## Glossary

**Adjustments budget** – Prescribed in section 28 of the MFMA.

The formal means by which a municipality may revise its annual budget during the year.

**Allocations** – Money received from Provincial or National Government or other municipalities.

**Budget** – The financial plan of the Municipality.

**Budget related policy** – Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy and credit control and debt collection policy.

**Capital expenditure** - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as an asset on the Municipality's balance sheet.

**Cash flow statement** – A statement showing when actual cash will be received and spent by the Municipality. Cash payments do not always coincide with budgeted expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month it is received, even though it may not be paid in the same period.

**DORA** – Division of Revenue Act. Annual legislation that shows the total allocations made by National to Provincial and local government.

**Equitable share** – A general grant paid to municipalities. It is predominantly targeted to help with free basic services.

**Fruitless and wasteful expenditure** – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

**GFS** – Government Finance Statistics. An internationally recognised classification system that facilitates like for like comparison between municipalities.

**GRAP** – Generally Recognised Accounting Practice. The new standard for municipal accounting.

**IDP** – Integrated Development Plan. The main strategic planning document of the municipality

**MBRR** – Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations April 2009

**MFMA** – The Municipal Finance Management Act – No. 56 of 2003. The principle piece of legislation relating to municipal financial management.

**MTREF** – Medium Term Revenue and Expenditure Framework. A medium term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current years' financial position.

**Operating expenditure** – Spending on the day to day expenses of the Municipality such as salaries and wages.

**Rates** – Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

**SDBIP** – Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

**Strategic objectives** – The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

**Unauthorised expenditure** – Generally, spending without, or in excess of, an approved budget.

**Virement** – A transfer of budget.

**Virement policy** - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

**Vote** – One of the main segments into which a budget. In Harry Gwala District Municipality means a directorate level.

## **PART 1 – ADJUSTMENTS BUDGET**

### **1. Mayor's Report**

#### **INTRODUCTION**

The adjustment budget seeks to rectify issues identified in the mid-year assessment of the financial results as well as the inclusion of additional allocations. It is drafted in terms of section 28 of the MFMA and seeks to adhere to the stipulations of specifically section 28(2) of the MFMA.

#### **BACKGROUND**

In accordance with section 28 of the Municipal Finance Management Act, No 56 of 2003 (MFMA) a municipality must revise its approved annual budget through an adjustments budget, in the following circumstances:

- i. To appropriate additional revenues that have become available over and above those anticipated in the annual budget, but only to revise or accelerate spending programmes already budgeted for.
- ii. To authorise the utilisation of projected savings in one vote towards spending under another vote.
- iii. To authorise the spending of funds that were unspent at the end of the past financial year where the under-spending could not reasonably have been foreseen at the time to include projected rollovers when the annual budget for the current year was approved by the Council.
- iv. To correct any errors in the annual budget.

In line with the MFMA, the 2018/19 approved Budget has now been adjusted. The adjustment has been mainly necessitated as a result of the following:

- To appropriate the reduction of revenues that have been deducted from the annual budget, but only to revise spending programmes already budgeted for
- The need to authorise the spending of unspent funds at the end of the 2017/2018 financial year.
- The Adjustments Budget reaffirms the Municipality's commitment to achieve the service delivery targets and performance indicators as reflected in the approved service delivery and budget implementation plan.

The process of budget adjustment also allows us to assess the state of our finances, reflect on the current challenges and design therapeutic measures that will turn around the finances of Harry Gwala District Municipality.

Much attention is given to the department of Water Services operational efficiency with considerable emphasis on operations and maintenance cost control and Corporate Services which is the department that runs with the day to day operations of the municipality. While most departments have seen a decrease in their budgets, the Water services budget has seen an increase by R 12million and a decrease of R37million for depreciation due to the nature of the operations and repairs and maintenance undertaken under this department and depreciation, Infrastructure Services also shows an increase because of the capital projects that would not be capitalized were shifted to the operations budget.

In preparing the adjustment budget priority had to be given to Water Services Department by making budget available for the next five months, this is largely due to prioritization of repairs and maintenance of the aging water and sanitation infrastructure that is now degenerating putting more strain on the cash flow of the municipality.

## **2. Resolutions**

It is recommended that the Harry Gwala District Municipal Council;

2.1 Approves the adjustments budget and consolidated adjustments budget for the financial year 2018/2019, as set-out in the schedules contained in Section 4, be approved:

2.2 Approves any adjustments permitted in terms of Section 28 (2) of the Act,

2.3 Approves the revisions to the monthly and quarterly service delivery targets and performance indicators in the service delivery and budget implementation plan, if any, to correspond with the approval of the adjustments budget.

2.4 Notes the Provincial Treasury comments and their effect on the Adjustments budget

### 3. Executive Summary

The application of sound financial management principles for the compilation of the municipality's financial plan is essential and critical to ensure that the municipality remains viable and that the municipality services are provided sustainably, economically and equitably to all communities. The Adjustment budget is intended to address material variances that were highlighted in the mid-year budget and performance assessment report.

It is critical to note that this report s28 MFMA report has been prepared as informed by the Midyear Performance assessment report presented to Council in January 2019 in terms of s72 of the MFMA a report that was also submitted to the National and Provincial in terms of s72 (1) (b) MFMA.

The Parent Adjusted revenue has increased by R31, 1m (4%) from R751, 4m to R782, 6m. This upward adjustment is mainly due to following major contributing factors;

- |   |          |
|---|----------|
| • Service charges - water revenue         | R 12, 6m |
| • Service charges - sanitation revenue    | R 5, 4m  |
| • Service Charges-Conservancy tanks       | R 1,2m   |
| • Municipal Infrastructure Grant Rollover | R 9, 8m  |
| • Interest earned - external investments  | R 2, 3m  |

The Parent Adjusted operations budget is R455, 6m having increased by R53, 9million from the original budget of R401, 6million. The item below had the major movements

- Increase of R20, 7m employee related costs
- Increase of R165 310 Remuneration of Councilors
- An increase on contracted services mainly due to the reclassification R29, 7m from capital grants to the contracted services budget.
- An increase of R 3, 9m on other expenditure

To this end much attention is given to the department of Water Services and Corporate Services. While other departments have seen a decrease in their budgets, the corporate services budget has seen an increase above 43% due to the nature of the operations and Water Services for repairs and maintenance undertaken under this department. Water services department also hosts the largest percentage of the municipality's labour force.

The Parent capital budget has decreased from R349, 2million to R326, 9million. This is mainly attributable to the downward adjustment of the following grants;

- ✓ Municipal Infrastructure Grant Rollover R9, 8m
- ✓ Municipal Infrastructure Grant R20, 7m moved to operations budget
- ✓ Water Services Infrastructure Grant R 9, 8m moved to operations budget

A number of capital projects that would not be capitalized were shifted to the operations budget. A number of capital projects totaling to R29, 7million.

## **Parent Adjustments Budget Tables**

### **TABLE B 1 ADJUSTMENT BUDGET SUMMARY**

Table B1 below provides a summary of the budget adjustment of the municipality and is unpacked in the sections that follow.

Waste water management	1 504	–	(28 311)	(28 311)	(26 808)	25 911	27 728
<b>Total Expenditure - Functional</b>	<b>401 695</b>	<b>–</b>	<b>53 963</b>	<b>53 963</b>	<b>455 658</b>	<b>443 583</b>	<b>473 381</b>
<b>Surplus/ (Deficit) for the year</b>	<b>349 789</b>	<b>9 806</b>	<b>(32 638)</b>	<b>(22 832)</b>	<b>326 958</b>	<b>339 288</b>	<b>379 581</b>

The revenue of the municipality has increased by 4% from R751million originally approved budget to R782, 6million. The water management has seen the biggest increase in revenue due to the increase in service charges water and sanitation of R14 million.

Operational expenditure has increased by 13% to R455, 7million. This increase is largely attributed to the Corporate Services which is responsible for the security of the municipality

and the fleet followed by water services department which is responsible from the water and sanitation provision. The infrastructure department has also contributed to this increase by the transfer of the capital projects from the capital budget to the operations budget.

**Chart 1: Adjusted Operation Budget by Standard Classification**

Some major differences above are caused by the cash flow constraint facing the municipality as a result of the limited revenue, while most departments have seen a decrease in their budgets, the Corporate Services budget has seen an increase above 43% due to the nature of the operations of the municipality and water services due to nature of the operations and repairs and maintenance undertaken under water services department. This department also hosts the largest percentage of the municipality's labour force. On the chart above it shows that water services budget decreased, the reason for the decrease is the depreciation of R 37million moved to infrastructure but other line items increased.

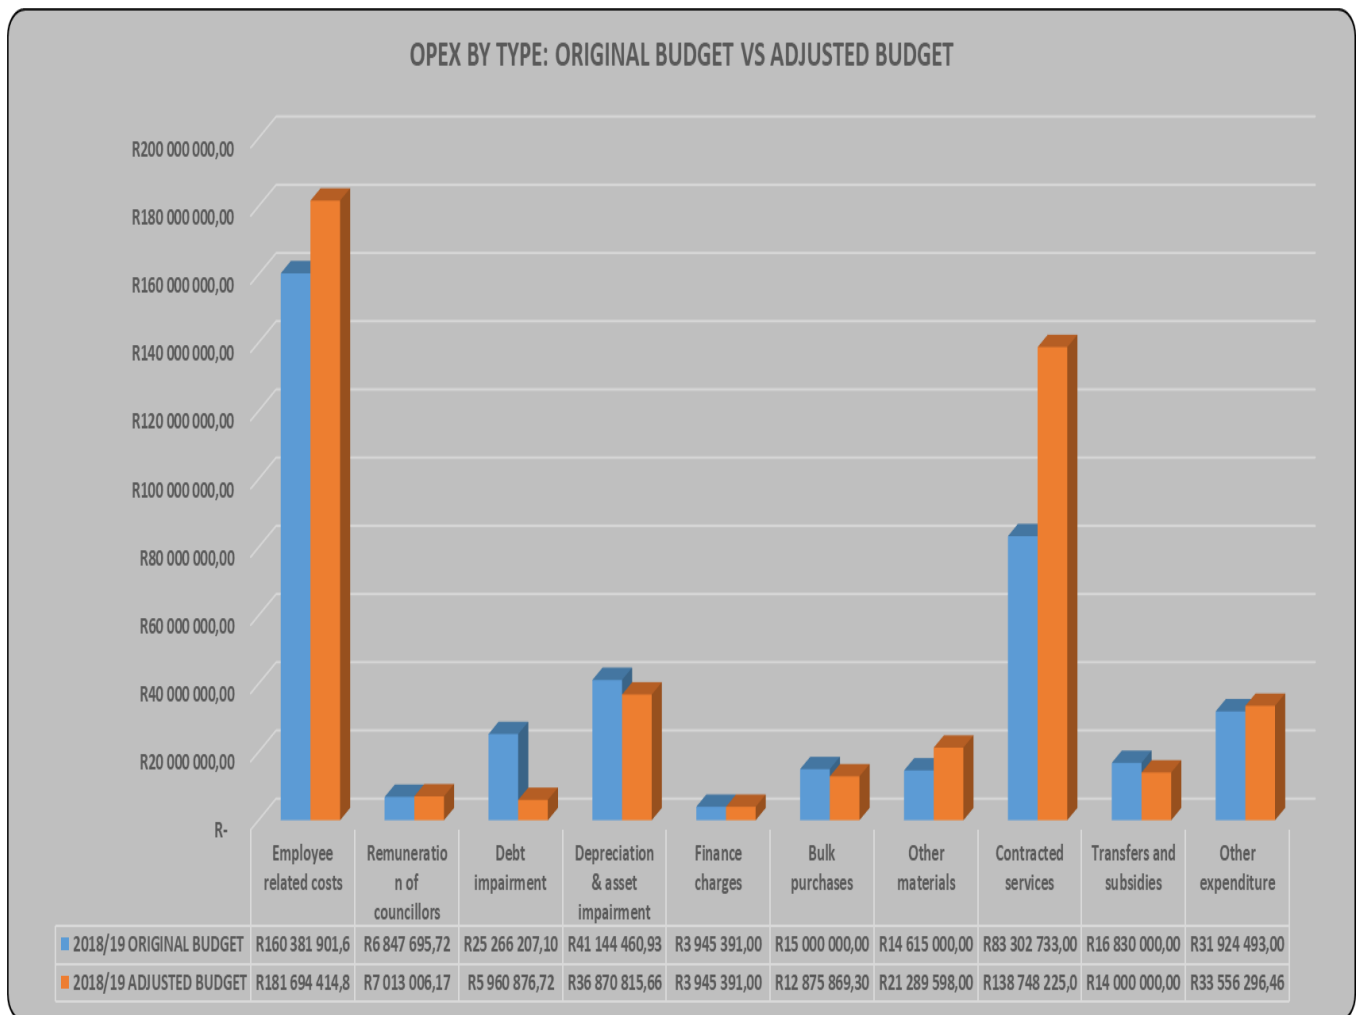

## TABLE B3 ADJUSTMENT BUDGET FINANCIAL PERFORMANCE

Table B3 presents the same information as the table above, the difference being that it's by Municipal vote.

**Chart 2: Adjustment budget financial performance**

The graph above presents the adjustment budget expenditure by type.

Employee related costs have on the other hand increased by R18, 7million to R181, 6million in order to cater for the critical posts that are key in strengthening the workforce that drives service delivery.

The debt impairment decreased by R 19million because there is a no enough funds to accommodate non-cash items. Depreciation has been decreased by R4, 2m because there are no capital projects that will be capitalised in the 2018/2019 financial year.

The expenditure on Bulk Water has been decreased because the expenditure for the past 7 months was too low. The actual expenditure as at 31 January 2019 was at 72 per cent which is R6, 4million and therefore the projected budget is going to be enough for the next 5 months.

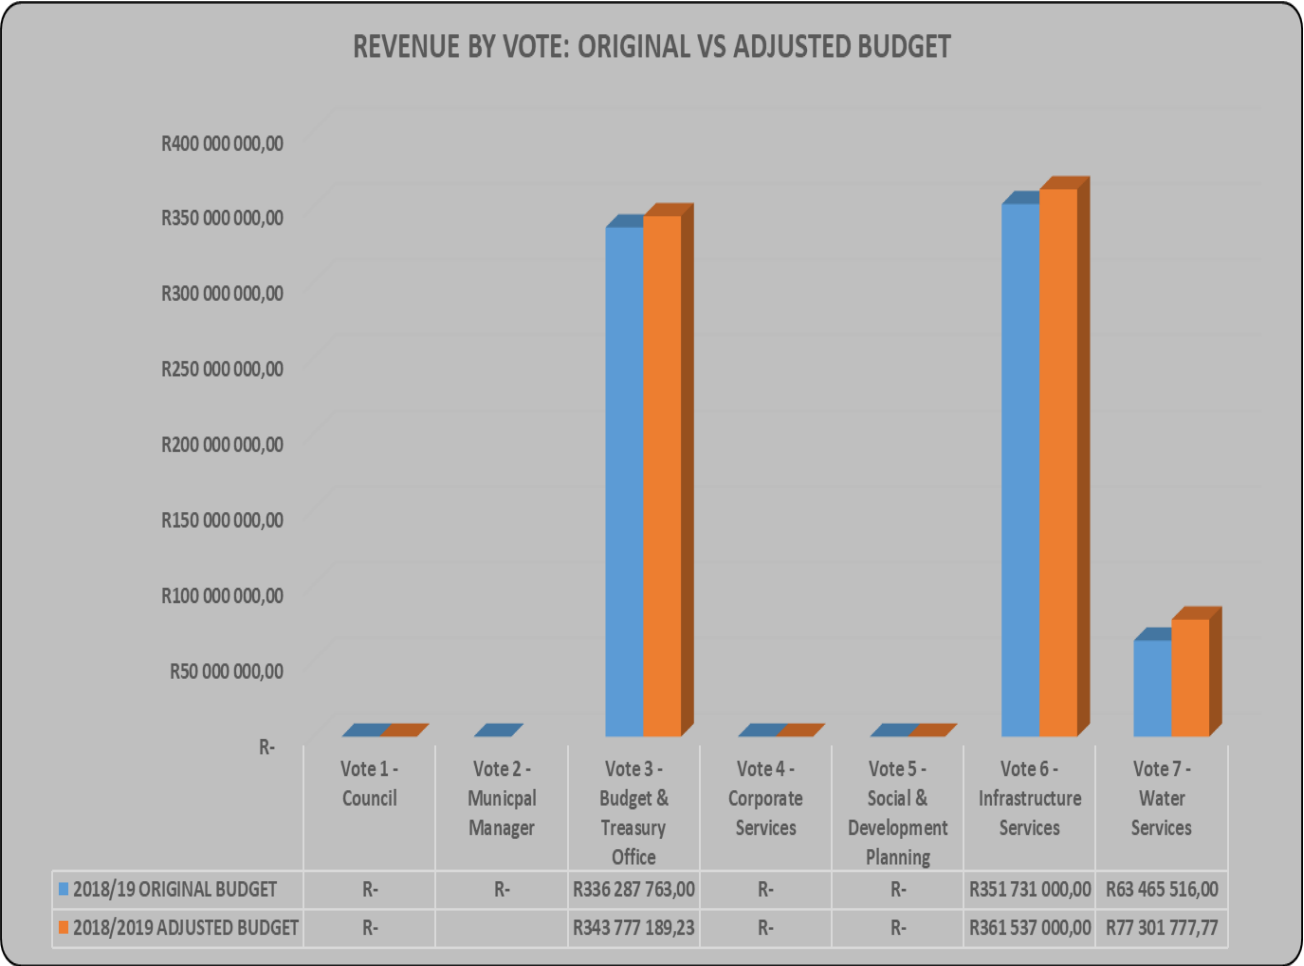

## TABLE B4 ADJUSTMENT BUDGET FINANCIAL PERFORMANCE

This schedule provides information on the adjustment revenue by source and adjustment operational expenditures by type.

DC43 Harry Gwala - Table B4 Adjustments Budget Financial Performance (revenue and expenditure) -

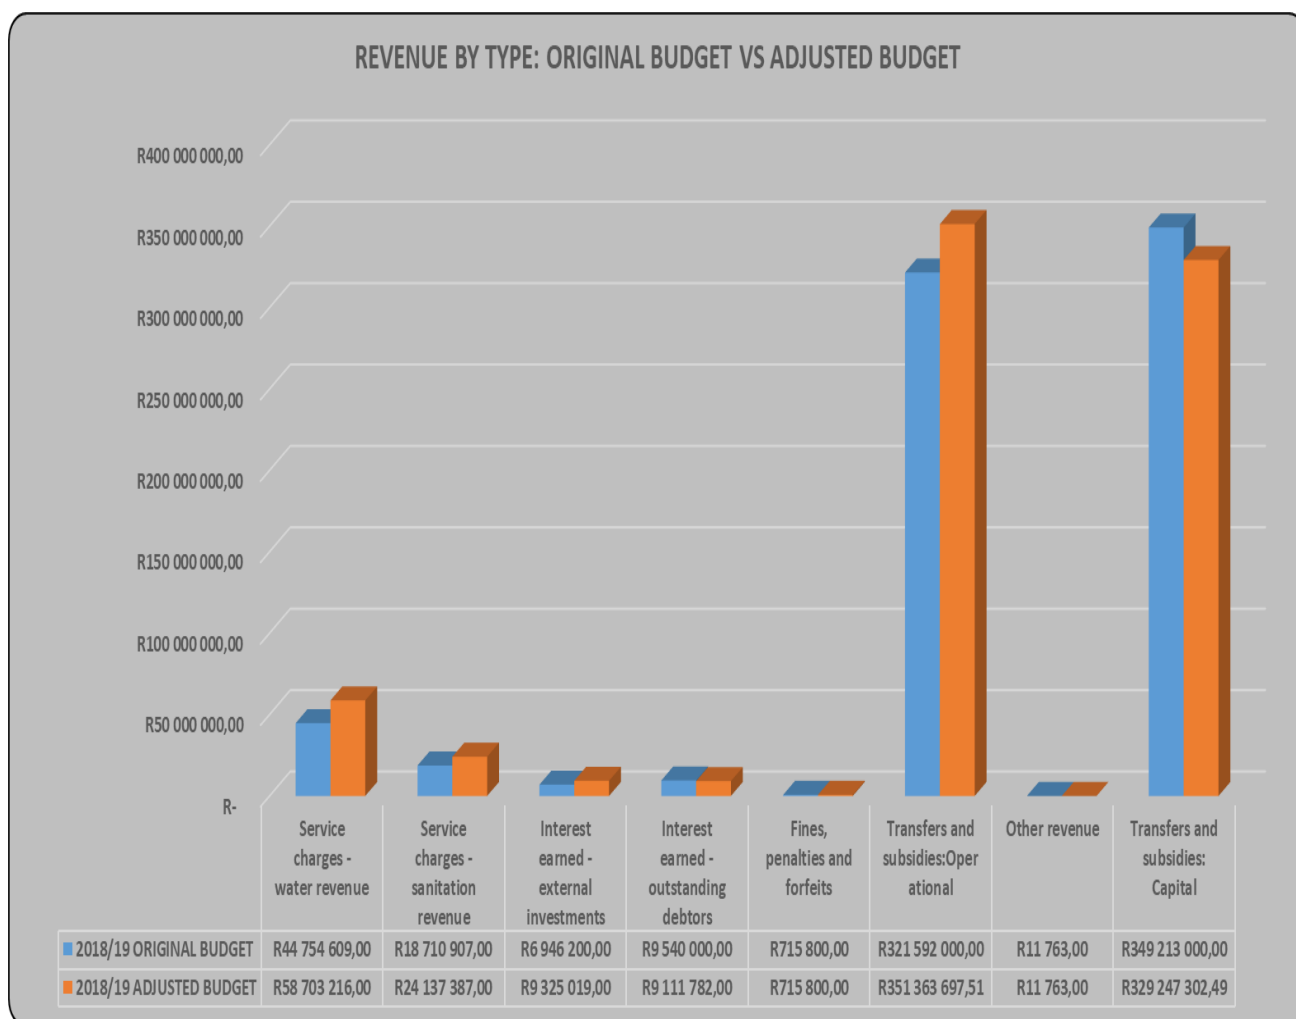

Chart 3: Revenue by Vote

The above graph presents the adjustment budget by source

**Chart 4: Revenue by Source**

There is an upward adjustment for water and sanitation charges revenue. The original interest earned on external investments was R6, 9m it was adjusted upward to R9, 3m because the interest earned on external investments was under budgeted as the municipality is already earned R6, 4million which is more than 100% per cent in the past 7 months.

Other Revenue: There is not adjustment in the other revenue.

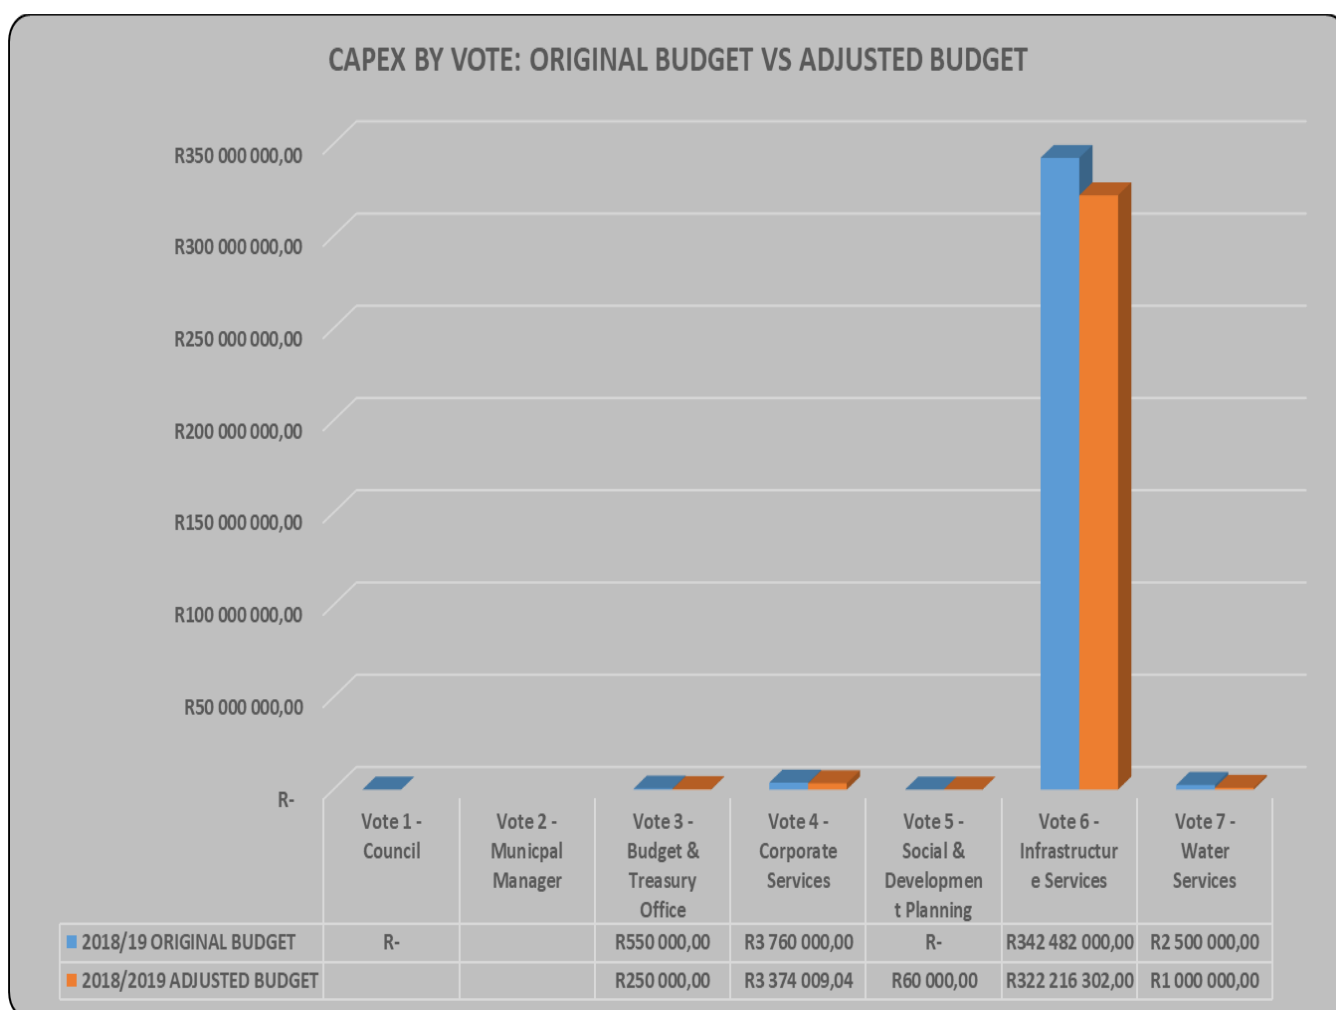

## TABLE B5 ADJUSTMENT CAPITAL EXPENDITURE BUDGET BY VOTE AND FUNDING

Schedule B5 below reports on the adjusted capital expenditures by departments (municipal vote) and also by standard classification. The bottom part of the schedule looks at the funding sources of the capital projects.

**Chart 6: Capital Expenditure by Type**

The originally approved capital budget was R 349, 2million and adjusted budget is R 326, 9million. This is mainly attributable to limited cash flow and to the downward adjustment of the following grants;

- Municipal Infrastructure Grant                      R20, 7m moved to operations budget
- Water Services Infrastructure Grant              R 9, 8m moved to operations budget

## TABLE B6 ADJUSTMENTS BUDGET FINANCIAL POSITION

## CONSOLIDATED BUDGET TABLES

### CONSOLIDATED OPERATING REVENUE

The Consolidated Adjusted revenue has increased by R34, 4m (4%) from R751, 7m to R786, 2m. This upward adjustment is mainly due to following major contributing factors;

- Service charges - water revenue : Increased by R13, 9m from R41, 7m to R58, 7million. An increase as a result of revenue enhancement strategy in place. The municipality is installing new meters and restrict to households and businesses that does not pay the municipal services. Previously the municipality was supplying 6kl free water to every household but this current financial year only indigent households received 6kls free. The municipality is also in the process of data cleansing.
- Service charges - sanitation revenue: Increased by R5, 4m from R18, 7m to R24million. An increase as a result of revenue enhancement strategy in place. The municipality is installing new meters and restrict to households and businesses that does not pay the municipal services. Previously the municipality was supplying 6kl free water to every household but this current financial year only indigent households received 6kls free.
- Operating Transfers and Grants: Grant from National Treasury has been increased and this is as a result of funding that was requested by Harry Gwala Development Agency for Local Economic Development Programmes which was organised by Provincial Treasury which is called Rural Development Grant (Rasset) to improve local SMMES.
- Interest earned - external investments: Increased by R2, 6million (37%) from R7, 2million to R 9, 9million. This is as a result of the performance of the short term investments of the municipality as at 31 December 2018.
- Capital Transfers and Grants: Capital transfers and grants has been increased due to rollover amount from previous financial year that was approved by National Treasury: The grant is for Municipal Infrastructure Grant amount to R9, 8million

## CONSOLIDATED OPERATING EXPENDITURE

The Adjusted operations budget is R459, 7m having increased by R60million from the original budget of R399, 6million. The item below had the major movements

- Employee Related Costs: Increase of R19, 1million to R188, 4million this is as a results of increases on senior manager's packages and critical posts that need to be filled in the current financial year.
- Remuneration of Councilors: Increase of R165 310 from R 6,8million to R 7million due to councilor's determination.
- Debt Impairment: Decreased by R19, 3million, this decrease is not reasonable in light of the bad debts to be written off and the collection rate patterns of consumers. The municipality processed a downward adjustment in order to balance the budget and ensure that the budget can be uploaded on the portal. This was necessitated due to the fact that a circular was issued which prohibits a municipality to have budget with a deficit leaving the municipality with no realistic alternative but to reduce non-cash items. The decision was taken after considering all the non-avoidable costs as well as streamlining expenditure to try and reduce expenditure to be within the estimated revenue receipts.
- Depreciation: The decrease is not realistic given the expenditure already incurred for the first six months of the financial year. The municipality processed a downward adjustment in order to balance the budget and ensure that the budget can be uploaded on the portal. This was necessitated due to the fact that a circular was issued which prohibits a municipality to have budget with a deficit leaving the municipality with no realistic alternative but to reduce non-cash items. The decision was taken after considering all the non-avoidable costs as well as streamlining expenditure to try and reduce expenditure to be within the estimated revenue receipts.
- Bulk Water Purchases: The downward adjustment was necessitated by the under expenditure in bulk purchases for the first six months.
- Contracted Services: An increase on contracted services mainly due to the mSCOA reclassification of budgeted amounts from other expenditure to contracted services. Another increase on contracted services is due to the R29, 7m from capital grants to the contracted services budget.
- Other expenditure : A decrease on other expenditures mainly due to the mSCOA reclassification of budgeted amounts from other expenditure to contracted services

## PART 2 – SUPPORTING DOCUMENTATION

### 2.1 Adjustments to Budget Assumptions

There have not been major shifts in the budget assumptions. However, the few points noted below are worth noting.

**External factors:** The economic slowdown as shown by the further declines in economic growth figures, the rising cost of living due to increases in the cost of borrowing and the high unemployment levels, financial resources are limited due to reduced payment levels by consumers. The latest figures released by the Census also show a decline in district population due to migration. This has resulted in declining cash inflows, which has necessitated major budgeted expenditure cuts to ensure that cash outflows remain within the affordability parameters of the district's finances.

**Collection rate for revenue services:** A collection rate of 80% of billed services was initially planned to result from the revenue management programmes in the 2018/19 financial year. However, the actual figures at mid-year called yielded more than expected results and thus resulting in an upward adjustment of the collection ratio to 71%. Cash flow forecasts have also conservatively taken these factors into consideration.

### 2.2 Adjustments to Budget funding

Cash flow constraints still continue to affect the financial sustainability of the municipality as the municipality is largely grant dependent. This high grant dependency ratio (of over 90%) means that the municipality's operations are highly sensitive to non-payment by consumers. The increasing water & sanitation infrastructural assets also tend to burden the operations budget in the form of high operations and maintenance costs.

As stated in the budget assumptions above, the adjustment to revenue collection estimated at a conservative 73 per cent.

Except for the existing ABSA loan, the Municipality has not planned to fund any of its infrastructural developments with debt instruments.

Table SB 7 below provides details of the Government Grants and Subsidies differentiated between National & Provincial Governments.

The total adjusted **Operational Government** grant allocations are as follows;

- National Government R 361, 5million

While the adjusted **Capital Funding** are as follows;

- National Government R 312, 2million

## **2.3 Adjustments to Expenditure on Allocations and Grant Programmes**

2.3.1 A total amount of R29, 7million has been reduced which is made up of the following grant allocation:

**National Government Allocations:** A number of projects that does not qualify for capitalization were shifted to the operational budget amounting to R29, 7million. Municipal Infrastructure grant rollover of R9, 8million

Harry Gwala Development Agency increased the budget with the total amount of R 3 million from Department of Cooperative Governance and Traditional Affairs.

### **Adjustments to Allocations and Grants made by the Municipality**

Due to cash flow constraints facing the municipality a downward adjustment of R1m has been made to Harry Gwala Development Agency resulted to the adjusted budget of R14million.

## **2.4 Adjustments to Councillor Allowances and Employee Benefits**

The adjustment budget did not have a material impact on the Councillors remuneration. As at midyear, the expenditure for allowances was still below the budgeted projections. This was merely intended to cover the increase in the Councillor Allowances in the second quarter as Gazetted by the Minister. This will increase the expenditure on Councillor Allowances as the new Councillor Allowances structure is effected and applied retrospectively to the beginning of the financial year.

Employee related costs have on the other hand increased by R 19million to R188million in order to cater for the critical posts that are key in strengthening the workforce that drives service delivery, to accommodate the over expenditure incurred in the past 7 months and lastly the increase for Senior managers and the backpay.

## **2.5 Adjustments to Capital Expenditure**

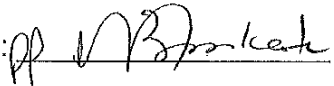

The adjustments budget has resulted in certain projects being moved from the Capital Budget to the Operations budget due their nature and the accounting treatment thereof.

## 2.6 Municipal Manager's Quality Certificates

I, **Adelaide Nomnandi Dlamini**, Municipal Manager of **Harry Gwala District Municipality**, hereby certify that the adjustments budget and supporting documentation have been prepared in accordance with the Municipal Finance Management Act and the regulations made under that Act, and that the adjustments budget and supporting documentation are consistent with the Integrated Development Plan of the municipality.
