding the municipality's right to use the land for the specified purpose. The municipality is actively defending itself against the legal claim brought forth by Mahlasela and Sons Property Limited. The municipality asserts its right to use the land for the construction of a water project and contests the claims made by Mahlasela and Sons Property Limited. As of the date of reporting, the financial impact of the contingent liability cannot be reliably determined. The outcome of the legal proceedings will determine whether the municipality incurs an obligation to make payments to Mahlasela and Sons Property Limited and the extent of any potential financial implications.

### **Dispute involving a former HGDA employee**

The disclosed amount for the year 2022 pertains to a legal dispute involving a former employee. The case has been officially closed, and no costs were incurred, as verified in written confirmation by the responsible attorney.

### **National Skills Funds Service Providers**

An amount of R1,404,216 was raised in 2020 in connection with an ongoing litigation concerning payment to National Skills Funds Service Providers. The Agency had withheld payments pending the outcome of an investigation. However, due to the considerable passage of time and the absence of legal obligations to make payments without valid invoices—none of which have been received since 2020—this matter is no longer considered probable.

### **Ithala Bank**

The sum of R743,461 reflects the variance between the loan confirmed in the preceding year and the current year by Ithala. This inconsistency necessitates management to initiate discussions with the bank for further clarification, confirmation, and validation.

### **Prior-year adjustments (continued) Errors**

The following prior period errors adjustments occurred:

### **Payables from exchange transactions**

The Compensation for Occupational Injuries and Diseases Act (COIDA), also known as the Workmen's Compensation Act, is a law in South Africa that provides for compensation for employees who are injured or contract diseases during the course of their employment, as well as for dependents of employees who die as a result of work-related incidents. This Act aims to provide financial support and medical assistance to employees who suffer injuries, diseases, or death due to work-related activities. Harry Gwala District Municipality is obligated to contribute to the Workmen's Compensation Fund by paying an annual assessment fee. The amount of the fee is determined by factors such as the nature of the business and the total annual earnings of employees. The annual assessment fee for the prior years was not accounted for resulting in the understatement of operational costs by R1 116 047, accumulated surplus by R3 034 728 and trade creditors by R4 150 775.

An amount of R1,404,216 was generated in 2020, stemming from an unresolved legal dispute related to the payment of National Skills Funds Service Providers. The Agency had temporarily

withheld payments pending the investigation's outcome. Consequently, a correction was deemed necessary in light of these developments.

During the annual financial statement audit, it was identified that an incorrect engagement date was utilized for employees who transitioned from temporary to permanent status. The engagement date used in the bonus accrual calculation incorrectly reflected the period of temporary employment rather than the accurate commencement date of their permanent status. This discrepancy led to an understatement of the bonus accrual for the prior period, impacting both the statement financial performance and the corresponding liability on the statement of financial position by R 240 669.47.

Retentions are amounts typically withheld from payments to contractors as a form of security, which can be released upon the satisfactory completion of the contractual obligations, rectification of defects, or the fulfillment of other specified conditions. The errors primarily relate to the incorrect classification and treatment of retentions in instances where the underlying contractual obligations were fulfilled in the prior year. Specifically, retentions that were initially held but due to defects or other completion conditions identified on construction projects in the prior years, the retentions were erroneously not released as the contractors did not rectify the defects. Additionally, retentions associated with contracts that were terminated during the prior year were not accurately adjusted for in the financial records. The restatement of the financial statements for the prior year has resulted in the following adjustments: retention liabilities have been reduced by R8 857 119 to reflect the accurate amount of retentions outstanding at the end of the prior year. This has led to a corresponding increase in accumulated surplus.

### **Service charges**

In the prior period ending 30 June 2022, certain transactions involving the receipt of funds for the removal of the accumulated waste and sewage from pit latrines or pit toilets were erroneously recognized as revenue before the corresponding services were provided to the customers. This occurred due to a misinterpretation of revenue recognition criteria at the time. As a result of the error, revenue was overstated R10 482.97 in the 2021/2022 annual financial statements. The correction reduced the previously reported revenue by R10 482.97, resulting in a corresponding decrease in the net income and an increase in income received in advance for the financial year.

	2023	2022	2023	2022

---

### **Prior-year adjustments (continued) Property, plant and equipment**

Upon meticulous review of our accounting records, it has come to our attention that certain infrastructure assets were not transferred from the "Work in Progress" category to the appropriate "Property, Plant, and Equipment" category after their completion in prior reporting periods. As a result, these assets were not subjected to depreciation, leading to an underreporting of expenses and an inaccurate representation of our financial performance.

The impact of this correction has been outlined below:

**Increase in Depreciation Expense:** Depreciation charges for the affected infrastructure assets have been recognized for the prior periods in which they were in use. This has resulted in a restatement of expenses for the 2021/2022 financial year and by R1 674 380 and accumulated surplus by R3 965 063, leading to a decrease in the reported net income for those periods.

**Adjustment to Asset Values:** The reclassification has also led to an adjustment in the carrying amounts of the infrastructure assets on the statement of financial position by R5 639 443. These adjustments have been made to reflect the appropriate depreciation expenses that should have been recognized in previous years.

In addition an prior period error was discovered from an Harry Gwala Development agency-led initiative to conduct a comprehensive 100% physical verification exercise. During this process, assets were discovered that were not previously recorded in the register. These assets were subsequently added to the register in the preceding year.

### **Receivables from non exchange transactions**

During the accounting period ending on 30 June 2021, payments were made to employees as part of their regular compensation. However, due to unforeseen banking issues, these payments were returned and debited from our bank account. The funds that were originally credited to the suspense account have been reversed, and the relevant amounts have been correctly debited from the suspense account. The original payments made to employees were recognized as expenses in the original period. The error correction will result in a reduction of expenses. The suspense account that temporarily held the funds has been correctly adjusted, resulting in a reduction of assets by R132 391.46

### **Reclassifications**

The following reclassifications adjustment occurred:

#### **Property, plant and equipment**

During our periodic review of asset classifications, it was determined that certain building improvements that were originally categorized as community assets were more appropriately classified as part of our building assets.

#### **Debt impairment**

The municipality reviewed the approach to presenting bad debts in the annual financial statements. The objective was to distinguish between bad debts written off and the provision for debt impairment, thereby offering stakeholders a more accurate understanding of our financial performance. With this separation, our Statement of Financial Performance will now distinctly display bad debts written off as a separate line item. This allows readers to differentiate between debts written off and the provision made for debt impairment.

## 41. Comparative figures

Certain comparative figures have been reclassified.

### **Risk management**

#### **Financial risk management**

The economic entity's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

---

## Notes to the Annual Financial Statements

---

Figures in Rand	Economic entity		Controlling entity	
	2023	2022	2023	2022

---

### 42. Risk management (continued) Liquidity risk

The economic entity's risk to liquidity is a result of the funds available to cover future commitments. The economic entity manages liquidity risk through an ongoing review of future commitments and credit facilities.

The management of liquidity risk is essential for the financial well-being and sustainability of the Municipality. Liquidity risk refers to the potential inability to meet short-term financial obligations as they fall due. The primary objectives of the Municipality's liquidity risk management are to ensure the availability of funds to meet financial obligations, optimize cash flow forecasting to anticipate and address liquidity needs and mitigate the impact of unforeseen events on the municipality's financial position.

The table below analyses the economic entity's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Borrowings	2 770 602	-	-	-

### **Credit risk**

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Council.

Financial assets exposed to credit risk at year end were as follows:

Financial instrument	Economic	Economic	Controlling	Controlling
	entity - 2023	entity - 2022 2023	entity - 2022	entity - 2022
Cash and cash equivalent	142 126 742	64 591 710	124 640 559 50	226 251

	2023	2022	2023	2022

---

#### 42. Risk management (continued) Interest rate risk

As the economic entity has no significant interest-bearing assets, the economic entity's income and operating cash flows are substantially independent of changes in market interest rates.

#### 43. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The ability of the municipality to continue as a going concern is dependent on a number of factors. The most significant of these is that the municipality continue to receive conditional grants and equitable share allocations as gazetted for the ongoing operations for the municipality.

#### 44. Events after the reporting date

Harry Gwala Municipality Council set on 27 July 2023 to resolve the irregular expenditure. Investigations were performed by MPAC before the end of the financial year and council took a resolution to write off the irregular expenditure amounting to R550 480 032 and fruitless and wasteful expenditure amounting to R113 434.

Harry Gwala Municipality had a special Council on 30 August 2023 to consider the item for irregular expenditure investigation by MPAC. The investigations by MPAC started before the end of the financial year and council took a resolution to write off the irregular expenditure amounting to R288 281 523.

#### 45. Unauthorised expenditure

Add: Unauthorised expenditure - current	9 691 677	-	9 691 677	-
---	-----------	---	-----------	---

---

**The over expenditure incurred by municipal departments during the year is attributable to the**

**following categories:**

Non-cash	9 691 677	-	9 691 677	-
----------	-----------	---	-----------	---

---

**Analysed as follows: non-cash**

Depreciation and amortisation	1 921 028	-	1 921 028	-
-------------------------------	-----------	---	-----------	---

Bad debts written off	6 039 208	-	6 039 208	-
-----------------------	-----------	---	-----------	---

Employee benefit obligation valuations	actuarial 1 731 441	-	1 731 441	-

---

	<b>9 691 677</b>	<b>-</b>	<b>9 691 677</b>	<b>-</b>
--	------------------	----------	------------------	----------

---

The nature of the overspending is primarily attributed to non-cash items, namely bad debts written off and actuarial assumptions on employee benefit obligations. These items were incurred centrally and were not allocated and spread across multiple departments. Management chose to record them under one vote, namely Vote 3 Budget and Treasury Office. It's crucial to note that, in total, the budget has not been overspent when accounting for these non- cash items. Moreover, unauthorized expenditure within the infrastructure services vote can be attributed to the impact of depreciation.

**Unauthorised expenditure: Budget**  
**overspending –**

**per municipal department:**

Infrastructure Services	1 921 028	-	1 921 028	-
Budget and Treasury Office	7 770 649	-	7 770 649	-

### Closing balance

---

The municipality is currently in the process of conducting a comprehensive investigation into the balance of Fruitless and Wasteful Expenditure. As of the conclusion of the financial year, the exact

nature and circumstances surrounding this expenditure remain under scrutiny, hindering the municipality's ability to definitively ascertain the recoverability of the incurred amount. The complexity of the investigation arises from the need to meticulously assess each instance of Fruitless and Wasteful Expenditure, understanding the factors contributing to these expenses. This thorough examination encompasses a range of financial transactions and activities, and the municipality is actively engaging with relevant stakeholders to gather all pertinent information.

**Details of fruitless and wasteful expenditure**

(2 571 526)    (2 101 863)(2 571 526)    (2 101 863)

The water losses of 31.1% (2021/22 :30.6 %) is calculated on the system input volume of 3 245 869kl (2021/22 : 3 217 891

kl) purchased at an average price of R8.365 (2021/22 : R8.12 ) per kl and total units sold amounting to 2 237 374kl

(2021/22 : 2 234 498kl). Total water stock losses amounts to 1 008 495kl (2020/21 : 983 393kl)

**The following are the major root causes for the water losses:**

Ageing infrastructure around the District also causes water losses, there are still asbestos and cement pipes that are still under ground and they keep bursting most of the times..

Informal settlements around the District that have water connections but they are not billed therefore they are deemed as water losses.

Illegal connections especially in rural areas and informal settlements

**Deviation from supply chain management regulations**

52 755	49 426	52 755	49 426
(52 755)	(49 426)	(52 755)	(49 426)
<hr/>			
-	-	-	-
<hr/>			

Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that a supply chain management policy must provide for the procurement of goods and services by way of a competitive bidding process.

Paragraph 36 of the same gazette states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the and includes a note to the annual financial statements.

There are deviations during the 2022/2023 financial year as follows:

**Reason for deviation**

V S panel beaters and spraypa - Repairs of the Nissan	235 069	-	235 069	-
---	---------	---	---------	---

UD truck registration number NIX 10981. The impracticality of following normal SCM processes was driven by the fact that the panel beater was chosen by the insurance company as the vehicle in question was insured and the vehicle had already incurred substantial storage costs, which the municipality would have had to bear if another company had been chosen after the insurance claim was declined.

**50. Budget differences**

## **Material differences between budget and actual amounts**

The excess of actual expenditure over the final budget of 5% is considered acceptable by management.

**Service Charges** - Increased Demand or Usage: There was a higher-than-expected demand for water and sanitation services during the period, leading to an increase in service charges. The overflowing tanks and leaks at Rietvlei hospital was a major contributor.

**Other Income** - The Municipality received money from previous cases against former employees as well as insurance refunds that were not budgeted for.

**Interest on outstanding debtors** - Changes in Payment Behaviour: The actual payment behaviour of customers differs from what was initially anticipated in the budget, resulting in a variance in the interest earned on outstanding debtors. Customers are paying their outstanding debts later than expected, the delay in receiving payments leads the debt increases and subsequently an increase in interest charged.

#### 50. Budget differences (continued)

**Interest on investments** - The cash flow patterns differed from what was assumed in the budget thereby affect the timing of investments and interest earnings for instance there was slow spending on conditional grants throughout the financial year resulting in higher call account balances ringfenced. Moreover, there was Interest Rate Fluctuations. The actual interest rates differ from the rates assumed in the budget, leading to a variance. Higher-than-expected interest rates resulted in higher interest income.

**Government Grants and Subsidies** - Delays in project initiation or execution leading to a difference between the budgeted and actual spending on the municipal infrastructure conditional grant. These delays were caused by administrative, regulatory, and or technical issues.

**Public contributions and donations** - There is no budget allocated as the information is not available at the time of budgeting

**Bad Debts written off** - An economic downturn leading to reduced consumer spending, increased unemployment, and financial distress for businesses and individuals. In such scenarios, customers face difficulties in fulfilling their payment obligations, resulting in higher instances of defaults and

bad debts. The severity and duration of the economic downturn impacted the accuracy of budgeted projections.

**Contracted services** - Streamlining internal processes or improved resource allocation leading to more efficient utilization of contracted services, thereby lowering costs. Moreover, certain services were performed in-house at a lower cost than outsourcing, leading to reduced contracted services expenditure.

**Depreciation and amortisation** - Delays or deferrals of infrastructure projects resulting in lower capital expenditures due to funding, affecting the depreciation of newly completed infrastructure assets. There was also slower than anticipated expenditure on the municipal infrastructure grant

**Finance charges** - The budgeted figure was in anticipation of a new lease agreement for photocopying machines however there has been delays on the new contracts due to a change in strategy by management by focusing on the participation in the transversal tender for printers.

**Employee related costs** - The budgeted amount is observed to be lower than the actual figures primarily due to the inclusion of non-cash items stemming from actuarial assumptions. These assumptions specifically pertain to the accounting for long service awards and provisions set aside for post-healthcare medical aid. The application of these actuarial assumptions has resulted in a variance between the projected budget and the actual outcome.

**Remuneration of Councillors** - The budget was set in anticipation of an increase due to the release of new gazette for upper limits for councillors however this was not done at year end.

**Inventory Consumed** - Expenditure is within the budget. The municipality is continuously identifying cost drivers to try and minimise expenditure so that the municipality moves towards achieving the goal of maintaining the funded budget status.

**Operational Costs** - The municipality is continuously identifying cost drivers to try and minimise expenditure so that the municipality moves towards achieving the goal of maintaining the funded budget status.

**Actuarial gains and loss** - These noncash items were not budgeted for.

**Gains/ losses on disposal of assets** - There was no budgeted allocated for gains or losses on disposal of assets.

**Cash and cash equivalents** - The cash flow patterns differed from what was assumed in the budget thereby affect the timing of investments and interest earnings for instance there was slow spending on conditional grants throughout the financial year resulting in higher call account balances ringfenced.

**Property, plant and equipment** - Delays or deferrals of infrastructure projects resulting in lower capital expenditures due to funding, affecting the construction infrastructure assets. There was also slower than anticipated expenditure on the municipal infrastructure grant.

---

#### 50. Budget differences (continued)

**Payables from exchange transactions** - Delays in receiving, processing invoices and making payments causing a buildup of payables, resulting in a higher balance than originally expected. The salaries third party payments were outstanding at year end whereas the budget projections were made with the anticipation that these will be settle before 30 June 2023.

**Current portion of employee benefit obligations** – There was no budget allocated to the current portion as the entire amount was budgeted for under non-current liabilities.

**Unspent conditional grants and receipts** - Delays in project initiation or execution leading to a difference between the budgeted and actual spending on the municipal infrastructure conditional grant. These delays were caused by administrative, regulatory, and or technical issues.

#### Changes from the approved budget to the final budget

The changes between the approved and final budget are a consequence of changes in the overall budget parameters. For details on these changes please refer to pages 45 to 50 in the annual report

### Segment information General information

#### Identification of segments

The economic entity is organised and reports to management on the basis of three major functional areas: primary, secondary and tertiary educational services. The segments were organised around the type of service delivered and the target market. Management uses these same segments for determining strategic objectives. Segments were aggregated for reporting purposes.

Information reported about these segments is used by management as a basis for evaluating the segments' performances and for making decisions about the allocation of resources. The disclosure of information about these segments is also considered appropriate for external reporting purposes.

#### Aggregated segments

The economic entity operates throughout the Gauteng Province in ten cities. Segments were aggregated on the basis of services delivered as management considered that the economic characteristics of the segments throughout Gauteng were sufficiently similar to warrant aggregation.

## **Types of goods and/or services by segment**

These reportable segments as well as the goods and/or services for each segment are set out below:

### **Reportable segment**

### **Goods and/or services**

Government and administration

Administration and support services

Community services

Disaster, health and environmental

Trading services

### 51. Segment information (continued) Information about geographical areas

In accordance with GRAP 18.32, the municipality is required to report certain geographical information. However, due to practical constraints and excessive costs associated with obtaining the necessary information, the entity is unable to provide the specific details related to external revenues, total expenditure, and non-current assets for the geographical areas in which it operates. The decision not to disclose this information is based on the assessment that the cost to develop such information would be prohibitively high.
